in case study analysis research methods and behavioral science theory as central to an acceptable public relations curriculum to date these three streams within pr education have run independently of each other the authors produced this volume because they believe that there is a growing demand for an integrative applied theory approach to the study of public relations cases the need for pr professionals to study the social political and economic contexts of public relations carefully had been apparent for some time as issues management and environment scanning emerged as focal points of modern public relations yet there was no systematic framework for such study this volume however with its strong foundation in theory provides just that framework and is highly suitable for graduate level courses in public relations

the book we need now to avoid a social recession murthy s prescient message is about the importance of human connection the hidden impact of loneliness on our health and the social power of community humans are social creatures in this simple and obvious fact lies both the problem and the solution to the current crisis of loneliness in his groundbreaking book the 19th surgeon general of the united states dr vivek murthy makes a case for loneliness as a public health concern a root cause and contributor to many of the epidemics sweeping the world today from alcohol and drug addiction to violence to depression and anxiety loneliness he argues is affecting not only our health but also how our children experience school how we perform in the workplace and the sense of division and polarization in our society but at the

center of our loneliness is our innate desire to connect we have evolved to participate in community to forge lasting bonds with others to help one another and to share life experiences we are simply better together the lessons in together have immediate relevance and application these four key strategies will help us not only to weather this crisis but also to heal our social world far into the future spend time each day with those you love devote at least 15 minutes each day to connecting with those you most care about focus on each other forget about multitasking and give the other person the gift of your full attention making eye contact if possible and genuinely listening embrace solitude the first step toward building stronger connections with others is to build a stronger connection with oneself meditation prayer art music and time spent outdoors can all be sources of solitary comfort and joy help and be helped service is a form of human connection that reminds us of our value and purpose in life checking on a neighbor seeking advice even just offering a smile to a stranger six feet away all can make us stronger during murthy s tenure as surgeon general and during the research for together he found that there were few issues that elicited as much enthusiastic interest from both very conservative and very liberal members of congress from young and old people or from urban and rural residents alike loneliness was something so many people have known themselves or have seen in the people around them in the book murthy also shares his own deeply personal experiences with the subject from struggling with loneliness in school to the devastating loss of his uncle who succumbed to his own loneliness as well as the important example of community and connection that his parents
