this two volume set surveys the profound impact of political humor and satire on american culture and politics over the years paying special attention to the explosion of political humor in today s wide ranging and turbulent media environment historically there has been a tendency to regard political satire and humor as a sideshow to the wider world of american politics entertaining and sometimes insightful but ultimately only of modest interest to students and

others surveying the trajectory of american politics and culture this set documents just how mistaken that assumption is by examining political humor and satire throughout us history these volumes not only illustrate how expressions of political satire and humor reflect changes in american attitudes about presidents parties and issues but also how satirists comedians cartoonists and filmmakers have helped to shape popular attitudes about landmark historical events major american institutions and movements and the nation s political leaders and cultural giants finally this work examines how today s brand of political humor may be more influential than ever before in shaping american attitudes about the nation in which we live

this book explores the question of how society has changed with the introduction of private screens taking the history of television in ireland as a case study due to its position at the intersection of british and american media influences this work argues that internationally the transnational nature of television has been obscured by a reliance on institutional historical sources this has in turn muted the diversity of audience experiences in terms of class gender and geography by shifting the focus away from the default national lens and instead turning to audience memories as a key source a post nationalist history of television in ireland defies the notion of a homogenous national television experience and embraces the diverse and transnational nature of watching television turning to

people's memories of past media this study ultimately suggests that the arrival of the television in Ireland and elsewhere was part of a long term incremental change where the domestic and the intimate became increasingly fused with the global
