the athenian democracy of the fifth and fourth centuries b c is the most famous and perhaps most nearly perfect example of direct democracy covering the period 403 322 b c mogens herman hansen focuses on the crucial last thirty years which coincided with the political career of demosthenes hansen distinguishes between the city s seven political institutions the assembly the nomothetai the people s court the boards of magistrates the council of five hundred the areopagos and ho boulomenos he discusses how athenians conceived liberty both as the ability to participate in the decision making process and as the right to live without oppression from the state or other citizens equality was conceived of as an equality not of nature but of opportunity this is the sixth volume in the oratory of classical greece this series presents all of the surviving speeches from the late fifth and fourth centuries bc in new translations prepared by classical scholars who are at the forefront of the discipline these translations are especially designed for the needs and interests of today s undergraduates greekless scholars in other disciplines and the general public classical oratory is an invaluable resource for the study of ancient greek life and culture the speeches offer evidence on greek moral views social and economic conditions political and social ideology law and legal procedure and other aspects of athenian culture that have been largely ignored women and family life slavery and religion to name just a few demosthenes is regarded as the greatest orator of classical antiquity indeed his very eminence may be responsible for the inclusion under his name of a number of speeches he almost certainly did not write this volume contains four speeches that are most probably the work of apollodorus who is often known as the eleventh attic orator regardless of their authorship however this set of ten law court speeches gives a vivid sense of public and private life in fourth century bc athens they tell of the friendships and quarrels of rural neighbors of young men joined in raucous intentionally shocking behavior of families enduring great poverty and of the intricate involvement of prostitutes in the lives of citizens they also deal with the outfitting of warships the grain trade challenges to citizenship and restrictions on the civic role of men in debt to the state the first detailed commentary on demosthenes political speech on the chersonese delivered in 341 bc at a time when athens was under political pressure from philip of macedon a brilliant demonstration of demosthenes skill as an orator the speech argues in favour of the athenian general diopeithes in the face of the threat of retaliation by philip against his actions this edition of demosthenes famous oration includes helpful notes and commentary providing readers with insight into the historical and cultural context of the speech demosthenes words are as powerful today as they were when they were first spoken and this book is a valuable resource for anyone interested in ancient history and rhetoric this work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it this work is in the public domain in the united states of america and possibly other nations within the united states you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public we appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant originally published in 1915

The Athenian Democracy in the Age of Demosthenes 1999

the athenian democracy of the fifth and fourth centuries b c is the most famous and perhaps most nearly perfect example of direct democracy covering the period 403-322 b c mogens herman hansen focuses on the crucial last thirty years which coincided with the political career of demosthenes hansen distinguishes between the city's seven political institutions: the assembly, the nomothetai, the people's court, the boards of magistrates, the council of five hundred, the areopagos and the boulomenos. he discusses how athenians conceived liberty both as the ability to participate in the decision-making process and as the right to live without oppression from the state. other citizens' equality was conceived of as an equality not of nature but of opportunity.

The Athenian Democracy in the Age of Demosthenes 1991

this is the sixth volume in the oratory of classical greece. this series presents all of the surviving speeches from the late fifth and fourth centuries bc in new translations prepared by classical scholars who are at the forefront of the discipline. these translations are especially designed for the needs and interests of today's undergraduates, greekless scholars in other disciplines, and the general public. classical oratory is an invaluable resource for the study of ancient greek life and culture. the speeches offer evidence on greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of athenian culture that have been largely ignored: women and family life, slavery and religion, to name just a few. demosthenes is regarded as the greatest orator of classical antiquity. indeed, his very eminence may be responsible for the inclusion under his name of a number of speeches he almost certainly did not write. this volume contains four speeches that are most probably the work of apollodorus, who is often known as the eleventh attic orator, regardless of their authorship. however, this set of ten law-court speeches gives a vivid sense of public and private life in fourth-century bc athens. they tell of the friendships and quarrels of rural neighbors, of young men joined in raucous, intentionally shocking behavior, of families enduring great poverty, and of the intricate involvement of prostitutes in the lives of citizens. they also deal with the outfitting of warships, the grain trade, challenges to citizenship, and restrictions on the civic role of men in debt to the state.

Demosthenes, Speeches 50-59 2003-07-01

the first detailed commentary on demosthenes' political speech on the chersonese, delivered in 341 bc, at a time when athens was under political pressure from philip of macedon. a brilliant demonstration of demosthenes' skill as an orator, the speech argues in favour of the athenian general diopeithes in the face of the threat of retaliation by philip against his actions.

excerpt from the oration of demosthenes on the crown with extracts from the oration of aeschines against ctesiphon and explanatory notes to be sure his oration also perfect as it is in its structure has its shadows such are the personal assaults upon zeschines comments upon which are to be found in 129 258 if and here we may not pass by unnoticed the fact that demosthenes does not always candidly and simply limit himself to the bare statement of facts especially is this the case when he wishes to expose the weak points of his antagonist s policy or to conceal those of his own but on the contrary occasionally he gives to his representation a plausible and sophistical coloring in this however he differs in no wise from all his contemporaries and at all events these sophisms unjustifiable though they are when taken by themselves employed in a good cause are not able to weaken at all the impression of truthfulness which the oration produces as a whole about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing
