Reflective Theory and Practice in Teacher Education 2017-03-30

this book offers a detailed examination of reflective practice in teacher education in the current educational context where reflective practice has been mandated in professional standards for teachers in many countries it analyses research based evidence for the power of reflective practice to shape better educational outcomes the book presents multiple theoretical and practical views of this often taken for granted practice so that readers are challenged to consider how factors such as gender and race shape understandings of reflective practice documenting approaches that enhance learning the contributions discuss reflective practice across the globe with a focus on pre service in service and university teachers at a time when there is pressure to measure teachers work through standardised tests the book highlights the professional thinking that is integral to teaching and demonstrates ways it can be encouraged in beginning teachers aimed at the international community of teacher educators in schools and universities it also includes a critical examination of methodological issues in analysing and evaluating reflective practice and showcases the kind of reflective practice that empowers teachers and pre service teachers to make a difference to students

Teacher Education Policy and Practice in Europe 2018-05-11

teacher education policy and practice in europe provides a critical overview of the current challenges facing teacher education policy and practice in europe drawing on a wide range of contributions the book demonstrates that in order for teachers to reassume their role as agents of change it is crucial to create a vision of a future european teacher and promote active engagement in preparing children to live and act in a multicultural and increasingly changing world the book suggests ways in which teachers could be prepared to meet and overcome the struggles they will encounter in the classroom including recommendations for teacher education which open up new possibilities for policy practice and research considering their own experiences as teachers contributors also cover topics such as teacher education for the 21st century the profile of the european teacher citizenship and identity social inclusion linguistic and cultural diversity and comparative education teacher education policy and practice in europe is essential reading for academics researchers and postgraduate students engaged in the study of teacher education educational policy and educational theory it should also be of great interest to research active teacher educators and practising teachers

Teacher Evaluation as Cultural Practice 2019-01-21

moving beyond the expectations and processes of conventional teacher evaluation this book provides a framework for teacher evaluation that better prepares educators to serve culturally and linguistically diverse cld learners covering theory research and practice maría del carmen salazar and jessica lerner showcase a model to aid prospective and practicing teachers who are concerned with issues of equity excellence and evaluation introducing a comprehensive five tenet model the book demonstrates how to place the needs of cld learners at the center and offers concrete approaches to assess and promote cultural responsiveness thereby providing critical insight into the role of teacher evaluation in confronting inequity this book is intended to serve as a resource for those who are committed to the reconceptualization of teacher evaluation in order to better support cld learners and their communities while promoting cultural competence and critical consciousness for all learners

Daily Reading Practice for Fifth Grade (Week 27) 2014-01-01

developed primarily in the consulting rooms and universities of europe and north america traditional forms of psychological assessment and treatment are

not up to the task of dealing with today's culturally diverse patients in an increasingly multicultural society where basic terms such as normality and family can have radically varying definitions it is not unusual for well-meaning clinicians to inadvertently misclassify unfamiliar behaviors or beliefs as abnormal or pathological ultimately the solution lies in educational reform in the meantime a major first step toward ensuring that ethnically different patients receive quality mental health services is the adoption of culturally sensitive assessment and intervention models such as those described in this pathbreaking book the culmination of its authors' many years of experience in working with culturally diverse patients this timely guide arms practitioners with an array of innovative yet clinically grounded approaches to psychological assessment intervention and training with the help of numerous case examples drawn from their work with asian caribbean african american and hispanic clients drs gopaul mcnicol and brice baker illustrate a four-step approach that entails assessing problems within their familial and sociocultural contexts and then tailoring interventions that take full advantage of the religious social educational familial and legal institutions that shape an individual's experiences and beliefs the authors begin with a trenchant critique of traditional mental health training in which they expose built-in cultural and historical biases that effectively hobble a trainee's ability to think multiculturally they next explore a range of assessment issues describe clinically validated techniques for treating culturally diverse children parents and couples and outline best practices in report writing for linguistically and culturally diverse clients in their discussion of clinical issues that arise when dealing with culturally diverse families they detail a proven multicultural multimodal multisystems multi-cms approach to intervention returning to the topic of education in the final section they outline the major competencies needed to develop a trainee's multicultural skills and offer valuable training suggestions for professors and clinical supervisors describing a dynamic new approach to cross-cultural assessment and treatment cross-cultural practice is valuable reading for both professionals and students in mental health a dynamic new approach to cross-cultural assessment and treatment the global village presaged by marshall mcluhan in the 1960s has arrived with a vengeance for many mental health professionals this brings with it the daunting challenge of working with patients with a vast array of beliefs values customs and behaviors this groundbreaking book helps clinicians meet the challenge of assessing and treating diverse clients by arming them with a bold new multicultural approach using numerous case examples drawn from their years of practice with asian caribbean african american and hispanic clients the authors describe proven techniques for assessing culturally diverse children parents and couples develop a proven multicultural multimodal multi-systems multi-cms approach to intervention expose the cultural biases at the core of conventional mental health training outline the major competencies needed to develop a trainee's multicultural skills and develop alternative approaches to clinical training
