contemporary political philosophy elad lapidot argues that post holocaust philosophy identifies the fundamental epistemological evil of anti semitic thought not in thinking against jews but in thinking of jews in other words what philosophy denounces as anti semitic is the figure of the jew in thought lapidot reveals how paradoxically opposition to anti semitism has generated a rejection of jewish thought in post holocaust philosophy through critical readings of political philosophers such as adorno horkheimer sartre arendt badiou and nancy the book contends that by rejecting jewish thought the opposition to anti semitism comes dangerously close to anti semitism itself and at work in this rejection is a problematic understanding of the relations between politics and thought a troubling political epistemology lapidot s critique of this political epistemology is the book s ultimate aim
