organized thematically around important questions in comparative politics introducing comparative politics fourth edition by stephen orvis and carol ann drogus integrates a set of extended case studies of 11 core countries into the narrative serving as touchstones the cases are set in chapters where they make the most sense topically not separated from theory or in a separate volume and vividly illustrate issues in cross national context the book s organization allows instructors flexibility and gives students a more accurate sense of comparative study in this edition a brand new chapter on contentious politics covers ethnic fragmentation social movements civil war revolutions and political violence new case studies on this topic include the occupy and tea party movements in the us zapatista rebellion in mexico boko haram in nigeria and and revolutions in china and iran the chapter on states and identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity based demands case studies include nationalism in germany ethnicity in nigeria religion in india race in the us gender in iran and sexual orientation in brazil content on states and markets political economy globalization and development has all been consolidated into a new part iii of the book focusing in a sustained way on economic issues comparing political regimes provides a current and comprehensive empirical assessment of the world s 195 sovereign states alan siaroff analyses and classifies countries in terms of economic development political evolution and state strength ultimately outlining and contrasting the aspects of four regime types liberal democracies electoral democracies semi open autocracies and closed autocracies the fourth edition explains institutional differences within democracies and autocracies respectively including how regimes evolve in key countries and how this change is incremental an invaluable reference for students to refer to this book provides a thorough foundational introduction to the comparative politics of countries and contains several unique figures and tables on the world s sovereign states this new edition modifies the conceptual focus regarding some features of democracy and democratic party systems expands on variations in autocracies and adds a new chapter on the historical evolution of democracy including key thresholds of representative democracy and levels of participation and competition at various historical junctures for all countries combining theory comparative politics and international relations introduction to politics fourth edition provides the most comprehensive introduction to the subject for first year undergraduate students with the most global perspective written by three experts in the field this book takes a balanced approach to the subject serving as a strong foundation for further study assuming no prior knowledge the authors use an accessible yet analytical approach which encourages critical analysis and debate helping students to develop the vital skills they need for future studies and employment the new edition has been fully updated with additional case studies and examples to help students to understand how key theories and principles apply in the context of real world events new to the fourth edition is a chapter on non western approaches which helps students to bring more diverse perspectives to their study of politics furthermore additional coverage of populism has been included to reflect current events and developments in discourse this ensures that introduction to politics fourth edition is the most contemporary relevant and essential guide for students new to the study of politics the first edition of this book was published in 2006 before the financial crash of 2008 obama s election in the usa trump s unexpected win in 2016 brexit the war in syria and the rapid rise of refugees and migrants all over the world in 2006 many western countries were beginning to register a decline in voting party identification and political trust but it was too soon to say whether these were temporary fluctuations or the onset of longer term trends some of the large parties of the centre ground were losing support and minor parties were appearing on the scene but few managed to overtake the weakened major ones separatist movements were active all over the world often many different ones in the same country but most were small even tiny and success was rare the troubles in northern ireland had been calmed by the good friday agreement of 1998 and kosovo gained its independence two years later nationalist movements were active in catalonia and scotland but nowhere near their future strength green parties had gained a secure

foothold in some parliaments but remained minor in most fifteen years after the berlin wall fell the new states and democracies of east europe were still finding their way and it was difficult to know where they would end up populist movements and parties were strong in a few places but even specialist scholars did not recognise what was about to happen to them the gilet jaunes french protesters had not taken to the streets in france nor had extinction rebellion made itself known across the world there were many books and scholarly articles about grass roots electronic direct and deliberative democracy few about post democracy populism or democratic decline twitter was launched in march 2006 but new forms of communication typically produce false prophecies and some said there would be no demand for microblogging limited to 140 characters facebook was only two years old with barely more than a paltry five million users this book combines theoretical and comparative introductions to each of the three major political worlds western democracies modern autocracies and less developed systems with descriptions of structures processes events and trends in a diverse array of nations industrial democracies ideals and reality government and politics in great britain government and politics in france the end of french exceptionalism germany emerging superpower with a troubled past transition to democracy russia and the former soviet union the nature of political development in the people s republic of china the less modernized nations and political development nigeria tribalism and cultural diversity modernization and democratization in latin america mexico trends and prospects in a changing world for anyone interested in comparative politics or european politics adapted from the groundbreaking bestseller principles of comparative politics fifth edition foundations of comparative politics second edition presents a scientific approach to the rich world of comparative inquiry research and scholarship providing students a guide to cross national comparison and why it matters to them this condensed more accessible format introduces students to the key questions in comparative politics using brief insights from tools such as decision social choice and game theory to help them understand clearly why some explanations for political phenomena are stronger than others william roberts clark matt golder and sona nadenichek golder concentrate on describing the core features of regimes and institutions and on analyzing how these fundamental attributes drive variation in the economic and political outcomes we care about most this approach more closely replicates what comparative scholars do constructing and testing theories on political phenomena over basic memorization of country specific facts to explain rather than describe illustrated with current examples that show the application of theory students gain invaluable real world skills in critical thinking and empirical analysis that they will carry with them long after the course is over this exploration of comparative world politics focuses on a wide range of nations western and eastern developed and developing the first half of the book looks at various political institutions as they exist in various countries allowing readers to see the commonality of the institutions under examination e g constitutions legislatures executives judiciaries political parties interest groups etc the second half of the book features separate chapters on individual countries with a look at all of the various institutions within one country showing how the various ingredients fit together in a single unit constitutions and ideologies political development and political economics legislatures and legislative structures the executive judiciaries and the legal order interest groups political parties the individual and the political environment the british political system the french political system the german political system the japanese political system the canadian political system the mexican political system the nigerian political system the russian political system for anyone interested in comparative politics or world politics in this book zirakzadeh examines different types of social movements from the greens in germany to the shining path in peru the book concludes with a juxtaposition of the three major theoretical approaches and historical findings and proposes a fourth theoretical approach emphasizing factional conflict and reconciliation an engaging and accessible introduction to the subject comparative politics integrating theories methods and cases gives students the methodological tools they need to answer the big questions in the field the authors introduce methods early in the text and integrate them throughout in thinking comparatively features to help students develop a systematic way of thinking about comparative politics offering a hybrid format the text s unique structure offers the best of thematic and country by country approaches sixteen succinct thematic chapters organized around the big questions in the field are followed by a separate section at the end of the book offering full length profiles and case studies for twelve countries examples of some of the big picture questions discussed in the thematic chapters are why do countries have different institutions and forms of government why do some social revolutions

succeed and endure while others fail why are some societies subjected to terrorism and not others each chapter integrates several standalone country case studies in case in context features these features tie into the narrative pose questions and point students to the full case discussions in the country profiles section of the book introduction to the study of politics for the general reader this textbook provides a comprehensive introduction to the study of politics covering areas as diverse as comparative government and political philosophy international relations and political economy from an international perspective the fourth edition has been systematically revised and updated to cover key developments revised edition of comparative politics of the third world 3rd ed 2011 exam board aqa level a level subject politics first teaching september 2017 first exams summer 2019 written by experienced teacher simon lemieux this student guide for politics identifies the key content building on the strengths of the third edition this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science divided into three parts the book begins by examining different methods applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world and then discusses the new challenges in the area this thoroughly revised and updated edition features additional contemporary case studies including the democratisation of technology and the arab spring detailed discussion of regression analysis and diffusion more analysis of justice inequality and compliance reflection on new methods and treatments of contemporary comparative politics balancing reader friendly features with high quality analysis makes this popular academic text is essential reading for everyone interested in comparative politics and research methods

so often political science is introduced to students as a segmented field the challenge of politics instead enables students to see how the subfields converge around a set of crucial questions can we as citizens and students articulate and defend a view of the good political life and its guiding political values can we develop a science of politics to help us understand significant political phenomena the empirical realities of politics can we bring a high level of political prudence or wisdom to bear on judgments about politics and public issues can citizens and students creatively address the future of politics riemer simon and romance aim to harmonize the valuable lessons of classic and contemporary theory as well as to reconcile politics to scientific and empirical study the book gives students an avenue to explore the impact of philosophy and ideology to recognize major forms of government to evaluate empirical findings and to understand how policy issues directly affect people s lives throughout the authors look at political dynamics of american comparative and international affairs while continuing to pursue its distinctive normative approach and showing politics to be a potentially humanizing enterprise this new edition of challenge has been revised and updated for major world events like the global financial crisis recent elections in the u s and elsewhere important policy decisions like the recent supreme court ruling in the u s on healthcare and the aftermath of the arab spring based on reviewer feedback it has also been substantially streamlined throughout

examines nigeria s challenges with consolidating democracy and the crisis of governance arising from structural errors of the state and the fundamental contradictions of the society in nigeria s fourth

republic reflect a wider crisis of democracy globally today we are taking a decisive step on the path of democracy the newly sworn in president olusegun obasanjo told nigerians on 27 may 1999 we will leave no stone unturned to ensure sustenance of democracy because it is good for us it is good for africa and it is good for the world nigeria s fourth republic has survived longer than any of the previous three republics the most durable republic in nigeria s more than six decades of independence at the same time however the country has witnessed sustained periods of violence including violent clashes over the imposition of sharia h laws insurgency in the niger delta inter ethnic clashes and the boko haram insurgency despite these tensions of and anxieties about democratic viability and stability in nigeria has democratic rule come to stay in africa s most populous country are the overall conditions of nigerian politics economy and socio cultural dynamics now permanently amenable to uninterrupted democratic rule have all the social forces which in the past pressed nigeria towards military intervention and autocratic rule resolved themselves in favour of unbroken representative government if so what are the factors and forces that produced this compromise and how can nigeria s shallow democracy be sustained deepened and strengthened this book attempts to address these questions by exploring the various dimensions of nigeria s fourth republic in a bid to understand the tensions and stresses of democratic rule in a deeply divided major african state the contributors engage in comparative analysis of the political economic social challenges that nigeria has faced in the more than two decades of the fourth republic and the ways in which these were resolved or left unresolved in a bid to ensure the survival of democratic rule this key book that examines both the quality of nigeria s democratic state and its international relations and issues such as human rights and the peace infrastructure will be invaluable in increasing our understanding of contemporary democratic experiences in the neo liberal era in africa aimed at politics students in their final year of secondary education or beginning their degrees this highly readable book is the ideal introduction to politics doing politics is a detailed guide to both the study and the activity of politics which explores why we study politics what is involved in a politics degree and the skills and mindset that are needed to tackle the subject key questions are answered including just what is politics and how does it affect us why does politics and why do politicians get a bad press how do we study non traditional forms of politics assuming no prior knowledge this lively and engaging guide is the perfect introduction to the academic study of politics

comparative politics provides a comprehensive introduction to political systems around the world it covers methods and theories the nation state institutions actors and processes policies and recent changes

Introducing Comparative Politics

2017-01-19

organized thematically around important questions in comparative politics introducing comparative politics fourth edition by stephen orvis and carol ann drogus integrates a set of extended case studies of 11 core countries into the narrative serving as touchstones the cases are set in chapters where they make the most sense topically not separated from theory or in a separate volume and vividly illustrate issues in cross national context the book s organization allows instructors flexibility and gives students a more accurate sense of comparative study in this edition a brand new chapter on contentious politics covers ethnic fragmentation social movements civil war revolutions and political violence new case studies on this topic include the occupy and tea party movements in the us zapatista rebellion in mexico boko haram in nigeria and and revolutions in china and iran the chapter on states and identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity based demands case studies include nationalism in germany ethnicity in nigeria religion in india race in the us gender in iran and sexual orientation in brazil content on states and markets political economy globalization and development has all been consolidated into a new part iii of the book focusing in a sustained way on economic issues

Comparing Political Regimes

2022-12-31

comparing political regimes provides a current and comprehensive empirical assessment of the world s 195 sovereign states alan siaroff analyses and classifies countries in terms of economic development political evolution and state strength ultimately outlining and contrasting the aspects of four regime types liberal democracies electoral democracies semi open autocracies and closed autocracies the fourth edition explains institutional differences within democracies and autocracies respectively including how regimes evolve in key countries and how this change is incremental an invaluable reference for students to refer to this book provides a thorough foundational introduction to the comparative politics of countries and contains several unique figures and tables on the world s sovereign states this new edition modifies the conceptual focus regarding some features of democracy and democratic party systems expands on variations in autocracies and adds a new chapter on the historical evolution of democracy including key thresholds of representative democracy and levels of participation and competition at various historical junctures for all countries

Introduction to Politics

2020

combining theory comparative politics and international relations introduction to politics fourth edition provides the most comprehensive introduction to the subject for first year undergraduate students with the most global perspective written by three experts in the field this book takes a balanced approach to the subject serving as a strong foundation for further study assuming no prior knowledge the authors use an accessible yet analytical approach which encourages critical analysis and debate helping students to develop the vital skills they need for future studies and employment the new edition has been fully updated with additional case studies and examples to help students to understand how key theories and principles apply in the

context of real world events new to the fourth edition is a chapter on non western approaches which helps students to bring more diverse perspectives to their study of politics furthermore additional coverage of populism has been included to reflect current events and developments in discourse this ensures that introduction to politics fourth edition is the most contemporary relevant and essential guide for students new to the study of politics

Foundations of Comparative Politics

2020-12

the first edition of this book was published in 2006 before the financial crash of 2008 obama s election in the usa trump s unexpected win in 2016 brexit the war in syria and the rapid rise of refugees and migrants all over the world in 2006 many western countries were beginning to register a decline in voting party identification and political trust but it was too soon to say whether these were temporary fluctuations or the onset of longer term trends some of the large parties of the centre ground were losing support and minor parties were appearing on the scene but few managed to overtake the weakened major ones separatist movements were active all over the world often many different ones in the same country but most were small even tiny and success was rare the troubles in northern ireland had been calmed by the good friday agreement of 1998 and kosovo gained its independence two years later nationalist movements were active in catalonia and scotland but nowhere near their future strength green parties had gained a secure foothold in some parliaments but remained minor in most fifteen years after the berlin wall fell the new states and democracies of east europe were still finding their way and it was difficult to know where they would end up populist movements and parties were strong in a few places but even specialist scholars did not recognise what was about to happen to them the gilet jaunes french protesters had not taken to the streets in france nor had extinction rebellion made itself known across the world there were many books and scholarly articles about grass roots electronic direct and deliberative democracy few about post democracy populism or democratic decline twitter was launched in march 2006 but new forms of communication typically produce false prophecies and some said there would be no demand for microblogging limited to 140 characters facebook was only two years old with barely more than a paltry five million users
