modernist time ecology is a deeply interdisciplinary book that changes what we think literature and the arts can do for the world at large

## **United States Army in World War II. 1959**

andrew gordon goes to the core of the japanese enterprise system the workplace and reveals a complex history of contest and confrontation the japanese model produced a dynamic economy which owed as much to coercion as to happy consensus managerial hegemony was achieved only after a bitter struggle that undermined the democratic potential of postwar society the book draws on examples across japanese industry but focuses in depth on iron and steel this industry was at the center of the country s economic recovery and high speed growth a primary site of corporate managerial strategy and important labor union initiatives beginning with the occupation reforms and their influence on the workplace gordon traces worker activism and protest in the 1950s and 60s and how they gave way to management victory in the 1960s and 70s he shows how working people had to compromise institutions of self determination in pursuit of economic affluence he illuminates the japanese system with frequent references to other capitalist nations whose workplaces assumed very different shape and looks to japan s future rebutting hasty predictions that japanese industrial relations are about to be dramatically transformed in the american free market image gordon argues that it is more likely that japan will only modestly adjust the status quo that emerged through the turbulent postwar decades he chronicles here

## **The Wages of Affluence 2001-11-15**

this book explores the political dilemmas around security forces in war torn countries well governed military and police forces are central to sustained peace after civil war and efforts to restructure security forces are major components of peacebuilding and stabilization efforts as international actors have attempted to strengthen oversight and curb abuse however they have run into thorny political obstacles varied outcomes have raised questions about the value of international

this book shows how a series of contradictions worked their way into the international bill of human rights

## **Party System Institutionalization in Asia 2015**

waiting for elijah is an intimate portrait of time reckoning syncretism and proximity in one of the world s most polarized landscapes the bosnian field of gacko centered on the shared harvest feast of elijah s day the once eagerly awaited pinnacle of the annual cycle the book shows how the fractured postwar landscape beckoned the return of communal life that entails such waiting this seemingly paradoxical situation waiting to wait becomes a starting point for a broader discussion on the complexity of time set between cosmology nationalism and embodied memories of proximity

## **Migration at the End of Empire 2024-06-06**

the great nation of futurity is situated within the discourse and ideology of american exceptionalism which has undergirded the nation s identity throughout its history it draws out the temporal dimension of the exceptionalist ideology namely the construal of america as the great nation of futurity and examines how this identity manifests linguistically and functions rhetorically in cold war foreign policy discourse working within a critical discourse analytic framework patricia l dunmire examines the space times construed within foreign policy discourse and demonstrates that these consistently position the united states in a privileged position vis à vis the future this positioning in turn sanction a foreign policy approach focused on global future design
