on 5 and 6 may 1864 the union and confederate armies met near an unfinished railroad in central virginia with lee outmanned and outgunned hoping to force grant to fight in the woods the name of the battle wilderness suggests the horror of combat at close quarters and an inability to see the whole field of engagement even from a distance indeed the battle is remembered for its brutality and ultimate futility for lee even with 26 000 casualties on both sides the wilderness only briefly stemmed grant s advance stephen cushman lives fifty miles south of this battlefield a poet and professor of american literature he wrote bloody promenade to confront the fractured legacy of a battle that haunts him through its very proximity to his everyday life cushman s personal narrative is not another history of the battle if this book is a history of anything he writes it s the history of verbal and visual images of a single particularly awful moment in the american civil war reflecting on that moment can begin in the present with the latest film or reenactment but it leads cushman back to materials from the past writing in an informal first person style he traces his own fascination with the conflict to a single book a pictorial history he read as a boy his abiding interest and poetic sensibility yield a fresh perspective on the war s continuing grip on americans how it pervades our lives through films and songs novels such as the red badge of courage the killer angels and cold mountain whitman s poetry and winslow homer s painting or the pull of the abstract idea of the triumph of freedom with maps and a brief discussion of the battle of the wilderness for those not familiar with the landscape and actors bloody promenade provides a personal tour of one of the most savage engagements of the civil war then offers a lively discussion of its aftermath

flora tristan is best known as a nineteenth century french social critic and reformer her writings can be seen as a precursor to marxism and feminism flora tristan life stories by susan grogan investigates the life of flora tristan through an exploration of the way she represented herself in her own writings the author also examines the portrayal of flora tristan in paintings and literature rather than adopting a chronological approach the author surveys the personae of flora tristan through thematic chapters on her roles as author socialist traveller and mother of the workers she places flora tristan in the context of contemporary debates and ideas adding to our understanding of the times in which flora tristan lived flora tristan life stories argues that flora tristan s self representations were attempts to claim a role of authority and significance not open to women in the nineteenth century this authoritative study also engages with attempts to re evaluate the writing of biography and to explore the meaning of an individual life in historical context
