byron was a man of many passions always fiercely held and defended but his intense devotion to the poetry of alexander pope seemed to characterise a man standing a little to the left of the romantic universe while pope largely left a taste of dust in the mouths of the romantics byron continued to defend the little queen anne s man in letters and in print as if he were arguing for the reputation of a lover so much so that we are left to wonder what kind of impression did the greatest poet of the eighteenth century leave upon the work of the seminal poet of the nineteenth how far and in what way did byron s adoration of pope imprint itself upon his own poetry in conscious and unconscious echoes in parallels of thought and expression in the unexpected unlooked for congruence this book identifies and lays out the most significant strands of that influence following them wherever they lead through exploring both poets satirical portraits of men and women their expression of love and forbidden passion their various poetic techniques the influence of the roman poet horace and the dual resonance of eden and paradise in their work a picture emerges of pope touching the deepest recesses of byron s poetic thought amongst the particular themes discussed here are the presence of women in the lives and poetry of both men the disentangling of the sense of alienation and exile exhibited in their authorial psyches the significance of the doppelgänger for their satire and a weighing of the deep contrapuntal nature of byron s thought contrasting it with pope s byron and the best of poets is the first major study of its kind to explore these multiple aspects and to unpack them in the work of both poets

Foreign Relations of the United States, 1951: European security and the German question 1892

an accurate and comprehensive study of the political aspects of fielding s art has been sorely needed as a result of decades of work by literary scholars and a series of great historians such a study is finally possible this volume addresses that need and in the light of a recent revival of interest in fielding s work it arrives most opportunely the author offers here a wide ranging focus and a firm grip on the shifting complexities of fielding s political situations the loyalties and enmities factional alignments and fractious rhetoric that allow a satisfactory understanding of fielding s political writing political writing in fielding s day as in ours was topical concerned with evanescent problems and day to day needs that were familiar to contemporaries but that are now recaptured only with greatest difficulty this study constitutes a thorough reconstruction of fielding s political context and extricates from the context fielding s own political endeavours cleary s work will make many of felding s previously unstudied work accessible to students and scholars of eighteenth century english literature a necessary point of reference to both literary specialists and historians concerned with eighteenth century england
