the abolition of antitrust asserts that antitrust laws on economic legal and moral grounds are bad and provides convincing evidence supporting arguments for their total abolition every year new antitrust prosecutions arise in the u s courts as in the cases against 3m and visa mastercard as well as a number of ongoing antitrust cases such as those involving microsoft and college football s use of the bowl championship series bcs gary hull and the contributing authors show that these cases as well as the sherman anti trust act itself are based on an erroneous interpretation of the history of american business premised on bad economics they equivocate between economic and political power the power to produce versus the power to use physical force for hull anti trust prosecutions are based on a horrible moral inversion that it is acceptable to sacrifice america s best producers the contributors explain how key antitrust ideas for instance monopoly restraint of trade and anticompetitive behavior have been used to justify prosecution and then make clear why those ideas are false they sketch the historical legal economic and moral reasoning that gave rise to the passage and growth of antitrust legislation all of the theoretical points in this volume are woven around a number of fascinating cases both historical and current including the charles river bridge alcoa general electric and kellogg general mills this is a dynamic and accessible work that is not simply a polemical argument for a particular policy position designed for the uninformed but educated layman the abolition of antitrust also makes positive arguments in defense of wealth creation business and profit explains the proper role of government and offers a rational view of the meaning of contract and economic freedom this book includes self test section at the end of each chapter test yourself then check answers in the back of the book to see how you score cd rom included the record of each copyright registration listed in the catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc this volume contains the proceedings of a workshop organized by the center of aging at the u of hong kong which aimed to canvas recent developments in long term care for the elderly in japan the united states canada australia singapore taiwan and hong kong an effort was made to select contributors who were actively engaged in making policy papers separately address policy and financing issues and the organization and delivery of long term care also published as the journal of aging social policy v 13 nos 2 3 2001 annotation copyrighted by book news inc portland or includes section reviews some issues accompanied by supplements the essays in this book present a sustained economic historical moral and legal broadside against the various federal statutes known as antitrust doctrine they explode the cherished myths underlying the antitrust laws and expose their intellectual fountainhead in a morality of self sacrifice that is incompatible with individual rights free enterprise and objective law with the publication of this text businessmen lawyers economists policy makers legislators and judges finally have access to a systemic critique of the antitrust laws from here on if antitrust continues to violate the rights of businessmen and to ravage the american economy it is not for lack of knowing how and why adam mossoff assistant professor of law michigan state university the abolition of antitrust asserts that antitrust laws on economic legal and moral grounds are bad and provides
