Japan's Aid

2014-09-19

in the twentieth century japan emerged as one of the world s leading economic powers rising from wartime destruction to a leading economic engine in world markets japan s economic aid policy beginning with war reparations following its defeat in world war ii became a vehicle to help achieve this economic success as the country continued to flourish economic aid also became a means of expanding the country s influence in an era of increasing globalization providing an alternative strategy for helping developing nations escape the traps of poverty a strategy drawn from its own experience of reemergence and as we stand at the beginning of a new century japanese aid policy may also serve as a potential model for other nations who are on the cusp of entering high income status and the group of elite world donors a model that in many ways lies in contrast to policies espoused by other advanced western nations the book japan s aid examines the strengths and weaknesses of japanese aid policy in all of these dimensions in fostering economic growth in both its own economic success story and in the numerous countries to which it has served as the single largest bilateral donor over many years and as a policy that other nations might emulate through a combination of insightful case studies and rigorous econometric investigation the book presents a comprehensive examination of the pros and cons of japan s aid

Economic Diversification in the Gulf Region, Volume II

2018-01-09

this volume explores the challenges to diversification in gulf countries which can no longer rely on profits from hydrocarbons to fund national expenditures it elaborates on the problem of weak institutions lack of coordination between policy makers and executors limited investment in research and development and a workforce that is too poorly skilled to compete in the private sector in addition to analyzing issues in areas such as education labor business and trade the contributors underscore the importance of using global best practices to overcome fundamental weaknesses in the gulf cooperative council s economic structure that limit opportunities for economic diversification this is the second volume in economic diversification in the gulf region
