MacOS Catalina User Guide **2021-05-20**

Computer numerical control (CNC) is a manufacturing process that uses a computer to control the movement of a tool or a workpiece. The CNC system is composed of a computer, a controller, and a drive system. The computer sends signals to the controller, which then sends signals to the drive system. The drive system moves the tool or the workpiece according to the signals. CNC is used in many industries, including automotive, aerospace, and medical. It is a highly precise and efficient manufacturing process.
