in his book about the discovery of the structure of dna james watson wrote so we had lunch telling ourselves that a structure this beautiful just had to exist indeed the quest most often asked by scientists about a scientific theory is is it beautiful yes beauty equals truth scientists know mathematicians know but the beauties the truths of mathematics and science were not the truths that inspired the author as a child and he intuitively knew that the truths he needed come from a different way of knowing a way of knowing not of

the world of logic and reason and explanation though they have a value but rather a way of knowing that is of the world expression a world that enters the truths beyond the grasp of logic that is what this book is all about it is an exploration of the greatest minds of human existence struggling to understand the deepest truths of the human condition this second edition updates the previous one incorporating new publications on van gogh recent discoveries in neurology psychology and the rapid developments in understanding dna and biotechnology we ve come a long way already from that original discovery by watson and his coauthor francis crick

the greek word translated as socrates is actually a compound that means save from death and power over so the intent of the compound is to point to one who has power over life and death and that one is christ harold north fowler in his introduction to the apology says that the high moral character and genuine religious faith of socrates are made abundantly clear throughout this whole discourse it would seem almost incredible that the athenian court voted for his condemnation if we did not know the fact when we keep in mind the true intent of the compound translated as socrates then we can be certain that it was not the athenian court that voted for the condemnation and death of this man with a high moral character but rather a multitude of people who were influenced by the members of the sanhedrin in jerusalem behold the man reveals how inaccurate and misleading english translations have been of ancient greek literature and the author makes a compelling case for christ being at the center of the iliad classical greek drama plato and greek literature from herculaneum

moving modernism reenacts the simultaneous eruption of three spectacular revolutions the development of pictorial abstraction the first modern dance and the birth of cinema which together changed the artistic landscape of early twentieth century europe and the future of modern art rather than a book about dancing pictures or about pictures of dancing however this study follows the chronology of the historical avant garde to show how dance and pictures were engaged in a kindred exploration of the limits of art and perception that required the

process of abstraction recovering performances working methods and circles of aesthetic influence and reception for avant garde dance pioneers and experimental filmmakers from the turn of the century to the interwar period moving modernism challenges to modernism's medium specific frameworks by demonstrating the significant role played by the arts of motion in the historical avant garde's development of abstraction from the turn of the century dancer loïe fuller who awakened in symbolist artists the possibility of prolonged or suspended vision to cubo futurist and neo symbolist artists who reached pure abstraction in tandem with the radical dance theory and performance of valentine de saint point sophie taeuber's hybrid dadaism between art and dance to akarova a prolific choreographer linked to belgian constructivism whose pioneers called her dance music architecture living geometry and pure plastics and finally to the dancing images of early cinematic abstraction from edison and the lumières to hans richter fernand léger and germaine dulac each chapter reveals abstraction's emergence not only as a formal strategy but as an apparatus of creation perception and reception deployed across artistic media toward shared modernist goals focusing on abstraction's productive rather than reproductive value andrew argues that

abstraction can be worked like a muscle a medium through which habits of reception and perception are broken and art s viewers engaged by the kinaesthetic sensation to move and be moved

feminisms have played a crucial part in art art history and curatorial practices over the last forty years hence it is by now imperative to scrutinize the history of feminist theories and methods within both fields feminisms is still our name is an anthology that critically debates the current status of feminisms in visual art and its relation to past art histories and possible feminist futures it brings together essays by leading scholars in order to meet the urgent need both for a critical historiography and for re vitalizations of feminist practices within written as well as visual narratives of modern and contemporary art from a variety of perspectives the editors and contributors to this book initiate a much needed debate about possible strategies for a renewal of feminisms in art history and curating at the same time it

demonstrates the necessity of further explorations and research into the diversity of feminist pasts indeed this volume provides strong arguments that historiographical critique is an inevitable part of any future feminism s in providing fresh approaches to such important fields as feminist art history and feminist curating the essays assembled in feminisms is still our name will provoke fruitful discussion about the relation between academic and curatorial feminist practices contributors renee baert malin hedlin hayden lolita jablonskiene amelia jones mary kelly griselda pollock and jessica sjöholm skrubbe

Masterpieces of the J. Paul Getty Museum: Paintings 1997-11-13

no one heard the shot no one ever found the gun it was sunday july 27 1890 vincent had recently finished wheatfield with crows thought to be his final painting one that he described as representing vast fields of wheat beneath troubled skies one where he said in a letter he meant to send to theo i did not need to go out of my way to try to express

cheerlessness and extreme loneliness the letter never got sent but was found stuffed in his smock that morning as usual he walked out into the wheat fields with his easel brushes tubes of color and folding stool perhaps hoping to reach his destination before the gang of local boys and girls were up and able to tease him and throw tomatoes le crau a wide plain of ripe grain fields of citron yellow tan and ochre spread out beneath the bright provencal sun it s safe to assume he heard the cicadas singing loudly the swiping swishes of the farmers scythes already cutting through the rich wheat stalks the gusts of wind whispering through the olive branches driven and filled with energy for months he had been quickly with an assurance that overcame and perhaps even came from his doubts and struggles putting his own dramatic visions on canvas after canvas but today he did not go into the fields to paint or perhaps in the beginning he did perhaps in the morning that was his intention no one will ever know he said he brought the revolver to frighten off the crows possibly that was his original intention when he included it with his lunch of bread and milk in the end it s probably not relevant except for the endless attempts to analyze him to dig into his complex psyche at once brilliant and yet impelled to self destruction the ravoux family were

sitting on the terrace of their café when he returned a bit concerned because he was late but not overly so when he finally appeared his walk was more uneven than usual and he held his hand over his stomach monsieur vincent mrs ravoux said we were worried we are glad to see you come has anything bad happened no but i he left his reply unfinished as he passed inside mr ravoux followed him upstairs where he found him sitting on his bed facing the wall i wanted to kill myself this book is a critical examination of vincent van gogh that offers insights into his life his religious beliefs his relationships with women and of course his paintings it includes discussions of his letters and responds to many of the previous works about him dispelling some of the myths that have no foundation and pointing out how many of the claims made about him and many of the popular beliefs that have grown up around him are at best guesswork it explores psychological neurological theological philosophical aesthetic and historical paradigms for comprehending his enigmatic and enticing personality

to prepare for the role of the joker heath ledger locked himself in a london hotel room trying to understand and become a character he saw as an absolute sociopath a cold blooded mass murdering clown who was not intimidated by anything and found all of life a big joke in the end ledger s obsession with his role contributed to his own death from drugs before the dark knight was released the connections and irony are too close to ignore the movie gives the world a curious twist on the roles of batman and the joker it s politically incorrect and yet emotionally the joker s insanity becomes more endearing than batman s noble sacrifice what is it why does this psychopath seem to have a sense of higher truths in his insanity this is the role of the joker or the fool a standard character in theatre and a role consciously adopted by serious artists since the late 1800s just as shakespeare s fool in king lear used his riddles and puns and satire to reveal the truths the royal leaders of his world could not or refused to see today s artists are both revealing the darkness within the culture and offering a way out waiting for godot has been proclaimed the greatest play of the twentieth century but there are no great roles in it no

characters representing the equivalent of shakespeare s hamlet rather the two main characters are closer to t s eliot s j alfred prufrock who says he cannot be a hamlet only perhaps hamlet s fool this book explores what has happened as europe s culture fragmented and the world lost its center it explores a range of different arenas from political and social and religious happenings to scientific and artistic expressions in order to find the centers of the human condition and how the dark expressions of meaninglessness so commonly highlighted are more rites of passage than the final destination
