Advanced Topics in End User Computing, Volume 4

2005-03-31

advance topics in end user computing features the latest research findings dealing with end user computing concepts issues and trends it provides a forum to both academics and information technology practitioners to advance the practice and understanding of end user computing in organizations empirical and theoretical research concerned with all aspects of end user computing including development utilization and management are included

Natural and Artificial Models in Computation and Biology

2013-06-03

the two volume set lncs 7930 and lncs 7931 constitutes the refereed proceedings of the 5th international work conference on the interplay between natural and artificial computation iwinac 2013 held in mallorca spain in june 2013 the 92 revised full papers presented in lncs 7930 and lncs 7931 were carefully reviewed and selected from numerous submissions the first part lncs 7930 entitled natural and artificial models in computation and biology includes all the contributions mainly related to the methodological conceptual formal and experimental developments in the fields of neurophysiology and cognitive science the second part lncs 7931 entitled natural and artificial computation in engineering and medical applications contains the papers related to bioinspired programming strategies and all the contributions related to the computational solutions to engineering problems in different application domains specially health applications including the cyted artificial and natural computation for health cans research network papers in addition this two volume set reflects six interesting areas cognitive robotics natural computing wetware computation quality of life technologies biomedical and industrial perception applications and intelligence and neuroscience

Advances in Information Retrieval

2011-04-12

this book constitutes the refereed proceedings of the 33rd annual european conference on information retrieval research ecir 2011 held in dublin ireland in april 2010 the 45 revised full papers presented together with 24 poster papers 17 short papers and 6 tool demonstrations were carefully reviewed and selected from 223 full research paper submissions and 64 poster demo submissions the papers are organized in topical sections on text categorization recommender systems ir ir evaluation ir for social networks cross language ir ir theory multimedia ir ir applications interactive ir and question answering nlp

Distributed User Interfaces: Usability and Collaboration

2013-10-17

written by international researchers in the field of distributed user interfaces dui this book brings together important contributions regarding collaboration and usability in

distributed user interface settings throughout the thirteen chapters authors address key questions concerning how collaboration can be improved by using dui including in which situations a dui is suitable to ease the collaboration among users how usability standards can be used to evaluate the usability of systems based on dui and accurately describe case studies and prototypes implementing these concerns under a collaborative scenario users sharing common goals may take advantage of dui environments to carry out their tasks more successfully because dui provide a shared environment where the users are allowed to manipulate information in the same space and at the same time under this hypothesis collaborative dui scenarios open new challenges to usability evaluation techniques and methods distributed user interfaces collaboration and usability presents an integrated view of different approaches related to collaboration and usability in distributed user interface settings which demonstrate the state of the art as well as future directions in this novel and rapidly evolving subject area

Computer Systems Architecture

2016-08-19

computer systems architecture provides it professionals and students with the necessary understanding of computer hardware it addresses the ongoing issues related to computer hardware and discusses the solutions supplied by the industry the book describes trends in computing solutions that led to the current available infrastructures tracing the initial need for computers to recent concepts such as the internet of things it covers computers data representation explains how computer architecture and its underlying meaning changed over the years and examines the implementations and performance enhancements of the central processing unit cpu it then discusses the organization hierarchy and performance considerations of computer memory as applied by the operating system and illustrates how cache memory significantly improves performance the author proceeds to explore the bus system algorithms for ensuring data integrity input and output i o components methods for performing i o various aspects relevant to software engineering and nonvolatile storage devices such as hard drives and technologies for enhancing performance and reliability he also describes virtualization and cloud computing and the emergence of software based systems architectures accessible to software engineers and developers as well as students in it disciplines this book enhances readers understanding of the hardware infrastructure used in software engineering projects it enables readers to better optimize system usage by focusing on the principles used in hardware systems design and the methods for enhancing performance

Multimedia Services in Intelligent Environments

2013-05-23

multimedia services are now commonly used in various activities in the daily lives of humans related application areas include services that allow access to large depositories of information digital libraries e learning and e education e government and e governance e commerce and e auctions e entertainment e health and e medicine and e legal services as well as their mobile counterparts i e m services despite the tremendous growth of multimedia services over the recent years there is an increasing demand for their further development this demand is driven by the ever increasing desire of society for easy accessibility to information in friendly personalized and adaptive environments in this book at hand we examine recent advances in recommender systems recommender systems are crucial in multimedia services as they aim at protecting the service users from information overload the book includes nine chapters which present various recent research results in recommender systems this research book is directed to professors researchers application engineers and students of all disciplines who are interested in learning more about recommender systems advancing the corresponding state of the art and developing recommender systems for specific applications

Human-Computer Interaction -- INTERACT 2013

2013-07-30

the four volume set lncs 8117 8120 constitutes the refereed proceedings of the 14th ifip tc13 international conference on human computer interaction interact 2013 held in cape town south africa in september 2013 the 55 papers included in the second volume are organized in topical sections on e input output devices e readers whiteboards facilitating social behaviour and collaboration gaze enabled interaction design gesture and tactile user interfaces gesture based user interface design and interaction health medical devices humans and robots human work interaction design interface layout and data entry learning and knowledge sharing learning tools learning contexts managing the ux mobile interaction design and mobile phone applications

NASA/DOD Aerospace Knowledge Diffusion Research Project. Report 7:Summary Report to Phase 2 Respondents Including Frequency Distributions

1991

the objective of the 2014 international conference on computer network security and communication engineering cnsce2014 is to provide a platform for all researchers in the field of computer network security and communication engineering to share the most advanced knowledge from both academic and industrial world to communicate with each other about their experience and most up to date research achievements and to discuss issues and future prospects in these fields as an international conference mixed with academia and industry cnsce2014 provides attendees not only the free exchange of ideas and challenges faced by these two key stakeholders and encourage future collaboration between members of these groups but also a good opportunity to make friends with scholars around the world as the first session of the international conference on cnsce it covers topics related to computer network security and communication engineering cnsce2014 has attracted many scholars researchers and practitioners in these fields from various countries they take this chance to get together sharing their latest research achievements with each other it has also achieved great success by its unique characteristics and strong academic atmosphere as well as its authority

2014 International Conference on Computer, Network

2014-03-12

helping current and future system designers take a more productive approach in the field communication system security shows how to apply security principles to state of the art communication systems the authors use previous design failures and security flaws to explain common pitfalls in security design divided into four parts the book begins w

The Principles of the Law of Evidence

1893

2023-06-09

4/15

for ford transit repair manual bookbasementle

this book addresses the impacts of various types of services such as infrastructure platforms software and business processes that cloud computing and big data have introduced into business featuring chapters which discuss effective and efficient approaches in dealing with the inherent complexity and increasing demands in data science a variety of application domains are covered various case studies by data management and analysis experts are presented in these chapters covered applications include banking social networks bioinformatics healthcare transportation and criminology highlighting the importance of big data management and analysis for various applications will provide the reader with an understanding of how data management and analysis are adapted to these applications this book will appeal to researchers and professionals in the field

Communication System Security

2012-05-29

the four volume set lncs 11583 11584 11585 and 11586 constitutes the proceedings of the 8th international conference on design user experience and usability duxu 2019 held as part of the 21st international conference hci international 2019 which took place in orlando fl usa in july 2019 the total of 1274 papers and 209 posters included in the 35 hci 2019 proceedings volumes was carefully reviewed and selected from 5029 submissions duxu 2019 includes a total of 167 regular papers organized in the following topical sections design philosophy design theories methods and tools user requirements preferences emotions and personality visual duxu duxu for novel interaction techniques and devices duxu and robots duxu for ai and ai for duxu dialogue narrative storytelling duxu for automated driving transport sustainability and smart cities duxu for cultural heritage duxu for well being duxu for learning user experience evaluation methods and tools duxu practice duxu case studies

Highlighting the Importance of Big Data Management and Analysis for Various Applications

2017-08-22

information modelling and knowledge bases have become hot topics not only in academic communities concerned with information systems and computer science but also wherever information technology is applied in the world of business this book presents the proceedings of the 21st european japanese conference on information modelling and knowledge bases ejc 2011 held in tallinn estonia in june 2011 the ejc conferences provide a worldwide forum for researchers and practitioners in the field to exchange results and experiences achieved in computer science and related disciplines such as conceptual analysis design and specification of information systems multimedia information modelling multimedia systems software engineering knowledge and process management cross cultural communication and context modelling attention is also paid to theoretical disciplines including cognitive science artificial intelligence logic linguistics and analytical philosophy the selected papers 16 full papers 9 short papers 2 papers based on panel sessions and 2 on invited presentations cover a wide range of topics including database semantics knowledge representation software engineering information management context based information retrieval ontology image databases temporal and spatial databases document data management process management cultural modelling and many others covering many aspects of system modelling and optimization this book will be of interest to all those working in the field of information modelling and knowledge bases

in most it system development processes the identification or elicitation of user requirements is recognized as a key building block in practice the identification of user needs and wants is a challenge and inadequate or faulty identifications in this step of an it system development can cause huge problems with the final product the elicitation of user requirements as such changes according to age groups to gender to cultural settings and into time and experience in the use of the system software user requirements therefore cannot be used between projects it systems and different software that makes the elicitation of user requirements an inherent part of any software development project and a resourceful activity as well this book provides insights to the process of identifying user requirements and to different types by describing varying case studies in which technologies or software has been developed a variety of user requirements are provided illustrating the effect of changing the targeted user group with respect to age to the context and the different technologies or software as well as to the difference in viewpoint on ways of involving users in the elicitation process cases and user requirement elements discussed in the book include user requirements elicitation processes for children construction workers and farmers user requirements for personalized services of a broadcast company variations in user involvement practical elements of user involvement and requirements elicitation usable security requirements for design of privacy

Design, User Experience, and Usability. Practice and Case Studies

2019-07-10

modern day projects require software and systems engineers to work together in realizing architectures of large and complex software intensive systems to date the two have used their own tools and methods to deal with similar issues when it comes to the requirements design testing maintenance and evolution of these architectures software and systems architecture in action explores practices that can be helpful in the development of architectures of large scale systems in which software is a major component examining the synergies that exist between the disciplines of software and systems engineering it presents concepts techniques and methods for creating and documenting architectures the book describes an approach to architecture design that is driven from systemic quality attributes determined from both the business and technical goals of the system rather than just its functional requirements this architecture centric design approach utilizes analytically derived patterns and tactics for quality attributes that inform the architect s design choices and help shape the architecture of a given system the book includes coverage of techniques used to assess the impact of architecture centric design on the structural complexity of a system after reading the book you will understand how to create architectures of systems and assess their ability to meet the business goals of your organization ideal for anyone involved with large and complex software intensive systems the book details powerful methods for engaging the software and systems engineers on your team the book is also suitable for use in undergraduate and graduate level courses on software and systems architecture as it exposes students to the concepts and techniques used to create and manage architectures of software intensive systems

Information Modelling and Knowledge Bases XXIII

2012-01-18

addresses innovations in technology relating to the energy efficiency of a wide variety of contemporary computer systems and networks with concerns about global energy consumption at an all time high improving computer networks energy efficiency is becoming an increasingly important topic large scale distributed systems and energy efficiency a holistic view addresses innovations in technology relating to the energy efficiency of a wide variety of contemporary computer systems and networks after an introductory overview of the energy demands of current information and communications technology ict individual chapters offer in depth analyses of such topics as cloud computing green networking both wired and wireless mobile computing power modeling the rise of green data centers and high performance computing resource allocation and energy efficiency in peer to peer p2p

computing networks discusses measurement and modeling of the energy consumption method includes methods for energy consumption reduction in diverse computing environments features a variety of case studies and examples of energy reduction and assessment timely and important large scale distributed systems and energy efficiency is an invaluable resource for ways of increasing the energy efficiency of computing systems and networks while simultaneously reducing the carbon footprint

User Requirements for Wireless

2015-04-22

power bi data analysis and visualization provides a roadmap to vendor choices and highlights why microsoft s power bi is a very viable cost effective option for data visualization the book covers the fundamentals and most commonly used features of power bi but also includes an in depth discussion of advanced power bi features such as natural language queries embedding power bi dashboards and live streaming data it discusses real solutions to extract data from the erp application microsoft dynamics crm and also offers ways to host the power bi dashboard as an azure application extracting data from popular data sources like microsoft sql server and open source postgresql authored by microsoft experts this book uses real world coding samples and screenshots to spotlight how to create reports embed them in a webpage view them across multiple platforms and more business owners it professionals data scientists and analysts will benefit from this thorough presentation of power bi and its functions

Aircraft Noise Prediction Program Propeller Analysis System IBM-PC Version User's Manual Version 2.0

1988

universal design design for all and inclusive design are all aimed at dismantling physical and social barriers to inclusion in all areas of life engagement in universal design is on the increase worldwide as practitioners and researchers explore creative and desirable solutions to shape the future of universal design products and practices this book is a collection of the papers presented at ud2014 the international conference on universal design held in lund sweden in june 2014 the conference offered a creative and diverse meeting place for all participants to exchange knowledge experiences and ideas and to build global connections and creative networks for future work on universal design the themes of ud2014 span many aspects of societal life and the papers included here cover areas as diverse as architecture public transport educational and play environments housing universal workspaces and the internet of things as well as designs and adaptations for assistive technology the book clearly demonstrates the breadth of universal design and its ongoing adoption in societies all over the world and will be of interest to anyone whose work involves building a more inclusive environment for all

Software and Systems Architecture in Action

2014-10-27

this book is a compilation of papers presented in the international ergonomics conference hwwe 2007 held at central institute of agricultural engineering bhopal during december 10 12 2007 the proceedings of hwwe 2007 titled developments in agricultural and industrial ergonomics has been brought out in two volumes vol 1 general studies and vol 2 women at work this volume contains section on anthropometry and work place design work and sport physiology physical environment cognitive design ergonomics ergonomics in agriculture ergonomics in industry and occupational health and safety

Large-scale Distributed Systems and Energy Efficiency

2015-03-05

the galaxy s 4 is one of the best selling android phones on the market today as a result the galaxy s 4 is packed full of new features never before seen on any android phone such as air gestures multi window applications eye tracking and the ability to view a video while using another application this guide will introduce you to these new features and show you how to use them this book gives task based instructions without using any technical jargon learning which buttons perform which functions is useless unless you know how it will help you in your everyday use of the galaxy s 4 therefore this guide will teach you how to perform the most common tasks instead of presenting arbitrary instructions in lengthy paragraphs this book gives unambiguous simple step by step procedures additionally detailed screenshots help you to confirm that you are on the right track this survival guide also goes above and beyond to explain secret tips and tricks to help you accomplish your day to day tasks much faster if you get stuck just refer to the troubleshooting section to figure out and solve the problem here are just a few of the topics covered in the galaxy s 4 survival guide organizing home screen objects transferring files to the galaxy s 4 using a pc or mac calling a frequently dialed number switching to a bluetooth headset during a voice call assigning a photo to a contact adding a contact to the reject list saving attachments from text messages sending a text message to an entire group clearing personal data creating an animated photo creating a panoramic photo sharing a photo with the people tagged in it ignoring new messages in a new email conversation closing applications running in the background maximizing battery life using mp3 s as ringtones blocking calls notifications alarms and the led indicator making the phone open applications and menus faster

Power BI Data Analysis and Visualization

2018-09-10

the three volume set Incs 8009 8011 constitutes the refereed proceedings of the 7th international conference on universal access in human computer interaction uahci 2013 held as part of the 15th international conference on human computer interaction hci 2013 held in las vegas usa in july 2013 jointly with 12 other thematically similar conferences the total of 1666 papers and 303 posters presented at the hci 2013 conferences was carefully reviewed and selected from 5210 submissions these papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems the papers accepted for presentation thoroughly cover the entire field of human computer interaction addressing major advances in knowledge and effective use of computers in a variety of application areas the total of 230 contributions included in the uahci proceedings were carefully reviewed and selected for inclusion in this three volume set the 78 papers included in this volume are organized in the following topical sections universal access to smart environments and ambient assisted living universal access to learning and education universal access to text books ebooks and digital libraries health well being rehabilitation and medical applications access to mobile interaction

Universal Design 2014: Three Days of Creativity and Diversity

2014-05-30

everything today s cpa candidates need to pass the cpa exam published annually this auditing and attestation volume of the comprehensive four volume paperback reviews all current aicpa content requirements in auditing and attestation many of the questions are taken directly from previous cpa exams with 2 800 multiple choice questions in all four volumes

these study guides provide all the information candidates need to master in order to pass the computerized uniform cpa examination its unique modular format helps you zero in on those areas that need more attention and organize your study program complete sample exam the most effective system available to prepare for the cpa exam proven for over thirty years timely up to the minute coverage for the computerized exam contains all current aicpa content requirements in auditing and attestation unique modular format helps candidates zero in on areas that need work organize their study program and concentrate their efforts comprehensive questions over 2 800 multiple choice questions and their solutions in the four volumes guidelines pointers and tips show how to build knowledge in a logical and reinforcing way other titles by whittington audit sampling an introduction fifth edition wiley cpa exam review 2014 arms test takers with detailed outlines study guidelines and skill building problems to help candidates identify focus on and master the specific topics that need the most work

Developments in Agricultural and Industrial Ergonomics (General Studies, Vol. 1)

2009-10-14

the rise of ruby on rails has signified a huge shift in how we build web applications today it is a fantastic framework with a growing community there is however space for another such framework that integrates seamlessly with java thousands of companies have invested in java and these same companies are losing out on the benefits of a rails like framework enter grails grails is not just a rails clone it aims to provide a rails like environment that is more familiar to java developers and employs idioms that java developers are comfortable using making the adjustment in mentality to a dynamic framework less of a jump the concepts within grails like interceptors tag libs and groovy server pages gsp make those in the java community feel right at home grails foundation is on solid open source technologies such as spring hibernate and sitemesh which gives it even more potential in the java space spring provides powerful inversion of control and mvc hibernate brings a stable mature object relational mapping technology with the ability to integrate with legacy systems and sitemesh handles flexible layout control and page decoration grails complements these with additional features that take advantage of the coding by convention paradigm such as dynamic tag libraries grails object relational mapping groovy server pages and scaffolding graeme rocher grails lead and founder and jeff brown bring you completely up to date with their authoritative and fully comprehensive guide to the grails framework you ll get to know all the core features services and grails extensions via plug ins and understand the roles that groovy and grails are playing in the changing

Galaxy S 4 Survival Guide: Step-by-Step User Guide for Galaxy S 4: Getting Started, Using eMail, Taking Photos and Videos, and Learning Hidden Tips and Tricks

1979

this single volume reference is designed for readers and researchers investigating national and international aspects of mathematics education at the elementary secondary and post secondary levels it contains more than 400 entries arranged alphabetically by headings of greatest pertinence to mathematics education the scope is comprehensive encompassing all major areas of mathematics education including assessment content and instructional procedures curriculum enrichment international comparisons and psychology of learning and instruction

User's Manual, FHWA Highway Traffic Noise Prediction Model, SNAP 1.0

2013-07-01

this book constitutes the proceedings of the 14th international conference on information systems engineering wise 2013 held in nanjing china in october 2013 the 48 full papers 29 short papers and 10 demo and 5 challenge papers presented in the two volume proceedings lncs 8180 and 8181 were carefully reviewed and selected from 198 submissions they are organized in topical sections named mining recommendation services data engineering and database semi structured data and modeling data integration and hidden challenge social information extraction and multilingual management networks graphs and based business processes event processing monitoring and management and innovative techniques and creations

Universal Access in Human-Computer Interaction: Applications and Services for Quality of Life

2013-11-08

the primary goal of autocad 2015 tutorial second level 3d modeling is to introduce the aspects of computer based three dimensional modeling this text is intended to be used as a training guide for both students and professionals the chapters in this book cover autocad 2015 and proceed in a pedagogical fashion to guide you from constructing 3d wire frame models 3d surface models and 3d solid models to making multiview drawings and rendering images the text takes a hands on exercise intensive approach to all the important 3d modeling techniques and concepts this book contains a series of twelve tutorial style chapters designed to introduce cad users to 3d modeling with autocad 2015 users upgrading from a previous release of the autocad software will also find this text helpful the basic premise of this book is that the more 3d designs you create using autocad 2015 the better you learn the software with this in mind each tutorial introduces a new set of commands and concepts building on previous chapters by going through this book readers will establish a good basis for exploring and growing in the exciting field of computer aided engineering

Wiley CPAexcel Exam Review 2014 Study Guide

2009-02-19

this book constitutes the refereed proceedings of the 4th international conference on social robotics icsr 2012 held in chengdu china in october 2012 the 66 revised full papers were carefully reviewed and selected from numerous submissions the papers are organized in topical sections on affective and cognitive sciences for socially interactive robots situated interaction and embodiment robots to assist the elderly and persons with disabilities social acceptance of robots and their impact to the society artificial empathy hri through non verbal communication and control social telepresence robots embodiments and networks interaction and collaboration among robots humans and environment human augmentation rehabilitation and medical robots i and ii

The Definitive Guide to Grails

1924

the is a globalinformationspace consistingoflinked documents andlinked data as the continues to grow and new technologies modes of interaction and applications are being developed the task of the semantic is to unlock the power of information available on the into a common semantic inf mation space and to make it available for sharing and processing by automated tools as well as by people right now the publication of large datasets on the the opening of data access interfaces and the encoding of the semantics of the data extend the current human centric now the semantic c munity is tackling the challenges of how to create and manage semantic content how to make semantic applications robust and scalable and how to organize and integrate information from di erent sources for novel uses to foster the exchange of ideas and collaboration the international semantic conference brings together researchers and practitioners in relevant disciplines such as arti cial intelligence databases social networks distributed computing engineering information systems natural language processing soft c puting and human computer interaction this volume contains the main proceedings of iswc 2008 which we are cited to o er to the growing community of researchers and practitioners of the semantic we got a tremendous response to our call for research papers from a truly international community of researchers and practitioners from 41 countries submitting 261 papers each paper receivedan averageof 3

Lloyd's Calendar

2001-03-15

information design provides citizens business and government with a means of presenting and interacting with complex information it embraces applications from wayfinding and map reading to forms design from website and screen layout to instruction done well it can communicate across languages and cultures convey complicated instructions even change behaviours information design offers an authoritative guide to this important multidisciplinary subject the book weaves design theory and methods with case studies of professional practice from leading information designers across the world the heavily illustrated text is rigorous yet readable and offers a single must have reference to anyone interested in information design or any of its related disciplines such as interaction design and information architecture information graphics document design universal design service design map making and wayfinding

Encyclopedia of Mathematics Education

2013-10-07

this book constitutes the refereed proceedings of the 27th ifip wg 11 3 international conference on data and applications security and privacy dbsec 2013 held in newark nj usa in july 2013 the 16 revised full and 6 short papers presented were carefully reviewed and selected from 45 submissions the papers are organized in topical sections on privacy access control cloud computing data outsourcing and mobile computing

Web Information Systems Engineering -- WISE 2013

2014-07-07

this book constitutes the refereed proceedings of the 9th ifip wg 12 5 international conference on artificial intelligence applications and innovations aiai 2013 held in paphos cyprus in september october 2013 the 26 revised full papers presented together with a keynote speech at the main event and 44 papers of 8 collocated workshops were carefully reviewed and selected for inclusion in the volume the papers of the main event are organized in topical sections on data mining medical informatics and biomedical engineering problem solving and scheduling modeling and decision support systems robotics and intelligent signal and image processing

Social Robotics

2008-10-21

object oriented analysis and design for information systems clearly explains real object oriented programming in practice expert author raul sidnei wazlawick explains concepts such as object responsibility visibility and the real need for delegation in detail the object oriented code generated by using these concepts in a systematic way is concise organized and reusable the patterns and solutions presented in this book are based in research and industrial applications you will come away with clarity regarding processes and use cases and a clear understand of how to expand a use case wazlawick clearly explains clearly how to build meaningful sequence diagrams object oriented analysis and design for information systems illustrates how and why building a class model is not just placing classes into a diagram you will learn the necessary organizational patterns so that your software architecture will be maintainable learn how to build better class models which are more maintainable and understandable write use cases in a more efficient and standardized way using more effective and less complex diagrams build true object oriented code with division of responsibility and delegation
