Globalization: The nation-state and international relations 2003 globalization the growing integration of economies and societies around the world is a complex process the focus of this research is the impact of economic integration on developing countries and especially the poor people living in these countries whether economic integration supports poverty reduction and how it can do so more effectively are key questions asked the research yields 3 main findings with bearings on current policy debates about globalization firstly poor countries with some 3 billion people have broken into the global market for manufactures and services and this successful integration has generally supported poverty reduction secondly inclusion both across countries and within them is important as a number of countries pop 2 billion are failing as states trading less and less and becoming marginal to the world economy thirdly standardization or homogenization is a concern will economic integration lead to cultural or institutional homogenization

Globalization, Growth, and Poverty 2002 in this revised edition of globalization in world history peter stearns explores the roots of contemporary globalization examining shifts in the global flow of people goods and ideas as early as 1000 ce exploring how four moments in history have accelerated the process of globalization stearns s narrative details how factors such as economics migration disease transmission culture the environment and politics have influenced the nature of globalization as we understand it today this revised and updated second edition includes a broadened discussion of regional reactions to globalization anchoring the topic in world history and allowing for discussions of nationalism a detailed look at the effects of globalization on the environment an expanded analysis of athletics youth culture and the problems of globalization today a supplementary online chapter by chapter reading guide which provides additional background context and support for readers with an interdisciplinary approach that links political sociological and historical perspectives stearns s book provides an ideal overview of the current state of globalization and the historical factors that have shaped it

Globalization in World History 2016-07-15 as one of the most innovative and influential thinkers in international relations for more than three decades robert o keohane s groundbreaking work in institutional theory has redefined our understanding of international political economy consisting of a selection of his most recent essays this absorbing book address such core issues as interdependence institutions the development of international law globalization and global governance the essays are placed in historical and intellectual context by a substantial new introduction outlining the developments in keohane s thought and in an original afterword the author offers a challenging interpretation of the september 11th attacks and their aftermath undoubtedly this book is essential reading for anyone with an interest in international relations

Globalization: Global membership and participation 2003 no word has evoked as much passion in recent times as the word globalization which carries an array of meanings among different people and disciplines but the fact is that globalization is an historical process that has connected the world and influenced it for better or worse in every aspect of life a world connected globalization in the 21st century is a collection of more than 100 thought provoking essays by renowned scholars journalists and leading policymakers published over the past decade by the flagship publication of the yale center for the study of globalization yaleglobal online the essays are grouped by chapters on global economy and trade security diplomacy society culture health and environment demography and immigration anti globalization innovation and global governance and offer insights about globalization trends for the future the volume contains a general introduction by the editors and a preface by yale university president richard c levin provided by publisher

Political Economy in a Globalized World 2003-09-02 scholars of different schools have extensively analyzed world systems as networks of communication under the fashionable heading globalization our collected new research pushes the argument one step further globalization is not a homogenization of all social life on earth it is a heterogeneous process that connects the global and the local on different levels to understand these contemporary developments this book employs innovative concepts strategies of research and explanations globalization is a metaphor for different borderstructures new borderlines and conditions of membership which emerge in a global world system as a world system expands it incorporates new territories and new peoples the process of incorporation creates frontiers or boundaries of the world system these frontiers or boundary zones are the locus of resistance to incorporation ethnogenesis ethnic transformation and ethnocide

Power and Governance in a Partially Globalized World 2012-12-03 since the 1970s various sociological approaches have tried to understand and conceptualize the global yet few of them have systematically addressed the full spectrum of social relationships prominent exponents of the global approach such as world systems analysis instead have focused on particular domains such as politics or the economy under the label of world society however some authors have suggested alternatives to the predominant equivocation of society and the nation state the contributions to this volume share that objective and take their point of departure

from the two most ambitious projects of a theory of world society world polity research and systems theory mapping out the common ground and assessing their potential to inform empirical analyses of globalization

A World Connected 2002-03-31 globalization an introduction to the end of the known world surveys the history of globalization from the earliest of ancient texts through contemporary debates and the prospects for anticipating the new worlds to come at the end of the twentieth century debates over the nature of globalization were unable to agree on a simple resolution except to say that globalization is economic political and cultural all at once cultural globalization affects everyone with a smartphone on which global youth from los angeles to jakarta listen to jay z and beyonce states are torn in several directions at once by unsettling economic political and cultural forces lemert concludes with a serious outline of the possible ways of imagining what the still unknown global world will become next ways including optimism caution and skepticism

Borderlines in a Globalized World 2014-08-01 in this collection of refreshing and provocative essays the contributors to theorizing foreign policy in a globalized world reflect on the game changing political impact of globalization outlining the situation as it currently stands and suggesting strategies for analyzing foreign policy and global governance

From Globalization to World Society 2015 this warped travel book remixes three main themes globalization energy wars and the pentagons long war originally packaged as the war on terror youre going to revisit the asymmetrical wars in afghanistan and iraq youre going to crisscross the islamic world youre going to follow a lot of pipelines youll be acquainted with the iran the next war will probably hit youll see how national resistance wars have nothing to do with terrorism youll be confronted over and over again with strategic competitor asiawhere the future of the 21st century is being played out youre going to revisit how where and who profits from economic globalization and especially war corporatism youll see how and where possible new orders are emerging and old orders disintegrating and you will finish the pilgrimage back in the middle of apredictableglobal war of the privileged few against the excluded many

Globalization 2015-04-29 written by two leading scholars of global politics globalization the return of borders to a borderless world is a major new book for students of globalization it describes and explains globalization and its origins and examines its future in light of key recent political and global trends and events the text identifies the different political economic technological and cultural meanings of globalization examines its historical origins from the ancient past through the cold war and into the twenty first century describes the multiple attributes and consequences of globalization including its effect on the sovereignty of the nation state discusses recent trends such as the increased use of social media and events like the arab spring assesses the normative implications of globalization analyzes the challenges to globalization posed by contemporary events such as the global financial crisis this book will be essential reading for all students of globalization and will be of great interest to students of global politics and global governance

Theorizing Foreign Policy in a Globalized World 2006 essay from the year 2011 in the subject politics international politics topic globalization political economics grade 0 80 liverpool john moores university course people and citizenship in a global society language english abstract the following essay sets out to investigate in what ways globalization has transformed citizenship and the issues surrounding it the reduction of trading barriers alongside the increasingly advanced technologies has led to a progressively globalized world which in turn has influenced many areas including the concepts and practices of citizenship in practice citizenship is still mostly considered in liberal terms as a set of rights and obligations that accompany specifically defined membership in a nation state however the global flows of information goods capital and people are challenging the traditional frameworks of citizenship and changing the way individuals perceive themselves and their place in the world in addition citizenship has been transformed in two levels vertically between individual citizens and political authorities as well as horizontally between citizens moreover transformations can be further observed on both a philosophical and a practical level which will be investigated in turn the essay concludes that there is an increased awareness of the global problems facing contemporary world as well as a notion of the need for an increased responsibility on both individual and nation state level however the future will show whether the increased interconnections between various groups will lead to greater solidarity or generate new conflicts

Globalistan 1998 the beginning of the twenty first century will be remembered friedman argues not for military conflicts or political events but for a whole new age of globalization a flattening of the world the explosion of advanced technologies now means that suddenly knowledge pools and resources have connected all over the planet levelling the playing field as never before so that each of us is potentially an equal and competitor of the other the rules of the game have changed forever but

does this death of distance which requires us all to run faster in order to stay in the same place mean the world has got too small and too flat too fast for us to adjust friedman brilliantly demystifies the exciting often bewildering global scene unfolding before our eyes one which we sense but barely yet understand the world is flat is the most timely and essential update on globalization its successes and its discontents powerfully illuminated by a world class writer in his new chapters if it s not happening it s because you re not doing it and what happens when we all have dog s hearing the author explores both the benefits and disadvantages of the very latest developments in global communication the emergent popularity of blogging pod casting youtube and myspace enable the modern world citizen to broadcast their views to a potential audience of billions and the proliferation of internet access to even the poorest communities gives everyone who wants to the tools to address issues of social injustice and inequality on the other hand the technology that seems to improve communication on a global scale causes it to deteriorate on a local scale identifying ours as the age of interruption friedman discusses the annoyance and dangers of blackberrys in meeting rooms hands free kits in conversation and using a phone or ipod whilst driving in an age when we are always connected via email or mobile phone how can we hope to concentrate on one thing without interruption as expected the author has revitalised this new edition of the world is flat with timely insights into the nature of our flat world

Handbook on the Globalization of the World Economy 2012-03-15 this volume provides a unique open inter disciplinary dialogue across the humanities and social sciences to further our understanding of the phenomenon of regions and regionalism in a globalized world both at the theoretical and empirical levels what comprises a region what are the different regional dynamic processes that take place what is the relationship between the regional and the global what role does identity building play bringing together scholars from various disciplines within and across the social sciences and the humanities to reflect on these questions the book explores how regions are imagined constructed understood and explained in different academic disciplines each chapter addresses these common questions and uses its own disciplinary lenses to answer them in addition the volume offers interesting reflections on the academic borders constructed in the study of regions thus demonstrating the importance of obtaining insights from both social scientists and humanities scholars in order to better understand the relevance of regions in a complex and globalized world an important work for scholars and postgraduate students in many fields including political science international relations sociology economics geography history and literature as well as for those interested in regionalism and area studies

Globalization 2020-01-17 the book deals with pros and cons of globalization and its focus extends both to the home and host countries while globalization has been beneficial it has not been without challenges for both home and host countries there are many areas where the host countries tend to benefit significantly from globalization the interface with the global economy unleashes a lot of positive energy in the economic systems of the affected countries particularly in the host country s economy the book deals with the challenge of immigration which the developed countries are facing as an offshoot of inclusiveness that comes with globalization increased debt intensity in some of the developed economies have resulted from their integration with the world economy which many countries have witnessed since early 1990s the book also delves into how the phenomenon of globalization has been leveraged by some countries more than others while us has been the leader in unleashing globalization india an effervescent democracy have gained substantially from this trend having significantly developed its professional competencies

The Impact of Globalisation on Citizenship 2007 essay from the year 2006 in the subject politics international politics topic globalization political economics university of north florida language english abstract according to the online dictionary merriam webster online globalization is the development of an increasingly integrated global economy marked especially by free trade free flow of capital and the tapping of cheaper foreign labor markets globalization however reaches beyond the economic scope since it is a term that encompasses all cross border interactions whether economic political or cultural marber 56 within a globalized world everything is related and connected constantly changing and transforming not only the economy but also politics culture consumption and telecommunications the following paper aims at showing how the world is becoming globalized what advantages and disadvantages appear throughout this process and why globalization is an overall good thing for the world and its citizens as already mentioned globalization affects several levels of interaction with regard to the economy free trade and less trade barriers enabled the forces of globalization to grow stronger and faster than ever before in human history within the last twenty years the soviet union and china have integrated economically with the west while latin america and asia have worked toward stable and liberal systems in order to be part of meaningful socioeconomic progress and western standards of living marber 56

The World is Flat 2018-11-14 today globalization can be treated as the most important global process it is a multi faceted phenomenon and in every country it has its

own image one can get a truly objective picture of the rapidly changing and integrating world only through a synthesis of all those particular visions in the present anthology one can find perceptions of globalization by a number of famous scholars from different countries of the world ervin laszlo roland robertson shmuel n eisenstadt randall collins christopher chase dunn william thompson and others but one can also get to know rather peculiar visions of globalization by the russian scientists the volume is entitled globalistics and globalization studies globalistics may be regarded as a sort of systemic and more or less integrated core within global studies the anthology consists of four parts presenting a wide range of views on the meaning of the contemporary epoch the past and the future of some important global processes part 1 historical dimension part 2 globalistics global studies and models part 3 trends risks and problems part 4 perspectives and the new world order

Globalization and a Shrunken World 2008-10-13 annotation bound offers a highly readable stimulating and straight forward introduction to one of the key issues of our time globalization scott sernau explores the background to our present of interconnectedness asking what trends and practices have brought us to this new global century he relates world issues to our everyday local experiences in a way that will engross both students and the informed general reader

Globalization 2012-08-30 finally the conclusions have been rethought in the light of the mushrooming cloud of antiglobalist protests

Globalistics and Globalization Studies 2003 cd rom in rear pocket

Diversity Amid Globalization 2000 in the first edition the themes of hope optimism and progress of neoliberalism were examined in asia and america the second edition globalization power authority and legitimacy in late modernity analyses the new pessimism that has descended on the globalized world the america that was once the bastion of hope optimism and progress is now showing clear signs of a superpower in decline the first sign of the american decline since 1941 in pearl harbor was the destruction of the world trade center in new york city on 11 september 2001 the other signs are the vietnamization of iraq a nuclear stand off with north korea increasing trade imbalances with china and india a stalemate with terrorists in afghanistan the challenge of european protectionism a belligerent politics in the middle east overt american dependence on fossil fuels and the mushrooming of various subprime crises into an escalating global recession this second edition incorporates the latest developments in terms of culture wealth and terrorism around the world and provides possible solutions to salvage the american dream

Bound, Living in the Globalized World 2001-06-11 this book interrogates the widespread claim that contemporary globalization has ended the centrality of the state in world affairs and is effectively irreversible it offers discriminating definitions of globalization internationalization and international interdependence and demonstrates the analytical and empirical difficulties generated by these concepts publisher description

Globalization and the Postcolonial World 2000 today the struggling global economy makes the questions surrounding trade policy particularly relevant and important this unit introduces students to the terms and concepts essential to an understanding of trade globalization and the effects of economic change around the world using readings statistics and simulations students consider the questions faced by policy makers today and simulate a debate about trade in the u s congress this title is one in a continuing series from the choices program

Diversity Amid Globalization 2000-01-01 this book offers a highly original approach to the analysis of globalization and global governance focusing on important global issues such as development peace and security the international authors present a true multicultural perspective on the impact of globalization on development and peace

Diversity Amid Globalization 2011 this book clarifies the mechanisms of economic globalization in changing industries locations and shows how industries locations have changed through those mechanisms first the book deals with the retailing industry introducing the concept of a contact price into the market area analysis it is

shown in part i that retailers market areas and prices are changed in different ways by a reduction of transportation costs the mechanism of these changes is explained by checking the contact prices at apexes of the retailers market areas then the book moves to the manufacturing industry and deals with a firm s production process part ii of the book shows the manner in which the production volume of factories within an agglomeration is decreased as the number of factories within the agglomeration increases subsequently considering the fact that many production factories depart from agglomerations to other sites to reduce production costs a method of searching for a factory s new site is proposed in which a firm can seek out an optimal location of a factory in a short period of time by referring to a chaotic phenomenon a firm sets a location prospective area in a large geographical area and selects an optimal location within that area in the third part of the book the city system is the focus part iii elucidates the theoretical formation of a city system and analyzes structural changes of a city system due to a reduction of transportation costs the mechanism of the change is explained by a flexible market area theory which studies a city system by using the market areas established in the free entry equilibrium then the economic relationships between the cities within a city system are examined from the point of view of the land rent in the cities areas this analysis shows the influences of a change in the largest city on other cities finally the relationships between a city system and regional performance are examined using real data the examination shows that the city system reveals the regional performance

Globalization 2000 many globalizations is an attempt to account for the cultural impact of globalisation in the lives of ordinary citizens from ten countries the results of the study portray vast numbers of people intermixing participation in a global economy with indigenous values and lifestyles

The World Turned Upside Down? 2009 the need for maximum labor flexibility in order to ensure competitiveness has replaced the old aim of making workers into productive allies and mass consumers jacques b gelinas vivid text picks out the key elements of this new economic landscape and explains why the owners and ceo s of this new transnational economy no longer need their traditional alliance with the state and the middle classes he depicts governments spellbound by the market abandoning their obligations to defend civil society

International Trade 2008-01-15 globalization has become a common phenomenon yet one that many people experience as a threat not only to their economic existence but also to their cultural and moral self image this volume takes an interdisciplinary approach to provide a theoretical overview of how business ethics deals with the phenomenon of globalization the authors first examine the origins and development of globalization and its interaction with business ethics before discussing the impact on and role of national and multinational corporations the book goes on to examine the relationship between industrialized and developing countries and explores the place of ethics in globalized markets

Sustainable Development in a Globalized World 2016-03-11 tracing the evolution of international relations since the onset of the cold war the authors of this volume draw on recently available archival resources to narrate world affairs from 1945 to the present events are addressed chronologically with attention to both their motivations and their significance the focus is on issues of security in the very broadest sense ranging from politics and economics to ecological and social problems a distinctive feature of the text is the clear concise explanation of the key theories and concepts of international relations supplemented by an extensive glossary in tying events to ir theory the authors attempt to make that theory accessible
