Catalog of Reprints in Series 1965 the life of bavarian hans frank one of the ten war criminals hanged at nuremburg in 1946 has not received the full attention the world has given to other nazi leaders in many ways he warrants it more his life symbolised germany s hubristic and visionary ambition to an alarming degree much better than anyone else s perhaps because he was an intellectual of the highest calibre an early supporter of the nazi party frank ultimately became hitler s personal lawyer and later served as governor general of poland during the second world war he was a fervent advocate of nazi racist ideology and became the primary if not the archetypal symbol of evil establishing a reign of terror against polish civilians and becoming directly involved in the mass murder of jews the butcher of poland is a harrowing account of hans frank the man who formalised the nazi race laws

Das europäische Tagebuch 1963 the british troops who fought so successfully under the duke of wellington during his peninsular campaign against napoleon have long been branded by the duke s own words scum of the earth and assumed to have been society s ne'er do wells or criminals who enlisted to escape justice now edward j coss shows to the contrary that most of these redcoats were respectable laborers and tradesmen and that it was mainly their working class status that prompted the duke s derision driven into the army by unemployment in the wake of britain s industrial revolution they confronted wartime hardship with ethical values and became formidable soldiers in the bargain these men depended on the king s shilling for survival yet pay was erratic and provisions were scant fed worse even than sixteenth century spanish galley slaves they often marched for days without adequate food and if during the campaign they did steal from portuguese and spanish civilians the theft was attributable not to any criminal leanings but to hunger and the paltry rations provided by the army coss draws on a comprehensive database on british soldiers as well as first person accounts of peninsular war participants to offer a better understanding of their backgrounds and daily lives he describes how these neglected and abused soldiers came to rely increasingly on the emotional and physical support of comrades and developed their own moral and behavioral code their cohesiveness coss argues was a major factor in their legendary triumphs over napoleon s battle hardened troops the first work to closely examine the social composition of wellington s rank and file through the lens of military psychology all for the king s shilling transcends the napoleonic battlefield to help explain the motivation and behavior of all soldiers under the stress of combat

The Greatest Classics of All Time 2023-12-09 franz kafka was a self conscious writer whose texts were highly if mysteriously autobiographical three giants of contemporary fiction j m coetzee philip roth and w g sebald have all acknowledged their debt to the work of kafka both in interviews and in their own academic essays and articles for a general readership about him in this striking feat of literary scholarship daniel medin finds that the use of kafka by coetzee roth and sebald is similarly self reflexive and autobiographical that writers from such divergent national and ethnic traditions can have such unique critical readings of kafka and that kafka could exert such a powerful influence over their oeuvres medin contends attests to the central place of kafka in the contemporary literary imagination
