colorful pages with photos and bible verses added does a market economy encourage or discourage music literature and the visual arts do economic forces of supply and demand help or harm the pursuit of creativity this book seeks to redress the current intellectual and popular balance and to encourage a more favorable attitude toward the commercialization of culture that we associate with modernity economist tyler cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a plurality of coexisting artistic visions providing a steady stream of new and satisfying creations supporting both high and low culture helping consumers and artists refine their tastes and paying homage to the past by capturing reproducing and disseminating it contemporary culture cowen argues is flourishing in its various manifestations including the visual arts literature music architecture and the cinema successful high culture usually comes out of a healthy and prosperous popular culture shakespeare and mozart were highly popular in their own time beethoven's later less accessible music was made possible in part by his early popularity today consumer demand ensures that archival blues recordings a wide array of past and current symphonies and this week's top 40 hit sit side by side in the music megastore high and low culture indeed complement each other cowen's philosophy of cultural optimism stands in opposition to the many varieties of cultural pessimism found among conservatives neoconservatives the frankfurt school and some versions of the political correctness and multiculturalist movements as well as historical figures including rousseau and plato he shows that even when contemporary culture is thriving it appears degenerate as evidenced by the widespread acceptance of pessimism he ends by considering the reasons why cultural pessimism has such a powerful hold on intellectuals and opinion makers this is an indispensable companion to the pew edition of wonder love and praise written specifically for the musician clergy person worship planner and accompanist this volume contains all the music from the pew
