incorporated in any new release of the specification clarification document only change revision history preface this document is an update to the specifications contained in the documents listed in the following affected documents related documents table specification update october 2023 preface this document is an update to the specifications contained in the next table affected documents this document is a compilation of device and documentation errata specification clarifications and changes it is intended for hardware system

12th generation intel core processor specification update ***May 27 2024***

this describes all publicly disclosed specifications including electrical characteristics mechanical and component functionality a list of major features a functional description and an architectural overview

download intel drivers and software Apr 26 2024

download new and previously released drivers including support software bios utilities firmware patches and tools for intel products automatically update your drivers and software

intel driver support assistant ***Mar 25 2024***

the intel driver support assistant keeps your system up to date by providing tailored support and hassle free updates for most of your intel hardware view a list of driver software exclusions

12th generation intel core processor *Feb 24 2024*

documentation changes are removed from the specification update when the appropriate changes are made to the appropriate product specification or user documentation datasheets manuals etc

intel product specifications *Jan 23 2024*

intel product specifications features and compatibility quick reference guide and code name decoder compare products including processors desktop boards server products and networking products

11th generation intel core processor *Dec 22 2023*

changes are removed from the specification update when the appropriate changes are made to the appropriate product specification or user documentation datasheets manuals etc

13th generation intel core processor *Nov 21 2023*

documentation changes are removed from the specification update when the appropriate changes are made to the appropriate product specification or user documentation datasheets manuals etc

intel xeon processor scalable family specification update *Oct 20 2023*

this document provides updates on specifications related to the intel xeon processor scalable family

intel xeon processor scalable family specification update Sep 19 2023

specification update october 2020 preface preface this document is an update to the specifications contained in the next table affected documents this document is a compilation of device and documentation errata specification clarifications and changes it is intended for hardware system

what is new in the latest intel driver support assistant *Aug 18 2023*

release updates covering all intel driver support assistant updates starting with most recent

how to update the operating system using windows 10 intel *Jul 17 2023*

how can the operating system be updated resolution in windows 10 and 11 you decide when and how to get the latest updates to keep your device running smoothly and securely to manage your options and see available updates select check for windows updates or select the start button and then go to settings update security windows update

4th gen intel xeon scalable processors codename sapphire rapids *Jun 16 2023*

nda specification update download as pdf view more a newer version of this document is

available customers should click here to go to the newest version document table of contents

unable to locate specification update for intel core i5 *May 15 2023*

i am unable to obtain a specification update document for the intel core i5 2500k processor i have searched elsewhere online as well at the ark page for the processor ark intel com content us en ark products 52210 intel core i52500k processor 6m cache up to 3 70 ghz html

intel processor identification utility windows version *Apr 14 2023*

the intel processor identification utility is free software that can identify the specifications of your processor it displays the graphics information chipset information technologies supported by the processor and more for more information visit overview of the intel processor identification utility

10th generation intel core processor specification update *Mar 13 2023*

specification update contains revised information about products including identification information specification changes clarifications documentation changes and errata with reference to the original specifications document

8th and 9th gen intel core processor family spec update *Feb 12 2023*

this spec update provides specification changes errata specification clarifications and document changes to the 8th and 9th generation intel core processor family datasheet for the s h u processor line

3rd generation intel xeon scalable processors codename Jan 11 2023

specification update april 2023 preface this document is an update to the specifications

contained in the related documents table below
this document is a compilation of device and
documentation errata specification
clarifications and changes it is intended for
hardware system

intel 500 series chipset family on package platform *Dec 10 2022*

specification changes are modifications to the
current published specifications these changes
will be incorporated in any new release of the
specification specification clarifications
describe a specification in greater detail or
further

12th generation intel core processor *Nov 09 2022*

errata details specification changes
specification clarification document only
change revision history preface this document
is an update to the specifications contained
in the documents listed in the following
affected documents related documents table

2nd gen intel xeon scalable processors *Oct 08 2022*

specification update october 2023 preface this document is an update to the specifications contained in the next table affected documents this document is a compilation of device and documentation errata specification clarifications and changes it is intended for hardware system
