The Composition of Paper and Paperboards Manufactured in 1939 1943 this pioneering 1997 study examines the economic development of the british paper industry between 1860 and 1914 an era in which it is often claimed that the origins of britain s relative economic decline are first witnessed for paper making this was also a period in which an array of important new forces including inter alia the development of new raw materials and the move to ever larger scales of production came on the scene gary bryan magee looks at the effect of these changes and assesses how effectively the industry coped with the new pressures drawing upon an extensive range of quantitative and archival sources from britain america and other countries along the way dr magee addresses issues central to the understanding of industrial competitiveness such as technological change entrepreneurship productivity trade policy and industrial relations

Productivity and Performance in the Paper Industry 1997-03-27 this book covers both basic and applied sciences in a rather specified area of pulp and paper manufacture the basic science of lignocellulose enzymology and plant genetics
