Innovation and Interdisciplinary Solutions for Underserved Areas 2018-01-24 assesses the historical sociocultural economic and political factors contributing to the escalation of alcohol related violence on the north slope of alaska findings document the entry of an alaskan eskimo community into the american market economy and federal political system

Biological and Environmental Aspects of Chromium 2013-10-22

Unconventional Sources of Dietary Fiber 1983 first published in 1995 routledge is an imprint of taylor francis an informa company

Who are the Slavs? 1919 while research on the crusades tends increasingly to bifurcate into study of the crusade idea and the crusading expeditions and study of the frankish states the crusaders established in the levant benjamin kedar confirms through the articles reproduced in this latest selection of his articles his adherence to the school that endeavours to deal with both branches of research of the ten studies that deal with the crusading expeditions one examines the maps that might have been available to the first crusaders and their muslim opponents another discusses in detail the jerusalem massacre of july 1099 and its place in western historiography down to our days a third sheds light on the largely neglected doings of the fourth crusaders who decided to sail to acre rather than to constantinople while a fourth exposes unknown features of the well known sculpture of the returning crusader most probably count hugh i of vaudémont who is embracing his wife of the ten studies that deal with the frankish levant one proposes a hypothesis on the composition stages of william of tyre s chronicle another provides new evidence on the latin hermits who chose to live in the frankish states a third examines the catalogue of the

library of the cathedral of nazareth while a fourth calls attention to convergences of eastern christians muslims and franks in sacred spaces and offers a typology of such events and a fifth proposes a methodology for the identification of trans cultural borrowing in the frankish levant

Barriers and Biases in Computer-Mediated Knowledge Communication 2006-03-30 this edited volume the first book devoted to the topic of contract cheating brings together the perspectives of leading scholars presenting novel research contract cheating describes the outsourcing of students assessments to third parties such that the assignments or exams students submit are not their own work while research in this area has grown over the past five years the phenomenon has been exacerbated by the covid 19 pandemic themes addressed in this book include the definition of contract cheating its prevalence in higher education and what motivates students to engage in it chapter authors also consider various interventions that can be used to address contract cheating s threat to academic integrity in higher education including assessment practice education detection strategies policy design and legal interventions
