The Continuing Development of Local Tech-Prep Initiatives 1996 help teens in the academic middle succeed by creating and valuing other ways to win research suggests that more than half of high school graduates are not academically prepared for college yet they do not have significant learning disabilities preventing them from succeeding in a traditional classroom setting this timeless bestseller now in its third edition has been updated with new data recommendations and observations to explore the choices available to these students beyond traditional four year colleges illustrating options that are more accessible and carry a much higher probability of student success this resource dispels the one way to win myth presents other ways to win that do not require a four year college degree provides benefits for students with alternate forms of post high school education all teens deserve to succeed regardless of the post secondary educational path they take other ways to win can help make it happen

Building School-to-work Systems on a Tech-Prep Foundation 1996 raising a child is challenging for many parents especially for a new immigrant family for those parents they not only have to face the challenges of integrating themselves into a new environment but they also need to handle the conflicts coming from two cultural backgrounds like many chinese americans the authors inherited the traditional chinese culture yet they also opened their minds and embraced their new culture through the collisions of these two cultures they developed a unique parenting strategy a combination of the best of both worlds to educate their children this approach offered them a cutting edge in developing their children to be among the most competitive as they raised their children they held parties to build their children s social groups used teamwork to create a harmonious family strengthening the family bonds helped their children excel in academic competitions taught their children how to be rigorous and strive for perfection inspired their children to explore innovative strategies to overcome obstacles developed their children s creativity leadership and initiative encouraged their children to be involved in the community and gave their children freedom to develop their individual personalities and discover their full potentials the authors believe that their story will be beneficial to other parents and also provide a new perspective of chinese american families for mainstream americans

The Diverse Forms of Tech-prep 1995 the literature on rural america to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns as a result the real rural america remains much misunderstood neglected or ignored by scholars and policymakers alike in response emery castle offers the changing american countryside a volume that will forever change how we look at this important subject castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands these authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity the authors are especially effective in demonstrating why rural america is so much more than just agriculture it is in fact highly diverse complex and interdependent with urban america and the international market place most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections to do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life
