Pawnee Hero Stories and Folk-tales 1893 this book provides an important study of the theology of thomas f torrance who is generally considered to have been one of the most significant theologians writing in english during the twentieth century with a view toward showing how his theological method and all his major doctrinal views were shaped by his understanding of the doctrine of the trinity torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known in holding to such a methodology he drew an analogy between theology and natural science

this book demonstrates how for torrance god relates with humanity within time and space so that creation finds its meaning in relation to god and not in itself this enabled him to avoid many theological pitfalls such as agnosticism subjectivism and dualism while explaining the positive implications of various christian doctrines in a penetrating and compelling manner this book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the christian life
