problem life and work john atkinson hobson 2 john atkinson hobson j pott company 1902 economic history progress social problems the social constructionist perspective has revolutionized the way that social scientists investigate social problems constructing social problems spector and kitsuse 1977 2001 offered the guiding statement of the approach which both transformed and revitalized the sociology of social problems propelling it into a quarter century of exciting and innovative empirical research john kitsuse and malcolm spector challenged conventional approaches to the field they insisted on treating social problems as social constructions as the products of claims making and constitutive definitional processes the purpose of this book is to highlight contemporary challenges to the social constructionist perspective on social problems in 1993 two collections of essays reconsidering social constructionism debates in social problems theory holstein and miller 1993 and constructionist controversies issues in social problems theory miller and holstein 1993 brought a wide variety of constructionist challenges into focus challenges and choices attempts to distill these debates and offers some compelling suggestions for how challenges may be met and where constructionist studies might proceed in the future while each of the essays in this volume deeply appreciates the constructionist approach each of them points to issues and choices that social constructionists must confront if the perspective is to continue to be a vital part of ongoing debates on social problems the essays critique previous constructionist formulations make suggestions for advancing expanding or diversifying the constructionist agenda and challenge the perspective to move in new directions they remind us that social constructionism is an ongoing not a finished product and the essays point to some of the choices available to social constructionists in moving their projects into new even uncharted territories james a holstein and gale miller are professors in the department of social and cultural sciences at marquette university this book represents a truly innovative and empowering approach to social problems instead of focusing solely on a seemingly tireless list of major problems sara towe horsfall considers how select key issues can be solved and pays particular attention to the advocate groups already on the front lines horsfall first provides a robust theoretical foundation to the study of social problems before moving on to the problems themselves examining each through the lens of specific advocate groups working towards solutions this

concise and accessible text also incorporates useful learning tools including study questions to help reinforce reading comprehension questions for further thought to encourage critical thinking and classroom discussion a glossary of key terms and a worksheet for researching advocate groups social problems an advocate group approach is an essential resource for social problems courses and for anyone who is inspired to effect change despite the recent growth of research on social problems facing the people of sub saharan africa there remains a critical lack of conceptual epistemological and empirical research and documentation this sophisticated new book attempts to fill that gap by synthesizing interpreting and extending the existing literature on conditions that constitute serious impediments to socio economic development in africa it provides an original and up to date survey of key problems ranging from poverty and inequality to violence and crime the contributors all of whom have lived or worked in africa show how social problems emerge how they are defined and how various actors attempt to deal with them this timely book provides a much needed analysis of the major issues and debates regarding the dynamics of social problems in the african context social problems in africa is broken into four parts the first introduces readers to the nature of social problems in general and provides a framework for analyzing and understanding social problems in an african context part ii on culture human rights and democracy examines these crucial aspects of social problems in africa as well as issues such as language and colonialism part iii focuses on poverty and inequality while conflict and violence is the focus of part iv together the chapters in this volume provide the most comprehensive and systematic approach to the issues available bringing much needed attention to the problems in africa from the perspective of scholars who have lived and worked there this being an important part of keeping this knowledge alive and relevant popular culture is more than just a broad term for entertainment and frivolous diversions and is highly relevant to many aspects of society in this exciting textbook the authors offer insights into the important but often overlooked relationship between popular culture and social problems drawing on historical and topical examples they apply an innovative theoretical framework to examine how facets of popular culture from movies and music to toys and games as well as billboards bumper stickers and bracelets shape how we think about and respond to social issues including student features and evocative case studies this is the first book to make the link between popular culture and social problems and will help students understand the relationship between them deftly combining the fun and irreverence of popular culture with a critical scholarly inquiry this timely book delivers an engaging account of how our interactions with popular culture matter more than we think this book examines how social issues shape and influence our engagement with sport leisure time physical activity and health promoting exercise connecting the personal with the public it helps the reader understand how individual exercise leisure and sport participation are both facilitated and constrained by their social contexts presenting a series of in depth descriptions of grassroots sport urban lifestyle sport physical activity across the life course sport for children with special needs and the development of creative climates in sport this book seeks to encourage what c wright mills described as the sociological imagination every chapter begins with an individual level account centred on everyday challenges with accessing sport partaking in leisure activities and meeting guidelines for daily exercise before exploring the larger socially determined patterns in which those experiences are located establishing a vital template for the social scientific study of sport leisure and health touching on key

contemporary themes including diversity inclusion health inequalities and physical inactivity as well as selection and intensification in sports this book offers new case material and theoretical tools for understanding the relationships between sport leisure health and the wider society this is an indispensable companion for any course on the sociology of sport exercise leisure or physical activity and health with the impact of social interactionist and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the social constructionism movement the present volume and the related shorter text constructionist controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective these contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions a generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life the debates in this volume pose fundamental questions about the major assumptions of the perspective the ways in which it is practiced and the purposes of social problems theory their point of departure is Ibarra and Kitsuse's essay cutting new theoretical ground in calling for investigating vernacular resources especially rhetorical forms in the social problems process contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring they also lay down the general lines for diverse and often competing programs for the future development of the constructionist agenda each chapter in this innovative social problems text is written by a specialist or pair of specialists from appropriate subfields within sociology the typical single author approach is limiting given the complexity of the contemporary issues surrounding each social problem discussed involving many content experts ensures that the theories research and examples used in each chapter will be as current and relevant as possible chapters open with personal statements from the contributing authors discussing how they got involved with studying the problem they are writing about Javier Trevino serves as the general editor making sure that each author follows the chapter template and maintains a consistency in level and style this theoretically balanced text provides the latest research findings a consistent structure to help students analyze major social problems facing the United States Henslin presents both sides of an argument with a neutral voice and has a down to earth writing style
