this collection comprising nine critical essays from prominent and emerging medievalists seeks to explore the different ways in which french authors of the middle ages transgress normative social and cultural gender codes in their literary works offering fresh approaches to texts that have long been subjected to polarized critical analyses the essays challenge traditional interpretations of gender roles in old french literature especially in the thematic areas of sexual deviation and transgression this corpus emerges as possessing multiple shades and subtleties of meaning long buried or ignored by conventional approaches to these texts this is a conclusion much more in accord with what we know about the ability of the medieval imagination to grasp multiple meaning from a single word or act the

collection provides many examples of this multi layering of transgressive meaning through the detailed studies of gender transgressions such as incest cross dressing rape and homoeroticism the reader will come to understand the many facets of the literary expression of sexuality in selected old french texts products of a society that was at least as diverse and complex as our own these studies will be of particular value to those interested in old french and gender studies by dint of accessible analyses of texts both familiar and arcane the provocative subject matter makes the studies original and eminently readable

in medieval boundaries sharon kinoshita examines the role of cross cultural contact in twelfth and early thirteenth century french literature starting from the observation that many of the earliest and best known works of the french literary tradition are set on or beyond the borders of the french speaking world she reads the chanson de roland the lais of marie de france and a variety of other texts in an expanded geographical frame that includes the iberian peninsula the welsh marches and the eastern mediterranean in kinoshita s reconceptualization of the geographical and cultural boundaries of the medieval west such places become significant not only as sites of conflict but also as spaces of intense political economic and cultural negotiation an important contribution to the emerging field of medieval postcolonialism kinoshita s work explores the limitations of reading the literature of the french middle ages as an inevitable link in the historical construction of modern discourses of orientalism colonialism race and christian muslim conflict rather drawing on recent historical and art historical scholarship kinoshita uncovers a vernacular culture at odds with official discourses of crusade and conquest situating each work in its specific context she brings to light the lived experiences of the knights and nobles for whom this literature was first composed and in a series of close readings informed by postcolonial and feminist theory demonstrates that literary representations of cultural encounters often provided the pretext for questioning the most basic categories of medieval identity awarded honorable mention for the 2007 modern language association aldo and jeanne scaglione prize for french and francophone studies

Gauvain in Old French Literature 1980

much work has already been done on the conventions and formulae of old french literature particularly epic literature and on parody in the french middle ages this book links these approaches widens the concept of formula and aims to show that certain authors far from being enslaved by the conventions within which they worked were conscious of them and could master them with sufficient independence to exploit them for calculated literary effect and in particular for parody it studies the fabliaux aucassin et nicollette and le pèlerinage de charlemagne texts in which formulae play a varied and subtle part in the fabliaux we find that

formulae borrowed from serious literature add parodic depth to the often simple humour of these tales but that the genre as a whole is not essentially parodic aucassin et nicollette uses conventions to arouse expectations which may or may not be satisfied parody proves to be fundamental to this work the approach shows its full potential when applied to le pèlerinage de charlemagne study of this text s use of formulae of the epic and romance traditions reveals a high degree of complexity and a finely nuanced parody

what do we know of medieval childhood were boundaries always clear between childhood and young adulthood was medieval childhood gendered scholars have been debating such questions over half a century can evidence from imaginative literature test the conclusions of historians phyllis gaffney s innovative book reveals contrast and change in the portrayal of childhood and youth by looking at vernacular french narratives composed between 1100 and 1220 covering over sixty poems from two major genres epic and romance she traces a significant evolution while early epics contain only a few stereotypical images of the child later verse narratives display a range of arguably timeless motifs as well as a growing awareness of the special characteristics of youth whereas juvenile epic heroes contribute to the adult agenda by displaying precocious strength and wisdom romance children are on the receiving end requiring guidance and education gaffney also profiles the intriguing phenomenon of enfances poems singing the youthful deeds of established heroes these prequels combine epic and romance features in distinctive ways approaching the history of childhood and youth through the lens of literary genre this study shows how imaginative texts can both shape and reflect the historical development and cultural construction of emotional values
