Problems in Ethics, Or, Grounds for a Code of Rules for Moral Conduct

2023-07-18

excerpt from problems in ethics or grounds for a code of rules for moral conduct the author may seem to some to plunge in medias res but he has endeavored to write primarily for those who are thoughtfully busy with these problems and some acquaintance on their part with former solutions is necessarily presupposed but the ordinary and unlearned reader will not find serious difficulty here as the several problems are presented and argued in such a way as to be easily understood by such about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Legal Ethics

2013

this title was first published in 2002 the wide range of essays contained within this volume present contemporary thinking on the legal and ethical implications surrounding modern medical practice

The Model Rules of Professional Conduct

2015

rules perform a moral function by restating moral principles in concrete terms so as to reduce the uncertainty error and controversy that result when individuals follow their own unconstrained moral

judgment although reason dictates that we must follow rules to avoid destructive error and controversy rules and hence laws are imperfect and reason also dictates that we ought not follow them when we believe they produce the wrong result in a particular case in the rule of rules larry alexander and emily sherwin examine this dilemma once the importance of this moral and practical conflict is acknowledged the authors argue authoritative rules become the central problems of jurisprudence the inevitable gap between rules and background morality cannot be bridged they claim although many contemporary jurisprudential schools of thought are misguided attempts to do so alexander and sherwin work through this dilemma which lies at the heart of such ongoing jurisprudential controversies as how judges should reason in deciding cases what effect should be given to legal precedent and what status if any should be accorded to legal principles in the end their rigorous discussion sheds light on such topics as the nature of interpretation the ancient dispute among legal theorists over natural law versus positivism the obligation to obey law constitutionalism and the relation between law and coercion those interested in jurisprudence legal theory and political philosophy will benefit from the edifying discussion in the rule of rules

Medical Law and Ethics

2017-11-22

Rules and Ethics

2021

it is commonly accepted that the golden rule most often formulated as do unto others as you would have them do unto you is a unifying element between many diverse religious traditions both eastern and western its influence also extends beyond such traditions since many non religious individuals hold up the golden rule as central to their lives yet while it is extraordinarily important and widespread the golden rule is often dismissed by scholars as a vague proverb that quickly leads to absurdities when one attempts to formulate it in clear terms in this book harry j gensler defends the golden rule and addresses all of the major philosophic objections pointing out several common misunderstanding and misapplications gensler first discusses golden rule reasoning and how to avoid the main pitfalls he then relates the golden rule to world religions and history and to areas like moral education egoism evolution society racism business and medicine the book ends with a discussion of theoretical issues like whether all morality reduces to the golden rule which the author argues against ethics and the golden rule offers two introductory chapters the first is simpler and the second more technical a reader may start with either or both one can then read any combination of further chapters in any order depending on one s interests but chapters 13 and 14 are technical and assume one has read chapter 2 this is a golden rule book for everyone accessible to a wide readership

Law and Ethics for Health Practitioners - eBook

2019-10-15

Ethics and the Golden Rule

2013-05-20

this book examines an interesting and relatively understudied area of the evolution of the international rule of law and the role of professional ethics the rule of law has been gradually developed and promoted at the national level over centuries however at the international level it has only recently received more in rhetoric than in implementation support from a macro perspective developments of international rules and institutions and from a micro perspective ethical codes independence and un bias of professionals working in international organizations and tribunals the book offers analysis and recommends policies to strengthen the rule of law at international level to meet a major global governance demand in ensuring equity justice stability and consistency in international affairs

Model Rules of Professional Conduct and Other Selected Standards, Including California and New York Rules on Professional Responsibility

2015

this volume is a revised enlarged and broadened version of gert s classic 1970 book the moral rules advocating an approach he terms morality as impartial rationality gert here presents a full discussion of his moral theory adding a wealth of new illuminating detail to his analysis of the concepts rationality irrationality good evil and impartiality by which he defines morality he constructs a moral system that includes rules prohibiting the kinds of actions that cause evil procedures for determining when violation of the rules is permitted and ideals which encourage actions that prevent or relieve suffering to be valid gert argues any such system must be a public system that applies to all rational persons the book concludes with a discussion of medical ethics demonstrating the link between moral theory and its application to real moral problems

1922

model rules of professional conduct 2022 edition is the resource for current information on lawyer ethics federal state and local courts in all jurisdictions look to the rules for guidance in resolving lawyer malpractice cases disciplinary actions disqualification issues sanctions questions and much more

Morality

1988

can someone be a good person yet act in a professional role that may involve deception procedural trickery withholding information and working on behalf of terrible people and institutions this question is at the heart of legal ethics using cases from around the common law world w bradley wendel looks at issues including confidentiality the moral responsibility of lawyers and truth and deception in advocacy he then examines the classic questions of philosophy of law including the nature of law positivism natural law the relationship between law and morality unjust legal systems and the obligation to obey the law finally he considers the ethical issues surrounding the role of lawyers including criminal defense and prosecution civil litigation counseling clients on the law and representing corporations combining the theoretical philosophical and practical his book will be of vital interest to students of law the philosophy of law ethics and political philosophy

Model Rules of Professional Conduct and Code of Judicial Conduct

1983

judges sometimes hear cases in which the law as they honestly understand it requires results that they consider morally objectionable most people assume that nevertheless judges have an ethical obligation to apply the law correctly at least in reasonably just legal systems this is the view of most lawyers legal scholars and private citizens but the arguments for it have received surprisingly little attention from philosophers combining ethical theory with discussions of caselaw jeffrey brand ballard challenges arguments for the traditional view including arguments from the fact that judges swear oaths to uphold the law and arguments from our duty to obey the law among others he then develops an alternative argument based on ways in which the rule of law promotes the good patterns of excessive judicial lawlessness even when morally motivated can damage the rule of law brand ballard explores the conditions under which individual judges are morally responsible for participating in destructive patterns of lawless judging these arguments build upon recent theories of collective intentionality and presuppose an agent neutral framework rather than the agent relative framework favored by many moral philosophers defying the conventional wisdom brand ballard argues that judges are not always morally obligated to apply the law correctly although they have an obligation not to participate in patterns of excessive judicial lawlessness an individual departure from the law so as to avoid an unjust result is rarely a moral mistake if the rule of law is otherwise healthy limits of legality will interest philosophers legal scholars lawyers and anyone concerned with the ethics of judging

Ethics Opinions

1968

this volume includes the annotated american bar association model rules of professional conduct selected state modifications to the aba model rules the california rules of professional conduct the new york s code of professional responsibility the aba model code of professional responsibility the aba canons of professional ethics the aba model code of judicial conduct the federal rules of judicial conduct and judicial disability proceedings and rules of evidence and procedure that affect the legal profession
