based production drawing attention to new planning processes to foster such development and worldwide best practices and case studies in the field of urban development provided by publisher

Knowledge-Based Urban Development: Planning and Applications in the Information Era

2008-02-28

external and internal efforts to help developing countries achieve growth and economic stability based on western models have resulted in frustration at best and in the creation of serious new problems without the resolution of existing ones at worst professor gharajedaghi contends that this general failure stems not from a lack of expertise but from a fundamental misconception of the development process challenging common assumptions about the nature of national development planning he proposes practical new approaches aimed at fostering national and local planning initiatives rather than continued reliance on external and traditional development models this study is the product of more than 25 years of research and experience in planning in developing nations it presents a flexible theoretical framework that reflects philosophical methodological and conceptual aspects of planning and it may be readily adapted to a full range of development situations

Development Planning

1966

this provides a non technical explanation of the main techniques used for economic policy formulation in developing countries and shows how these models are still integral features of policy management despite new market based approaches

A Prologue to National Development Planning

1986-11-07

concerns the problem of economic development through an experimental framework using system dynamics modelling and

computer simulation the book focuses on the design and implementation of the transitional processes

Development Policy and Planning

1994

addresses one of the most pressing issues of international political economy conventional wisdom has it that government management of the economy is the means to transform a backward economy into a dynamic modern one yet after decades of international aid programs development planning is today largely perceived as a failure paralyzed by its own bureaucracy and inefficiency despite billions of dollars of investment development successes are few and far between and waste and mismanagement abounds this book showcases a diverse range of development experiences in order to ascertain the reasons for this quagmire case studies of development planning in china india post wwii japan south korea africa and eastern europe and of foreign aid programs including the marshall plan illustrate the insights an austrian approach provides toward an understanding of the failure of government development planning while economists working within the austrian tradition have previously addressed development issues this volume represents the first full length treatment of the subject from a modern market process perspective exploding the hegemony of the traditional development paradigm the collapse of development planning addresses one of the most pressing issues of international political economy contributing to the volume are george ayittey american university wayne t brough citizens for a sound economy washington dc young back choi st john s university steven hanke johns hopkins university steve horwitz st lawrence university shyam j kamath california state university hayward shigeto naka hiroshima city university david osterfeld st joseph s college manisha perera university of northern colorado jan s prybyla pennsylvania state university ralph raico state university college buffalo parth shah university of michigan dearborn kurt schuller johns hopkins university kiyokazu tanaka sophia university tokyo and mark thorton auburn university

Development Planning and Policy Design

1994

author nancey green leigh brings years of academic and professional experience to this classic text which offers a comprehensive look at the basic tenets of local economic development planning the book explores the theories of local economic development while addressing the issues and opportunities faced by cities towns and local entities in crafting their

economic destinies within the global economy the new seventh edition is updated with an increased focus on sustainability and equity including local economic development issues arising from the global covid 19 pandemic and significant shifts in the global economy

The Economics Of Development and Planning

2003

a text on project planning and analysis in developing countries this book focuses on the economic and financial analysis of projects but also demonstrates the importance of other factors to those who might otherwise give undue weight to economic and financial calculations

Theoretical foundations of development planning

1991

with increased awareness of the role of plans in shaping urban and suburban landscapes has come increased criticism of planners and the planning profession developers politicians and citizens alike blame poor planning for a host of community ills but what are plans really supposed to do how do they work what problems can they successfully address and what is beyond their scope in urban development leading planning scholar lewis hopkins tackles these thorny issues as he explains the logic of plans for urban development and justifies prescriptions about when and how to make them he explores the concepts behind plans some that are widely accepted but seldom examined and others that modify conventional wisdom about the use and usefulness of plans urban development will give all those involved with planning human settlements a more thorough understanding of why and how plans are made enabling them to make better choices about using and making plans it is an important contribution that will be essential for students and faculty in planning theory land use planning and planning project courses book jacket title summary field provided by blackwell north america inc all rights reserved

Cities

1999

this is an examination of local economic development planning the book suggests how it may be applied to south africa development planning reflects many of the recommendations in the african national congress reconstruction and development programme

State Development Strategies

1967

these practical cases studies from india provide innovative management strategies as well as planning and evaluation techniques sensitive to gender issues the cases are open ended enabling readers to exercise their problem solving skills and encouraging them to reach their own solutions to the problems posed

Planning Local Economic Development

2024-10-08

this authoritative handbook comprehensively examines the current status and future directions of model based systems in decision support and their application to sustainable development planning it begins with a comprehensive review of model based applications in sustainable development planning paying particular attention to environmental disaster ecosystem management energy infrastructure development and agricultural systems amongst other contemporary issues conceptual and policy oriented papers then debate the future directions of model based sustainable development planning taking account of the fact that sustainable development planning is multidimensional by nature the contributors concede that a single exemplary model does not exist the aims of the stakeholders along with preferences and priorities surrounding the planned objectives determine the ways and means of sustainable development planning a number of tools from simple intuition based approaches to sophisticated mathematical modelling are therefore utilized within the handbook an important feature of the work is the emphasis on decision support systems dss and group decision support systems gdss approaches it is argued that these are natural and appropriate for sustainable development planning given the rise in prominence of

sustainable development planning in recent years this handbook will be invaluable to a wide ranging audience including ngos planners consultants policymakers and academics

Project Planning and Analysis for Development

2002

drawing upon case studies from some twenty different countries making planning work shows why new urban development and planning skills are needed so urgently and what can be done to grow such skills and enhance capacities the guide will focus international attention on the urgent need to increase global understanding of sustainable urban development processes and pro poor planning practices it is for all those engaged in the processes of planning and managing towns cities and settlements political leaders professional planners engineers architects lawyers and many others in national regional and local government non governmental organizations community based organizations and private sector consultancies and enterprises all of whom have a vital contribution to making and maintaining sustainable settlements making planning work demonstrates ways in which professionals and ngos are creating and delivering innovative responses often in situations of extremely scarce and conflictive competition for access to resources its tone is optimistic but not utopian the global challenge of urbanization is daunting but it shows that imagination and skills can make an impact in addition to being a stand alone book making planning work is also an introduction to an interactive website communityplanning net that enables readers to contribute and discuss their own experiences and ideas

Regional Development and Planning

1964

collects 19 essays addressing the changing nature of regional development and planning activities along with the problems of government generated by these activities and the global effects of these activities contributors representing roughly ten countries are primarily drawn from the field of geography but also include historians urban planners and economists general issues addressed include centralization and post war changes in centralized structure emerging organizational and theoretical structures the growing importance of urbanization political economic and social change the environment development and sustainability the situation of mega cities and urban networks annotation copyrighted by book news inc portland or

Innovative Approaches to Development Planning

1988

diploma thesis from the year 2011 in the subject geography earth science regional geography grade a atlantic international university business and economics course regional development language english abstract it is the wish of every community and every nation to move from one stage of development to another development is holistic approach that involves structural institutional changes and social economic transformation in addition to increased outputs and incomes development also encompasses change in peoples customs and beliefs that are a hindrance to development programs economic growth involves urbanization industrialization and increased and appropriate use of technology in all sectors of the economy the government major role is to provide good welfare to its citizens it is also obliged to facilitate economic players to actively participate in economic activity through provision of infrastructure all this is done through the process of development theory policy and planning
