2011-04-26

when twentysomething reporter miranda kennedy leaves her job in new york city and travels to india with no employment prospects she longs to immerse herself in the turmoil and excitement of a rapidly developing country what she quickly learns in delhi about renting an apartment as a single woman it s next to impossible and the proper way for women in india to ride scooters perched sideways are early signs that life here is less westernized than she d counted on living in delhi for more than five years and finding a city pulsing with possibility and hope kennedy experiences friendships love affairs and losses that open a window onto the opaque world of indian politics and culture and alter her own attitudes about everything from food and clothes to marriage and family along the way kennedy is drawn into the lives of several indian women including her charismatic friend geeta a self described modern girl who attempts to squeeze herself into the traditional role of wife and mother radha a proud brahmin widow who denies herself simple pleasures in order to live by high caste hindu principles and parvati who defiantly chain smokes and drinks whiskey yet feels compelled to keep her boyfriend a secret from her family in her effort to understand the hopes and dreams that motivate her new friends kennedy peels back india s globalized image as a land of call centers and fast food chains and finds an ancient place where in many ways women s lives have scarcely changed for centuries incisive witty and written with a keen eye for the lush vibrancy of the country that kennedy comes to love sideways on a scooter is both a remarkable memoir and a cultural revelation

Poet on a Scooter

1958

this fast paced often humorous travel book tells the truly ridiculous story of how two british friends matt bishop and reece gilkes became the first people to circumnavigate the globe on a scooter with a sidecar their world record breaking 34 000 mile long journey took them through thirty five countries and across five continents with no experience of mechanics overlanding or even riding motorbikes the pair took their honda scooter and barn built sidecar through some of the world s toughest environments including a scorching sahara desert and the frozen wilds of a siberian winter this heartwarming story will restore your faith in humanity as strangers all over the world save the pair from the life threatening and downright idiotic situations in which they find themselves at the same time the book lifts the curtain on the issue of modern slavery which still plagues every country on earth matt and reece meet survivors of modern slavery and organisations fighting it all over the world and the hard hitting stories they share will leave you questioning your role in the issue and asking how you can help reading this refreshing book is easy time just slips by but that s the only easy thing about the whole affair so my advice is think of something you d love to do that s really quite ridiculously impossible then read the book then go and do it i must say it really takes me back ted simon author of jupiter s travels the many threads of this gripping adventure unfold as a powerful at times opinionated heart tweaking fast flowing journey of surprises woven into the stories are top tips quirky facts about the lands traversed and a wonderfully self depreciating sense of humour this story is proof that a positive attitude determination respect towards others and wide open minds can change the world adventurers are going to love the challenges and at times readers are going to have to put this book down so they can really think about the images attached to the words they have just read sam manicom author of into africa a powerfully written tale about travelling with purpose but what a daft machine to use paddy tyson overland magazine you can also get a signed copy of this book with colour pictures at armchairadventurefestival.com/shop

Scooter Lifestyle

2008-06-15

this is mainly a photographic reference book to classic scooters and microcars with specification data presented in a to z order of manufacturer there are also nostalgic recollections by the author based on ownership and personal experience in the middle 1950s as a teenager mike dan became interested in these then newly arrived forms of transport eventually mike owned a series of scooters and a microcar he became involved in scooter and microcar clubs and took part in many local and national sporting events gaining a collection of awards and trophies in the mid 1980s he had time again to visit many indoor and outdoor classic vehicle shows eventually this led to a renewed personal involvement in the restoration of a series of over twenty classic scooters and three classic microcars this highly entertaining book and reference source is therefore written with the authority of a lifetime enthusiast

since establishing a free floating scooter rental program in late 2018 the city of tacoma has been plagued by missing equipment author and photographer marques vickers has meticulously tracked down and photographed missing inventory in some of the most remote and incredulous locations imaginable this edition documents the odyssey of missing scooters with tongue in cheek evidence offering neither explanation nor commentary to explain the seemingly implausible dockless scooters have proven ideal for short distance trips and have become even more popular than bicycle sharing programs the city of seattle currently operates approximately 20 of the national electrical bicycle inventory but has yet to permit a scooter sharing program this formality will likely be overcome shortly san francisco los angeles and portland have instituted programs in place the scooters are intended to be operated on sidewalks roads alleys and shoulders but not in bike lanes trails or pedestrian only paths the rules regarding safety standards permit requirements service levels and parking of the scooters have been modeled after seattle s bike sharing program within tacoma two mainstream scooter companies lime and bird currently participate in the mobility scooter program inventory maintenance is conducted by a unique band of independent contractors called lime juicers and bird nesters as evening descends and scooter power meters lower these individuals roam the streets and scavenger depleted scooters the equipment is then recharged at their residence and relocated back to prominent sidewalk locations the next morning unpleasant realities have darkened the program s long term outlook in several other metropolitan markets exposed collisions at 15 miles per hour are extremely hazardous in a 2019 study published in the medical journal jama network open examining scooter ridership injuries the results were predictable in tracking emergency room visitations contusions sprains and lacerations were the most common injuries more severe multiple bone fractures broken ribs joint injuries and head trauma were common two disturbing factors emerged from these statistics the majority of injured riders were not wearing protective helmets and a disproportionate percentage were minors there are numerous financial and ecological challenges accompanying this technology the lithium batteries require processing centers to be recycled some of the fleet operators claim these programs are handled in house the layered equipment piling up in scrap yards makes some of these claims questionable in china where bicycle and scooter sharing programs initiated published reports indicate abandoned equipment is filling vast fields outside major cities there has become a significant counter reaction to the proliferation of these lightweight transportation vehicles extreme reactions have varied from throwing scooters into bodies of water trashcans and even toilets one of the intended objectives of the scooter sharing program is to encourage worker commuting statistics have confirmed this has occurred however a commuter usually orders their own equipment often priced under 500 effectively ending an important stream of recurring revenue to the scooter companies missing scooter equipment snowy sidewalks vandalism charger fraud and increasing government regulation scrutiny have dampened investors interest in scooter sharing companies venture capitalists crave innovation but only if it is financially profitable and sustainable illegal but readily available conversion kits retailing for under 35 have enabled unscrupulous users to transform public accessible equipment into personal scooters this edition photographs some of their illicit and improbable parked locations

join chris as he embarks on the adventure of his life touching twenty countries and travelling close to 30 000 km over 8 months all the way from the southern tip of africa to the shamrock fields of ireland the journey was a publicity stunt creating media opportunities for paediatric healthcare service providers and of course chris relished the opportunity to taste his very first guinness at the source but was the trip all the way to dublin worth it battling ill health and broken friendships this rollercoaster ride eventually cost chris his eyesight he relays the story of his adventures on the road medical trauma and recovery with passion and good humour after his devastating prognosis as a blind man chris thought that sight loss would cause his adventures to end but it has rather ignited his curiosity chris inspirational scooter ride and journey to recovery and how he has overcome the obstacles he has faced has not slowed down his adventurous spirit blindmancan

How I Became The Blind Scooter Guy

2019-04-28

scooterboys are the lost tribe of british youth culture unrecognised uncelebrated and unwanted misunderstood by a general public who mistook us for mods we weren't mods though by the 1980s myself and tens of thousands of scooter riders collectively rejected that label instead we took the roadmap of british youth disaffection and carved a new bypass this route took us beyond the uk's faded seaside resorts allowing us to spread our creed across the continents tuned and customised vespa and lambretta scooters gave us freedom to roam transport to live for the weekend shared experiences of riots local hostility and police harassment built strong fraternal bonds that endure to this day despite decades of two wheeled rebellion our threat level was never high enough to put us on the national security radar this low profile has its benefits we aren't doomed to follow the same cycle as mods first feared then pilloried accepted and finally adopted as part of uk's rich culture as british as a vindaloo the cult of scooterboy has escaped death by public acceptance simply by remaining too underground too difficult to distinguish from what came before and that's just perfect you'll never see scooterboys parodied in tv insurance adverts or low budget fly on the walls the poorly rendered caricature is always some cliché mod on a christmas tree scooter if you rode to rallies in the 80s and 90s then this book will mirror your experiences if you've never had a scooter then it offers a rare glimpse of life inside the lost tribe of two stroke terrorists

Scooterboys
