A Manual of the Nílagiri District in the Madras Presidency 1880 examining the history and intellectual activity of the medieval svetambara jain renunciant order the tapa gaccha this book focuses on the consolidation by the tapa gaccha from the thirteenth century of its identity as the leading svetambara order the author argues that this was variously effected by negotiating the primacy of lineage the posthumous divinity of one of its leaders the validity of styles of scriptural exegesis and customary practice and the status of non jains through the medium of chronicles and poetry and polemical engagement with other jain orders and dissident elements within its own ranks drawing on largely unstudied primary sources the author demonstrates how tapa gaccha writers created a sophisticated intellectual culture which was a vehicle for the maintenance of sectarian identity in the early modern period the book explores issues which have been central to our understanding of many of the questions currently being asked about the development not just of jainism but of south asian religions in general such as the manner in which authority is established in relation to texts the relationship between scripture commentary and tradition and tensions both between and within sects

Library Manual: a Practical Approach to Management 1996 although in hinduism it is mainly used to refer to widow immolation the term sati means true woman a female hero whitney kelting has learned that in jainism satis appear as subjects of devotional hymns this seems paradoxical given that jain spirituality is to disengage oneself from worldly existence and jain devotionism is usually directed toward those souls who have reached perfect detachment in fact however there is a vast corpus of popular texts

many of them written by prominent scholar monks between the 16th and 18th centuries illustrating the distinctly worldly virtues of devoted jain wives in this fieldwork based study kelting explores the ways in which jain women use sati narratives and rituals to understand wifedom as a choice which these women s ongoing ritual practices continually shape she focuses on eight well known jain sati narratives recorded in both formal ritual contexts and in informal retellings and also as read aloud from printed versions she finds that one of the principal functions of jain sati narratives is to contribute to a discourse of wifedom which addresses the concerns of jain laywomen within the jain value system and provides a fertile context in which jain women can explore their questions of virtue and piety
