too many of us take too much for granted for example if we saw an old lady crossing the street many of us would look at her and say well thats just an old lady or wouldnt think anything of her at all we dont stop to realize that the little old lady is someones mother that she belongs to someones family and that she means a lot to somebody we take too much for granted we let the little things that mean so much go by every day and once they are gone time never gives them back concentrate on these things because they can bring so much to your life take the time to thank your heavenly father make family time husband time wife time children time listening time talking time caring time sharing time crying time peaceful time special time and last but not least giving time

the book is a compilation of short vignettes describing certain seen observations from the point of view of one living in an unreal environment and unreal reality except for sometimes far too much of both it tries to explain through a mental split of thinking the disorder of being black and white on a red and white flag which the flag of nigeria was used to make a new flag for a young nation at peace some of the book is autobiographical and some more involved in detailed analysis of control by technology and the human animal man it may seem to be rather complex and hard to read but one must understand i wrote the book in a psychiatric hospital being brainwashed to get back on my feet again it spans a life time of observation in the nation of canada as seen through an african who is white blinded by so many mindsets about colour and race and origins leaving everything behind that was most precious

in africa i have had to live this nation s reality as my own sight seen or unseen often misplaced or taken for granted or isolated and or used and abused

my life of crime started early i can remember stealing a red squirt gun from the local grocery store at the age of nine as the years went by my criminal actions grew bigger and bolder which eventually led to juvenile hall then prison throughout my time while incarcerated i noticed that the term dog eat dog or only the strong survive applied to daily life in jail and it was usually the physically bigger that commanded respect although there were many that had a great deal of respect because they had the bigger heart however it was often the ones that were in shape or as i like to say riot ready who ran the show it wasnt hard for me to make my choice i have always been a leader so i began to exercise vigorously every day i also sought out any and all information concerning natural bodybuilding surprisingly the more i learned the more i realized how much i had previously known and i also realized that the majority of people exercising didnt have a clue as to what they were doing so i decided to really get serious about learning the ins and outs of fitness i took a correspondence course on fitness i found advertisements in the back of a fitness magazine that was when my body began to really transform my body grew more in one year than it had grown in several years of exercise it was very clear that knowledge is power since then i have made it my mission to educate and motivate others i know from experience that its not easy to get in shape while incarcerated prisons in california no longer have free weights and the food is of low quality but if you really want to get in shape it can be done in this book i have simplified the complex world of fitness by no means will it be easy but it is very possible to get in the best shape of your life without weights or supplements the term no hurt no big shirt does apply because in order to build your body up you must first break it down if you are not willing to push your body to new limits then you should put this book down now this book is only for people who are dedicated to fitness and willing to sacrifice to get it if thats you then welcome to the world of fitness and health in this book you will learn how to exercise properly to achieve maximum growth while you obtain the shredded look coveted by many you will also learn how to manufacture your own fitness equipment from ordinary objects found around your cell or your home finally you will learn about proper nutrition if you truly have the willpower and determination then you will achieve amazing results good luck brandon caine
