Banking Sector Crises and Inequality 2005

an apparent temporary narrowing of income inequality has been observed during several recent banking crises but it would be a mistake to conclude that such crises don t matter for the poor for one thing the correlation is not strong and the opposite pattern has also been present besides the poor are much less able to absorb a cut in income safety net policies are crucial during a downturn even if the gap between rich and poor has temporarily narrowed more fundamentally distributional shifts during the crisis may be less important than the fact that underlying financial policy and infrastructures conducive to crisis can also be associated with more unequal societies

The Elusive Quest for Inclusive Growth 2013-06-26

this paper assesses how pro poor and inclusive asia s recent growth has been and what factors have been driving these outcomes it finds that while poverty has fallen across the region over the last two decades inequality has increased dampening the impact of growth on poverty reduction as a result relative to other emerging and developing regions and to asia s own past the recent period of growth has been both less inclusive and less pro poor our analysis suggests a number of policies that could help redress these trends and broaden the benefits of growth in asia these include fiscal policies to increase spending on health education and social safety nets labor market reforms to boost the labor share of total income and reforms to make financial systems more inclusive

the 17th and 18th centuries have been regarded as one of the most exciting periods in the history of hungary and transylvania the wars of liberation to terminate the ottoman occupation the integration of the transylvanian principality into the habsburg empire after 150 years relative independence the colonisation of the uncultivated lands during the ottoman rule the re organisation of daily life and prince francis ferenc rákóczi s independence war 1703 1711 indicated serious challenges for the habsburg court in vienna this period 1686 1711 felled serious duties to the hungarian catholic church too prior to these duties the process of counter reformation in hungary s eastern and northern regions was getting increasingly under way orthodox ruthenians and romanians in transylvania united with the roman catholic church the bishops who were highly supported by the missionaries delegated from rome in order to re organise the hungarian catholic church s religious life re appeared at the seats of the abandoned dioceses after the 150 years ottoman occupation and nearly 110 years pressure from the strong protestantism supported by the princes of transylvania the armenians church union in transylvania

must be in fact analysed in this church historical context the history of armenians in transylvania escaping from moldavia and podolia between 1668 and 1672 should be regarded practically as an undiscovered area from both the hungarian and international church historical point of view the church union of the armenians in transylvania is primarily associated with bishop oxendio virziresco s 1654 1715 an armenian uniate cleric educated at collegium urbanum in rome missionary efforts in this work i have tried to look for evident responses to these afore mentioned problems resting on the partly discovered and undiscovered sources as well as analysing critically a few of secondary literature
