their activity with the creation of the brazilian system of identification and certification of bovine and buffalo origin. In sisbov it becomes necessary that the ranchers begin to register the information of their animal herd to improve the management of their property and increase the zootechnical indicators and the profitability in the livestock activity. In this sense the rural livestock administration consists of the planning and control of the operations carried out on the rural property. This administration provides a more in depth knowledge of the activities carried out on the rural property allowing the rancher to have more security in decisions and thus have better results in the management of the rural business. In this way rural administration means planning and controlling the actions developed on the property to improve the efficiency of rural business. The main objective of the rural administration is to make an economic study of the activities developed in the rural property. The rural administration evaluates the operations carried out on the rural property through livestock management tools. In other words rural administration seeks to improve productivity gains from zootechnical indices by reducing the use of livestock inputs or by improving the management of these inputs by optimizing the resources available on the property. The resources available on the property can be material human financial or marketing. This issue of the portuguese studies review presents essays by Glenn J. Ames, N. Shyam Bhat, Sim Yong Hwei, Maria Cristina Moreira and Sérgio Veludo, Ana Mónica Fonseca and Daniel Marcos, Reinaldo Francisco Silva, Filipa Fernandes and Robert Simon. The topics covered range from colonial christian proselytization to the political interaction between portuguese goa and the karnataka war and diplomacy in the estado da india 1707-1750, portuguese military uniforms in the nineteenth century, perceptions of the united states through immigrant eyes, french and german military support for portugal in 1958-1968, the politics of water supply and the poetics of herberto helder. Modern brazilian portuguese grammar: a practical guide is an innovative reference guide to brazilian portuguese combining traditional and function based grammar in a single volume. The grammar is divided into two parts. Part A covers traditional grammatical categories such as agreement, nouns, verbs and adjectives. Part B is carefully organized around language functions covering all major communication situations such as establishing identity, making contact and expressing likes, dislikes and preferences with a strong emphasis on contemporary usage. All grammar points and functions are richly illustrated with examples. Building on the success of the first edition, this second edition also includes an introduction to the history and current status of brazilian portuguese, notes for spanish speakers pointing out the main grammatical differences between the two languages, additional explanation and exemplification of areas of particular difficulty for learners. A combination of reference grammar and practical usage manual. Modern brazilian portuguese grammar is the ideal source for learners of brazilian portuguese at all levels from beginner to advanced. Beginning with 1953 entries for motion pictures and filmstrips, music and phonorecords form separate parts of the library of congress catalogue. Entries for maps and atlases were issued separately. 1953-1955: a union list of serials commencing publication after dec 31, 1949. Destina-se àqueles que trabalham ou vão trabalhar no brasil e inclui conteúdo do nível básico ao intermediário.
