empirical studies in comparative politics presents a collection of papers analyzing the political systems of ten nations it intends to provoke a conscious effort to compare and investigate the public choice of comparative politics there have been many publications by public choice scholars and many more by researchers who are at least sympathetic to the public choice perspective yet little of this work has been integrated into the main stream of comparative political science literature this work however presents an empirically oriented study of the politics bureaucratic organization and regulated economies of particular nations in the canon of the comparativist it
