Le strade ferrate considerate nei rapporti tecnici, amministrativi e commerciali 1857

non sembra un colpo di fortuna per Sholto LeStrade l'ispettore di Scotland Yard con il naso da furetto e i baffi da tricheco ereditare i casi rimasti in sospeso di un collega deceduto mettersi suo malgrado a investigare sulla morte di un bizzarro cacciatore di fantasmi avvenuta a Brighton difficilmente gli frutterà una promozione ma da cosa nasce cosa e l'idea di fare visita a un amico della vittima cappellano presso la scuola di St Rhadegund nel Northamptonshire imprime una svolta all'indagine. È infatti un macabro benvenuto quello che lo attende a Rhadegund Hall imponente edificio protetto da un maestoso cancello in ferro battuto dove l'ispettore assiste al ritrovamento del cadavere di una giovane lavandaia che stringe nel pugno uno strano amuleto intanto a Whitechapel un assassino inafferrabile destinato a passare alla storia del crimine sta compiendo le sue atroci imprese possibile che le due vicende siano collegate a LeStrade l'ardua sentenza.

Lestrade and the Sawdust Ring 2020-09-12

rodrigo perez de arce s essay urban transformations and architectural additions was published during the formative stages of post modernism at the point where theory was becoming seriously established jencks first essays formalising the term post modernism in architecture and the revised learning from las vegas were published the previous year in planning terms modernism had become associated with comprehensive redevelopment and forms of urban organisation that ignored context history and any sense of tradition de arce considered the essential nature of buildings and the richness of historic urban form and explored how robust that essence was over time he looked at the value of essential remnants and rich complexities in maintaining a sense of continuity and relevance having explored the adaptation process in history de arce went on to see how such a process might be simulated in contemporary cities with modern buildings using additions and layers to change them from objects in infinite windswept space to being part of a rich urban fabric which described urban place to do this he used concrete examples housing schemes by james stirling new government centres in chandigarh and dacca and more prosaic 60 s housing blocks the paper had a fundamental influence on the way that architects and planners thought about the nature of cities as dynamic organisms that were tangible to human beings completely opposite to the systems thinking of the time it contributed to ideas about the importance of street place and city block which influenced so much recent regeneration practice as we enter a phase of development where the reuse and adaptation of existing buildings is becoming paramount from both an economic and sustainable point of view perez de arce s paper gives important insights into how to think about the process positively
