The Daily review 1970-09 in this important and revelatory book jonathan tucker a leading expert on chemical and biological weapons chronicles the lethal history of chemical warfare from world war i to the present at the turn of the twentieth century the rise of synthetic chemistry made the large scale use of toxic chemicals on the battlefield both feasible and cheap tucker explores the long debate over the military utility and morality of chemical warfare from the first chlorine gas attack at ypres in 1915 to hitler s reluctance to use nerve agents he believed incorrectly that the u s could retaliate in kind to saddam hussein s gassing of his own people and concludes with the emergent threat of chemical terrorism moving beyond history to the twenty first century war of nerves makes clear that we are at a crossroads that could lead either to the further spread of these weapons or to their ultimate abolition

Soviet Union 1963 2011 updated reprint updated annually kazakhstan customs trade regulations and procedures handbook

Soviet Union 1964 this book investigates the responses of companies in russia s volgograd formerly stalingrad province to the fundamental changes in the economic system and is based primarily on interviews with local managers and decision makers company case studies explore the impact of change on the conduct of business and are related to general developments in the economy the book also questions the future development of russian companies in a situation of tension between the resilience of the past and enormous pressures for change
