chapter 2 frequency distributions skidmore edu

Apr 22 2024

a frequency distribution is an organized tabulation of the number of individuals located in each category on the scale of measurement a frequency distribution can be structured either as a table or as a graph but in either case the distribution presents the same two elements 1 the set of categories that make up the original measurement

chapter 2 frequency distributions skidmore edu

Mar 21 2024

as you showed in the probability lab you already have a good sense of that concept that is you recognize that if a data set of 16 scores contains only one score of 20 the probability of randomly picking that score of 20 from the distribution is $\frac{1}{16} = 0.0625$ the probability of flipping a coin and getting heads is $\frac{1}{2} = 0.50$
