how tall do you have to be to ride a klr650 r *klr650 reddit Apr 27 2024*

on the balls of your feet if you want both on the ground but you don t need to i ve found it easiest to mount kind of like a horse put left foot on peg and then swing your right leg over the top much easier than getting onto from the ground it s a tall bike but not terribly tall

ride height adjustment kawasaki klr forum *Mar 26 2024*

setting the sag properly is done for proper suspension action not to adjust the seat height set the preload for about 30 of the travel or about 2 1 4 front and rear definitely keep it in the 25 33 range as far as the seat height goes you ll get used to it

klr 650 too tall for newbie adventure rider *Feb 25 2024*

i m an old fart used to be 5 8 but have shrunk half an inch with a 29 inseam and i ride a 2006 dr650 set to its normal ride height not lowered it is not a problem for me but it could be for a noob

rear shock adjustment and seat height on 650 *classic Jan 24 2024*

raising the rear up with the adjuster will make a stiffer ride raise it up all the way and your back tire will come off the ground on small bumps 2005 vstar 650 fully stock bike with quick release windshield fork deflectors and trunk in place of passenger seat

ride height adjustment r klr650 reddit Oct 21 2023

how hard is it to adjust the ride height for my gen 1 currently i am about an inch or so away from getting both my heels on the ground and would feel much more confident if they were flat on the ground what tools and possible stands would one require to adjust the height thanks guys

any way to adjust ride height on first gen sv650s r sv650 Sep 20 2023

there are ways to change the ride height as suggested by others swapping rear shock linkage lengths seat mod etc however linkage changes alter your shock characteristics since the oem shock is practically garbage from the factory the best way to gain adjustability comfort and performance would be via an after market shock penske
