the history of freemasonry its legends and traditions its chronological history by albert gallatin mackey m d 33 volume 4 of 7 so comprehensive a title as the one selected for the present work would be a vain assumption if the author s object was not really to embrace in a series of studies the whole cycle of masonic history and science anything short of this would not entitle the work to be called the history of freemasonry freemasonry as a society of long standing

has of course its history and the age of the institution has necessarily led to the mixing in this history of authentic facts and of mere traditions or legends we are thus led in the very beginning of our labors to divide our historical studies into two classes the one embraces the legendary history of freemasonry and the other its authentic annals the legendary history of freemasonry will constitute the subject of the first of the five parts into which this work is divided it embraces all that narrative of the rise and progress of the institution which beginning with the connection with it of the antediluvian patriarchs ends in ascribing its modern condition to the patronage of prince edwin and the assembly at york this narrative which in the i5th and up to the end of the i7th century claimed and received the implicit faith of the craft which in the i8th century was repeated and emendated by the leading writers of the institution and which even in the 19th century has had its advocates among the learned and its credence among the unlearned of the craft has only recently and by a new school been placed in its true position of an apocryphal story and yet though apocryphal this traditionary story of freemasonry which has been called the legend of the craft or by some the legend of the guild is not to be rejected as an idle fable on the contrary the

object of the present work has been to show that these masonic legends contain the germs of an historical mingled often with a symbolic idea and that divested of certain evanescences in the shape of anachronisms or of unauthenticated statements these masonic legends often nay almost always present in their simple form a true philosophic spirit

in few words i wish to state what are my reasons for writing this book 1 i wish if possible to arrest the spread of this great evil by giving the public at least so much information upon this subject as to induce them to examine and understand the true character and tendency of the institution 2 i wish if possible to arouse the young men who are freemasons to consider the inevitable consequences of such a horrible trifling with the most solemn oaths as is constantly practiced by freemasons such a course must and does as a matter of fact grieve the holy spirit sear the conscience and harden the heart 3 i wish to induce the young men who are not freemasons to look before they leap and not be deceived and committed as thousands have been before they were at all aware of the true nature of the institution of freemasonry 4 i with the many have been remiss in suffering a new generation to grow up in ignorance of the character of freemasonry as it was fully revealed to us who are now old we have greatly erred in not preserving and handing down to the rising generation the literature upon this

subject with which we were made familiar forty years ago for one i must not continue this remissness 5 because i know that nothing but correct information is wanting to banish this institution from wholesome society this has been abundantly proven as soon as freemasons saw that their secrets were made public they abandoned their lodges for very shame with such oaths upon their souls they could not face the frown of an indignant public already aware of their true position 6 freemasons exhort each other to maintain a dignified silence and are exhorted not to enter into controversy with opposers of freemasonry the reasons are obvious to those who are informed we know why they are silent if they are so and why they will not enter the field of controversy and attempt to justify their institution let anyone examine the question and he will see why they make no attempt to justify freemasonry as it is revealed in the books from which i have quoted i greatly desire to have the public and especially the church of christ understand what freemasonry is then let them act as duty requires 7 should i be asked why i have not spoken out upon this subject before i reply that until the question was sprung upon us in this place a year ago i was not at all aware that freemasonry had been disinterred and was alive and stalking abroad over the face of the

dr albert g mackey also the author of the lexicon of freemasonry appears as author of this encyclopedia of freemasonry and its kindred sciences which being a library in inself superseded most of the masonic works which have been tolerated by the craft chiefly because none better could be obtained here in one giant volume is a work which fulfils the hope which sustained the author through ten years literary labor that under one cover he would furnish every mason who might consult its pages the means of acquiring a knowledge of all matters connected with the science the philosophy and the history of his order for more than thirty years dr mackey has devoted earnest and constant study and research to the history the objects and the condition of masonry in the present work the crowning and successful result of a life s labors he has received no assistance from any one he says every article was written by myself and he adds which would extenuate errors
