neoliberalism and global austerity measures health care institutions around
the world confront numerous challenges in attempting to meet the needs of
local populations examples from africa including ethiopia ghana and congo
latin america peru mexico guatemala western europe france greece and the
united states illustrate how hospitals play a significant role in the social
production of health and disease in the communities where they are many low
resource countries have experienced increasing privatization and dysfunction
of public sector institutions such as hospitals and growing withdrawal of
funding for non profit organizations underlying the chapters in the work of
hospitals is a fundamental question how do hospitals function lacking the
medications equipment and technologies and personnel normally assumed to be
necessary this collection of ethnographies demonstrates how hospital
administrators clinicians and other staff in hospitals around the world
confront innumerable risks in their commitment to deliver health care
including civil unrest widespread poverty endemic and epidemic disease and
supply chain instability ultimately the work of hospitals documents a vast
gulf between the idealized mission of the hospital and the implementation of
this mission in everyday practice hospitals thus become contested space
