maximilliendelafayettebibliography comthe subjects introduced in this book are explosive most important is the fact that it reveals the potential return of the anunnaki in 2022 and the most frightening transformation that it would bring to the earth if this is going to happen a huge number of the people on earth those grossly contaminated by grays dna will be annihilated only those who are naturally uncontaminated and those who managed to clean themselves completely will be taken up through an antimatter bubble with the animals and certain important buildings and inanimate art and culture objects and kept safe until the earth would be clean again such a scenario is to say the least disconcerting even if you are not sure whether you are a believer or not you should certainly consider the possibilities and the book teaches you exactly how to save yourself
