the genesis of the history of british colonization in india is often traced to traders merchants and the formation of the british east india company while this is indisputable what is ignored is the creation and perpetual fueling of the steady stream of british officers into the indian economy that happened due to the continuing efforts of british people and society how did this ensue in the contemporary world when we talk of the transnational terror networks we are filled with awe when we find children being engineered to the vocation of violence however this was true even of the earlier times when writers albeit politely hid the colonial ideology within their literature the children perhaps were tantalized by the beauties abroad by the tigers the rhinos the native rajas the use of animal imagery was conspicuous in such literature this kind of narrative discourse was targeted not only at baby patriots but also at young adults appealing them with adventurous stories of colonization in india through stories museums objects the british children were continuously bombarded with knowledge of the colonies and its alluring bounties these could be obtained only if the children would study them religiously internalize the process of travel and looting and actually reach the destination to perpetuate the imperial agenda this book encapsulates the agenda of consciously training british children through underscoring resources and fauna in india pursued by the
