Le Jacquard

1880

this book focuses on a simple dynamic the taking in hand of a heritage the variety of changes induced within it and the handing on of that legacy to new generations our contributors suggest from different standpoints that this dynamic represented the essence of late antiquity as roman society and the societies by which it was immediately bounded continued to develop through to the late sixth and early seventh centuries the interplay between what needed to be treasured and what needed to be explored became increasingly self conscious versatile and enriched by the time formerly alien peoples had established their post classical polities and islam began to stir in the east the novelties were more clearly seen if not always welcomed and one witnesses a stronger will to maintain the momentum of change of a forward reach at the same time those in a position to play now the role of heirs were well able to appreciate how suited to their needs the roman past might be but how by taking it up in their turn they were more securely defined and yet more creatively advantaged transformation is a notion apposite to essays in honour of peter brown the transformation of the classical heritage is a theme to which he has devoted and continues to devote much energy all the essays here in some way explore this notion of transformation the late antique ability to turn the past to new uses and to set its wealth of principle and insight to work in new settings to begin there is the very notion of what it meant to be roman and how that notion changed subsequent chapters suggest ways in which fundamental characteristics of roman society were given new form not least under the impact of a christian polity augustine naturally finds his place and here the emphasis is on the unfettered stance that he took in the face of more broadly held convictions on miracles for example and the errors of the pagan past the discussion then moves on to

Le Guide Musical

1869

this lively and diverse bilingual collection of essays by writers and critics examines contemporary canadian literary arts the perspectives range from highly personal and introspective to scholarly and objective yet each adds significantly to an understanding of the dialogue between writers and readers proceedings from a workshop held at the calgary institute for the humanities during the summer of 1982 the volume includes such contributors as e d blodgett jacques brault richard giguère d g jones myrna kostash peter stevens aritha van herk and christopher wiseman the collection will naturally be of interest to any student of canadian literature but the essays also forcefully address both explicitly and implicitly the question of a nationalism of the arts an issue of great importance to performers and critics in many fields

Pour les lauriers d'or

2016-12-05

unique in both scope and perspective calling for change investigates the status of women within the canadian legal profession ten years after the first national report on the subject was published by the canadian bar association elizabeth sheehy and sheila mcintyre bring together essays that investigate a wide range of topics from the status of women in law schools the practising bar and on the bench to women s grassroots engagement with law and with female lawyers from the frontlines contributors not only reflect critically on the gains losses and barriers to change of the past decade but also provide blueprints for political action academics community activists practitioners law students women litigants and law society benchers and staff explore how egalitarian change is occurring and or being impeded in their particular contexts each of these unique voices offers lessons from their individual collective and institutional efforts to confront and counter the interrelated forms of systemic inequality that compromise women s access to education and employment equity within legal institutions and ultimately to equal justice in canada

Transformations of Late Antiquity

2013-11-21

marian smith recaptures a rich period in french musical theater when ballet and opera were intimately connected focusing on the age of giselle at the paris opéra from the 1830s through the 1840s smith offers an unprecedented look at the structural and thematic relationship between the two genres she argues that a deeper understanding of both ballet and opera and of nineteenth century theater going culture in general may be gained by examining them within the same framework instead of following the usual practice of telling their histories separately this handsomely illustrated book ultimately provides a new portrait of the opéra during a period long celebrated for its box office successes in both genres smith begins by showing how gestures were encoded in the musical language that composers used in ballet and in opera she moves on to a wide range of topics including the relationship between the gestures of the singers and the movements of the dancers and the distinction between dance that represents dancing entertainment staged within the story of the opera and dance that represents action smith maintains that ballet pantomime and opera continued to rely on each other well into the nineteenth century even as they thrived independently the divorce between the two arts occurred little by little and may be traced through unlikely sources controversies in the press about the changing nature of ballet pantomime music shifting ideas about originality complaints about the ridiculousness of pantomime and a little known rehearsal score for giselle

German Legislation for the Occupied Territories of Belgium

2006-01-01

le boom des ressources naturelles en afrique a tiré la croissance dans toute la région sans contribuer de manière substantielle à améliorer le bien être et les moyens de subsistance des citoyens les personnes vivant dans les pays africains richement dotés en ressources naturelles sont moins alphabétisées de 3 ont une espérance de vie plus faible de 4 5 ans et affichent des taux de malnutrition plus élevés chez les femmes et les enfants que dans les pays de la région n ayant pas de ressources naturelles cette lenteur dans la réduction de la pauvreté est souvent attribuée à la croissance économique tirée par les ressources naturelles la dénommée malédiction des ressources naturelles au delà de l impact global les communautés vivant à proximité des centres miniers souffrent elles également d une malédiction des ressources naturelles l exploitation minière en afrique les communautés locales en tirent elles parti examine comment l exploitation aurifère à grande échelle dans trois pays le ghana le mali et la tanzanie affecte les moyens de subsistance et les communautés locales l analyse et les résultats des auteurs concluent qu en moyenne les communautés minières bénéficient d avantages sociaux positifs bien que limités l étude définit trois grands canaux marché fiscal et environnemental pouvant affecter les localités les auteurs appliquent ce cadre d analyse à l exploitation aurifère à grande échelle dans les trois pays de l étude et ils utilisent des méthodes économétriques solides pour évaluer ces effets au niveau local si le défi de l extraction des ressources naturelles est traité dans toutes ses dimensions des pistes pour une prospérité partagée et une meilleure égalité peuvent être ouvertes créant ainsi une vie meilleure pour les familles et améliorant les perspectives des pays dans lesquels elles vivent ce livre a pour objectif d éclairer les politiques publiques et le comportement des entreprises concernant le bien être des communautés situées à proximité des sites d extraction et les opportunités que l activité minière peut leur offrir

romanticism was always culturally diverse though english language anthologies have previously tended to see romanticism as predominantly british the term itself actually originated in germany where it became the banner of a europe wide movement involving the profound intellectual and aesthetic changes which we now associate with modernity this anthology is the first to place british romanticism within a comprehensive and multi lingual european context showing how ideas and writers interconnected across national and linguistic boundaries by reprinting everything in the original languages together with an english translation of all non english material in parallel on the opposite page it offers a new intellectual map of romanticism material is thematically arranged as follows art aesthetics the self history language hermeneutics theology nature the exotic science while focusing on european texts the inclusion of essays on their north american and japanese reception means that romanticism can be seen as a global phenomenon influencing a surprising number of the ways in which the modern world sees itself
