Ndlovu - The White Elephant 2011-08-05 16
The White Elephant is a pacy story set in Zimbabwe during the turbulent years that followed Rhodesia's unilateral declaration of independence. The story highlights the dangers of police work in the explosive climate of a troubled country during years of the terror war and is woven around human suffering, painful endurance, and horrors that confronted the peoples both black and white. The narrative is loosely based upon the author's own experiences in the police force of what was then Rhodesia. Thus the action of his story is set against an authentic background which the author experienced and the impeccable writing style gives a palpable vividness to the events. A retired ex police constable commits murder, he flees the country but has now returned as a leader of a terrorist gang. He is on a diabolical mission, he is wily and ruthless but he has one fear, a reoccurring dream in which he is crushed and gored by an elephant. Tony is a police officer determined to track down a cunning and callous murderer. Will he succeed and live up to his name? Ndlovu, the White Elephant, the author has succeeded in producing a narrative with great feeling. What sets this work apart from any other similar books is the remarkable attention to detail. Not only is there the skill with words that paint a picture, but there is also an incisive insight into the characters brought to life with vivid description and credible dialogue. From the way the author creates scenes and characters, captures the atmosphere of the moments and the emotions of the protagonists, there can be no doubt of the author's real involvement in the events recorded. On the Hillwilla Road 2023-07-31 This book engages with pivotal examples of extraterritoriality from antiquity and into the twenty-first century in order to broaden the original judicial and geographical definition and thereby include physical and digitized information and visual data in particular by focusing on a critical incident of recent Middle Eastern history namely the Gaza Freedom Flotilla of 2010 which sailed against Israel's enduring blockade. It shows how the device of extraterritoriality shapes not only the political situation in Gaza, the legal status of the maritime environment in which the Flotilla incident took place and the judicial actions taken in response but also reveals how the concept of extraterritoriality is key to explaining the state's subsequent efforts to confiscate and monopolize all visual evidence of its alleged violations of international statutes through the lens of the missing visual evidence characterizing the Mavi Marmara incident. After effects it explores how the legal system's ability to evade transparency seems to be a built-in condition for eluding criminal accountability at the international level with the emphasis on extraterritoriality's fundamental role in fashioning our current legal and political orders.
