American Aviation Daily 1952 project ficon fighter conveyer in the early 1950s the air force conducted a series of experiments to establish the feasibility of carrying launching and retrieving jet reconnaissance airplanes from giant convair rb 36 bombers it was hoped that the bombers would carry the reconnaissance jets to the perimeter of the soviet union and then release them to penetrate the air defenses tests of the concept were conducted in 1952 and 1953 with a republic f 84e thunderjet and the yf 84f thunderstreak prototype twenty six republic rf 84f thunderflashes and ten convair grb 36d carriers were modified for the project in 1955 a squadron of carriers was established at fairchild air force base washington a squadron of parasites was established at nearby larson air force base training operations began in december 1955 but the composite aircraft system faced competition from the boeing rb 52b lockheed u 2 and the development of aerial refueling

Hearings 1950 in the post 1945 era the aircraft carrier has remained a valued weapon despite the development of nuclear weapons cruise and ballistic missiles and highly capable submarines at times as in the early days of the korean and vietnam wars and in the falklands conflict carriers alone could deploy high performance aircraft to the battlefield in other operations such as enforcing the no fly zones and the u s invasions of afghanistan and iraq only carriers could provide the bases needed for sustained combat and support operations this second volume of norman polmar s landmark study details the role of carriers in the unification of the u s armed forces and strategic deterrence fiscally constrained great britain the development of british commonwealth and ex colonial navies and the efforts of france and the netherlands to rebuild their fleets the role of the modern carrier nine nations currently possess them is discussed as are the issues confronting nations that might acquire them chapters on

the soviet union s effort to produce carriers are included for the first time the development of both carrier planes and the many oddball aircraft that have flown from carriers such as the u 2 spy plane are also examined appendixes include comprehensive data on all carriers built and converted through 2006 this volume is a valuable companion to the critically acclaimed volume i which covers aircraft carrier development and operations from 1909 to 1945

Aircraft Accident Report 197? longleaf pine can be profitably grown as a forest crop on farms as well as on large industrial holdings throughout most of the southern coastal plain the tree is able to grow well even on poor sandy soils withstands fires with less injury than other pines and produces both naval stores and high grade timber cattle grazing can be combined with timber production in longleaf forests to enable farmers to make more profitable dual use of their land this bulletin offers suggestions to farmers and other timberland owners for establishing and managing longleaf pine

Encyclopedia of US Air Force Aircraft and Missile Systems: Post-World War II bombers, 1945-1973 1978 originally designed as a cargo and paratroop transport during world war ii the fairchild c 82 packet is today mainly remembered for its starring role in the hollywood film the flight of the phoenix 1965 its ungainly appearance earned it the nickname the flying boxcar but the aircraft was the first to achieve practical end loading and aerial delivery of cargoes its outsized capacity served the u s military s needs for more than ten years civilian operators flew it in remote locations like alaska and south america for a further three decades this book provides a comprehensive history of the c 82 detailing each of the 224 aircraft built with technical diagrams multiple appendices and more than 200 photos
