assistant charlie zawadzki once i got started i couldn t stop the history of e jeanne began around 1999 really ramped up when 9 11 hit our nation became more organized and intentional thereafter and continued until 2005 you see e jeanne was a precursor of currently popular blogs although we called her an e zine she was assembled early in the morning right after my morning devotions in fact i realize that many of my morning devotions somehow crept into the e editorials and then forwarded by e mail to over 300 people all around the world i did this two or three days a week for 10 years like i said maybe i am a little crazy this is not a book you can rush through unless you are only looking for jokes and i am astonished how small the font has to be in order to fit everything in you re going to need a bookmark to help mark your spot always my goal was to fulfill let your good works shine out for all to see so that everyone will praise your heavenly father matthew 5 16 the asia pacific development journal apdj is published twice a year by the macroeconomic policy and financing for development division of the united nations economic and social commission for asia and the pacific the primary objective of the apdj is to provide a platform for the exchange of knowledge experience ideas information and data on all aspects of economic and social development issues and concerns facing the region and aims to stimulate policy debate and assist in the formulation of policy the development experience in the asian and the pacific region has stood out as an extraordinary example of what can be achieved when policymakers experts scholars and people at large harness their creativity knowledge and foresight the apdj has been a proud partner in this process providing a scholarly means for bringing together research work by eminent social scientists and development practitioners from the region and beyond for use by a variety of stakeholders over the years the journal has emerged as a key united nations publication in telling the asian development story in a concise coherent and impartial manner to stimulate policy debate and assist in the formulation of policy in the region this special issue contains five selected discussion papers edited and revised from the third international conference on financing for development held in addis ababa ethiopia from 13th to 16th july 2015 it highlights the importance of raising substantial financial resources various sources to invest in the social sectors infrastructure development and efforts to tackle document the world economy is experiencing a very strong but uneven recovery with many emerging market and developing economies facing obstacles to vaccination the global outlook remains uncertain with major risks around the path of the pandemic and the possibility of financial stress amid large debt loads policy makers face a difficult balancing act as they seek to nurture the recovery while safeguarding price stability and fiscal sustainability a comprehensive set of policies will be required to promote a strong recovery that mitigates inequality and enhances environmental sustainability ultimately putting economies on a path of green resilient and inclusive development prominent among the necessary policies are efforts to lower trade costs so that trade can once again become a robust engine of growth this year marks the 30th anniversary of the global economic prospects the global economic prospects is a world bank group flagship report that examines global economic developments and prospects with a special focus on emerging market and developing economies on a semiannual basis in january and june each edition includes analytical pieces on topical policy challenges faced by these economies global growth is projected to slow significantly in the second half of this year with weakness continuing in 2024 inflation pressures persist and tight monetary policy is expected to weigh substantially on activity the possibility of more widespread bank turmoil and tighter monetary policy could result in even weaker global growth rising borrowing costs in advanced economies could lead to financial dislocations in the more vulnerable emerging market and developing economies emdes in low income countries in particular fiscal positions are increasingly precarious comprehensive policy action is needed at the global and national levels to foster macroeconomic and financial stability among many emdes and especially in low income
