The History of Sir Charles Grandison ... A New and Abridged Edition. By Mary Howitt

1873

historians have so far made few attempts to assess directly the costs and benefits of britain s investment in empire this book presents answers to some of the key questions about the economics of imperialism how large was the flow of finance to the empire how great were the profits on empire investment what were the social costs of maintaining the empire who received the profits and who bore the costs the authors show that colonial finance did not dominate british capital markets returns from empire investment were not high in

comparison to earnings in the domestic and foreign sectors there is no evidence of continued exploitative profits and empire profits were earned at a substantial cost to the taxpayer they depict british imperialism as a mechanism to effect an income transfer from the tax paying middle class to the elites in which the ownership of imperial enterprise was heavily concentrated with some slight net transfer to the colonies in the process

The Tour of Mont Blanc and of Monte Rosa ... Abridged from the Author's "Travels in the Alps of Savoy," Etc

1855

ha le thai knew that escaping vietnam for freedom in a cramped leaking boat would not be easy she imagined that building a new life in australia from little more than a hope and a dream would stretch her courage and strength to its limits but the warrior and refugee never guessed that her biggest challenge of all would be motherhood a

product of two cultures ha le s daughter is educated confident and excited to introduce her australian boyfriend to the family as a protective mother ha le must overcome beliefs of the past and embrace the future she s fought so hard for but when a darker secret is revealed ha le finds herself once more a warrior caught on a battlefield this time however cruel words and stony silences replace beatings and famine the emotional warfare somehow taking a greater toll past and present collide as ha le searches her history to try and make sense of her heartbreak she might have overcome the threat of death and communism but she s never truly escaped the ghosts that keep her light from shining in this tale of strength and vulnerability love and loss life journeys and self discovery ha le must save her family a second time by returning to where her story began

An intermediate physical and descriptive geography, abridged from the Physical,

historical, and descriptive geography. Revised

1886

1894

in rutherford and fry s comprehensive guidebook they tell the complete story of the universe and absolutely everything in it skipping over some of the boring parts this is a celebration of the weirdness of the cosmos the strangeness of humans and the fact that amid all the mess we can somehow make sense of life our brains have evolved to tell us all sorts of things that feel intuitively right but just aren t true the world looks flat the stars seem fixed in the heavenly firmament a

day is 24 hours this book is crammed full of tales of how stuff really works with the power of science rutherford and fry show us how to bypass our monkey brains taking us on a journey from the origin of time and space via planets galaxies evolution the dinosaurs all the way into our minds and wrestling with some truly head scratching questions that only science can answer what is time and where does it come from why are animals the size and shape they are what is a thought how horoscopes work spoiler they don t but you think they do does my dog love me why nothing is truly round do you need your eyes to see

Abridged Science for High School Students
