

Implementing Cisco Unified Communications Manager, Part 2 (CIPT2) Foundation Learning Guide 2011-08-01

implementing cisco unified communications manager part 2 cipt2 second edition is a cisco authorized self paced learning tool for ccnp voice foundation learning this book provides you with the knowledge needed to install and configure a cisco unified communications manager solution in a multisite environment by reading this book you will gain a thorough understanding of how to apply a dial plan for a multisite environment configure survivability for remote sites during wan failure and implement solutions to reduce bandwidth requirements in the ip wan this book focuses on cisco unified communications manager cucm release 8 x the call routing and signaling component for the cisco unified communications solution the book has been fully updated and includes new coverage of topics such as service advertisement framework saf and call control discovery ccd whether you are preparing for ccnp voice certification or simply want to gain a better understanding of deploying cisco unified communications manager in a multisite environment you will benefit from the foundation information presented in this book implementing cisco unified communications manager part 2 cipt2 second edition is part of a recommended learning path from cisco that includes simulation and hands on training from authorized cisco learning partners and self study products from cisco press to find out more about instructor led training e learning and hands on instruction offered by authorized cisco learning partners worldwide please visit cisco.com/go/authorizedtraining chris olsen ccvp and ccnp along with numerous other cisco voice specializations microsoft vmware and novell certifications has been an independent it and telephony consultant author and technical editor for more than 15 years he has been a technical trainer for more than 19 years and has taught more than 60 different courses in cisco microsoft vmware and novell for the last seven years he has specialized in cisco and recently microsoft unified communications along with vmware virtualization and cisco data center technologies he has done a wide array of it and telephony consulting for many different companies identify multisite issues and deployment solutions implement multisite connections apply dial plans for multisite deployments examine remote site redundancy options implement survivable remote site telephony srst and media gateway control protocol mgcp fallback implement cucm express in srst mode implement bandwidth management and call admission control cac configure device and extension mobility apply service advertisement framework saf and call control discovery ccd this volume is in the foundation learning guide series offered by cisco press these guides are developed together with cisco as the only authorized self paced learning tools that help networking professionals build their understanding of networking concepts and prepare for cisco certification exams

Implementing Cisco Unified Communications Manager, Part 2 (CIPT2) (Authorized Self-Study Guide) 2008-10-09

authorized self study guide implementing cisco unified communications manager part 2 cipt2 foundation learning for cipt2 exam 642 456 chris olsen implementing cisco unified communications manager part 2 cipt2 is a cisco authorized self paced learning tool for ccvp foundation learning this book provides you with the knowledge needed to install and configure a cisco unified communications manager solution in a multisite environment by reading this book you will gain a thorough understanding of how to apply a dial plan for a multisite environment configure survivability for remote sites during wan failure implement solutions to reduce bandwidth requirements in the ip wan enable call admission control cac and automated alternate routing aar and implement device mobility extension mobility cisco unified mobility and voice security this book focuses on cisco unified callmanager release 6 0 the call routing and signaling component for the cisco unified communications solution it also includes h 323 and media gateway control protocol mgcp gateway implementation the use of a cisco unified border element and configuration of survivable remote site telephony srst different mobility features and voice security whether you are preparing for ccvp certification or simply want to gain a better understanding of deploying cisco unified communications manager in a multisite environment you will benefit from the foundation information presented in this book implementing cisco unified communications manager part 2 cipt2 is part of a recommended learning path from cisco that includes simulation and hands on training from authorized cisco learning partners and self study products from cisco press to find out more about instructor led training e learning and hands on instruction offered by authorized cisco learning partners worldwide please visit cisco com go authorizedtraining chris olsen is the president and founder of system architects inc a training and consulting firm specializing in cisco microsoft and novell networking ip telephony and information technologies chris has been teaching and consulting in the networking arena for more than 15 years he currently holds his ccna ccda ccnp and ccvp certifications as well as various microsoft certifications identify multisite issues and deployment solutions implement multisite connections apply dial plans for multisite deployments examine remote site redundancy options deploy cisco unified communications manager express in srst mode implement bandwidth management call admission control cac and call applications on cisco ios gateways configure device extension mobility and cisco unified mobility understand cryptographic fundamentals and pki implement security in cisco unified communications manager this volume is in the certification self study series offered by cisco press books in this series provide officially developed self study solutions to help networking professionals understand technology implementations and prepare for the cisco career certifications examinations category cisco unified communications manager 6 0 covers cipt2 exam 642 456
