Strengthening Working Families Act of 2001 2001

the vanuatu legal sector strengthening program vlssp was launched in 2002 at a time when the public was calling for a revamp of the whole judiciary this case study describes how vlssp which was funded by the australian agency for international development ausaid contributed to vanuatu s legal sector capacity through professional development of staff relationship building administrative reforms review of laws and infrastructure improvements it highlights a number of factors which contributed to the success of the program as well as some of the challenges in sustaining reforms including retaining trained staff in a competitive job market

Vanuatu Legal Sector Strengthening Program 2008-12-01

a critical problem in resource scarce countries across the globe is the shortage of appropriately trained health care providers according to the world health organization the current global health workforce shortage of 7.2 million providers is estimated to increase to 12.9 million by 2035 this disproportionately affects resource scarce countries denying basic health care to millions and limiting access to life saving treatments due to limited resources in these countries not enough health professionals receive training few have the opportunity for continuing education and the ability to develop or implement educational programs and curricula is constrained additionally many existing providers choose to emigrate in pursuit of professional advancement opportunities contributing to the overall shortage of qualified health care providers in these environments efforts to strengthen health workforce capacity not only increases access safety and availability of care but is critical to building resilient health systems capable of caring for the world s neediest populations this requires not only cultivating new health care providers but also providing ongoing professional development to retain and support current providers advancing the level of practice in accordance with current clinical science cultivating educators and enhancing training curricula it is critical also to contribute to the limited body of research documenting the effectiveness and impact of various models of collaborative education and partnership to improve health worker training and retention this research topic examines strategies for building health workforce capacity through the prism of educational partnerships offering significant examples of effective models of international collaborative education as well as insight and guidance on the structure and operation of successful global partnerships collectively the 31 articles accepted and included in this ebook represent a diversity of health professions and geographies across academic non governmental organizations and other global partnership forms the published manuscripts highlight various elements of partnerships with several consistent themes emerging capacity building local empowerment mutual trust and respect long term commitment equity collaboration and the importance of integrating theory and practice for a balance of academic and clinical development the manuscripts provide examples of partnership and educational programs that are in the formative early stages of implementation and others which have been sustained long term some for decades the following ebook is divided into two parts with each part broken down into sections part i of the ebook includes 18 manuscripts that showcase long term educational programs that strongly exemplify multiple foundational aspects of international partnerships in education including mutual collaboration and project management empowerment of host partners to lead and sustain programs and capacity building while individual manuscripts included in part i look broadly at multiple aspects of successful

international partnerships in education part ii manuscripts focus intently on one two elements part ii includes 13 articles that highlight partnership through short rather than long term educational initiatives as well as program development and broad academic partnerships this research topic was sponsored by health volunteers overseas a united states based non profit that collaborates with over eighty international universities and health institutions to send volunteer health professionals to low resource countries to provide continuing education train the trainer courses professional support and consultation on academic program and curricula development

Effective Family Strengthening Interventions 1998

ensuring a coordinated public health laboratory and medical response to a natural disaster an accidental release or a deliberate use of a chemical biological and radiological cbr agent is a high priority for all countries this publication contains the proceedings of the north atlantic treaty organization nato and advanced study institute asi the asi and this publication provides nato and its allies with ways to enhance their national preparedness and response plans to cbr threats the recommendations should be of interest to clinicians researchers and other scientists motivated by special interest in public health preparedness as well as by national and nato leaders and policy makers who are positioned to make a difference public health response to emergencies requires extensive coordinated considered efforts of the combined military and civilian public health resources of all nato nations and nato partner nations

Strengthening Science at the U.S. Environmental Protection Agency--National Research Council (NRC) Findings 2001

the critical importance of well performing public institutions and good governance for development and poverty reduction has come to the forefront in the 1990s reforming public institutions is a complex and difficult task this publication is primarily intended as a guide for world bank staff but it is also intended to serve the broader development community it outlines a strategy which envisions significant changes in the focus of the bank s work in this area some of these changes such as an enhanced focus on governance capacity building and anticorruption are already underway the agenda for the next three years is to continue to foster these changes through a the advancement of analytical tools new approaches t the design of lending operations expanded emphasis on partnership with clients and other donors and progressive shifts in staffing incentives and evaluation techniques included as an annex is an inventory of the bank s governance and institutional reform programs which are in place

Strengthening Marketing Service Programs by Use of Research Findings 1956

in july 2005 the national academies released the report strengthening long term nuclear security protecting weapon usable material in russia the report highlighted several obstacles in the transition from a u s russian cooperative program to a russian directed and russian funded fully indigenized program that will ensure the security of 600 tons of weapon usable nuclear material at a level of international acceptability overcoming these obstacles requires an increased political commitment at a number of levels of the russian government to modern material

protection control and accounting systems mpc a adequate resources must be provided to facilities where weapon usable material is located for upgrading and maintaining mpc a systems additionally the technical security systems that are being installed through the cooperative program need to be fully embraced by russian managers and specialists the report recommends the establishment of a ten year indigenization fund of about 500 million provided by russia and its g 8 partners as a new mechanism for gradually shifting the financial burden of mpc a to the russian government

International Partnerships for Strengthening Health Care Workforce Capacity: Models of Collaborative Education

2018-07-31

biological engagement programs are a set of projects or activities between partner countries that strengthen global health security to achieve mutually beneficial outcomes engagement programs are an effective way to work collaboratively towards a common threat reduction goal usually with a strong focus on strengthening health systems and making the world a safer place cooperative programs are built upon trust and sharing of information and resources to increase the capacity and capabilities of partner countries biological engagement programs reduce the threat of infectious disease with a focus on pathogens of security concern such as those pathogens identified by the u s government as biological select agent and toxins these programs seek to develop technical or scientific relationships between countries to combat infectious diseases both in humans and animals through laboratory biorisk management diagnostics pathogen detection biosurveillance and countermeasure development for infectious diseases deep relationships are fostered between countries biological engagement programs are designed to address dual use issues in pathogen research by promoting responsible science methodologies and cultures scientific collaboration is a core mechanism for engagement programs are designed to strengthen global health security including prevention of avoidable epidemics detection of threats as early as possible and rapid and effective outbreak response this research topic discusses biological engagement programs highlighting the successes and challenges of these cooperative programs articles in this topic outlined established engagement programs as well as described what has been learned from historical cooperative engagement programs not focused on infectious diseases articles in this topic highlighted selected research trainings and programs in biological engagement programs from around the world this topic ebook first delves into policies and lessons learned then describes initiatives in biosafety biosecurity the core of this work documents cooperative research results from the field then lastly the topic lays out potential future directions to the continued success of the world s cooperative science in reducing the threat of infectious diseases

Annual Register of Grant Support 1999

a strong chemical workforce in the united states will be essential to the ability to address many issues of societal concern in the future including demand for renewable energy more advanced materials and more sophisticated pharmaceuticals high school chemistry teachers have a critical role to play in engaging and supporting the chemical workforce of the future but

they must be sufficiently knowledgeable and skilled to produce the levels of scientific literacy that students need to succeed to identify key leverage points for improving high school chemistry education the national academies chemical sciences roundtable held a public workshop summarized in this volume that brought together representatives from government industry academia scientific societies and foundations involved in outreach programs for high school chemistry teachers presentations at the workshop which was held in august 2008 addressed the current status of high school chemistry education provided examples of public and private outreach programs for high school chemistry teachers and explored ways to evaluate the success of these outreach programs

Strengthening Child and Adolescent Mental Health (CAMH) Services and Systems in Lower-and-Middle-Income Countries (LMICs) 2021-03-12

the u s military has been continuously engaged in foreign conflicts for over two decades the strains that these deployments the associated increases in operational tempo and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation â their families family members provide support to service members while they serve or when they have difficulties family problems can interfere with the ability of service members to deploy or remain in theater and family members are central influences on whether members continue to serve in addition rising family diversity and complexity will likely increase the difficulty of creating military policies programs and practices that adequately support families in the performance of military duties strengthening the military family readiness system for a changing american society examines the challenges and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families as well as lessons to be learned from these experiences this report offers recommendations regarding what is needed to strengthen the support system for military families

Strengthening National Public Health Preparedness and Response to Chemical, Biological and Radiological Agent Threats 2007-06-29

over the past 25 years developing coordinated responses to intimate partner violence and sexual violence has improved both perpetrator accountability and victim safety and self determination however preventing intimate partner violence and sexual violence from occurring is beyond the ability of any one type of organization preventing this violence requires a network of individuals groups and organizations who coordinate and assess their efforts on an ongoing basis this volume provides theoretical and practical guidance for the development of state and local prevention systems that hold the potential to eliminate persistent social problems the development of prevention systems was informed by the data driven public health model systems theory and the ecological systems perspective strengthening systems to prevent intimate partner violence and sexual violence offers guidance on how to gain participation of the right partners in developing a prevention system and how to focus the work of that system on the critical areas of planning implementation and capacity building the guidance

resources and experience shared in this important collection will be invaluable to all those working towards the prevention of intimate partner violence and sexual violence this book is based on a special issue of the journal of family social work

Reforming Public Institutions and Strengthening Governance *2000-01-01*

research conducted in academic departments of obstetrics and gynecology could result in substantial improvements in the health of women and the outcomes of pregnancy strengthening research in academic ob gyn departments determines whether such departments are capable of fulfilling this promise the committee finds that these departments have a poor track record in their ability to compete for research funds and in the extent to which their faculty contribute to research adding to the problem are factors that deter ob gyns from a research career and a dearth of dynamic research leaders in the profession the volume explores reasons for this situation and makes recommendations to counteract them also included is an agenda of needed research

Protecting Children, Strengthening Families *2009*
