The Indonesian Economy 1984 indonesia is now the fourth largest country in the world but many aspects of its economic history remain poorly understood this book is the first comprehensive survey of indonesian economic history in the 19th and 20th centuries examining both the dutch colonial era and the post independence period extensive use is made of recent work by dutch indonesian and australian scholars to develop a number of key themes relating to economic growth and structural transformation of the indonesian economy from the early 19th century to the present

The Indonesian Economy in the Nineteenth and Twentieth Centuries 1998-03-04 indonesia is one of the few countries that came through the global economic crisis in 2008 09 with positive economic growth despite some recorded positive domestic economic performances indonesia faces new challenges as its economy keeps growing and the global economy remains uncertain a new economic development paradigm is needed to overcome old problems poverty and unemployment inadequate infrastructure corruption a complex regulatory environment and unequal resource distribution among regions with global market opportunities this book provides a new perspective on how indonesian s economic policies should be developed by considering its past and future challenges firmanzah professor of economics and dean of faculty of economics university of indonesia aris ananta muljana soekarni and sjamsul arifin gather excellent researchers and practitioners to discuss important economic policy issues for indonesia today they discuss monetary and fiscal policies and real economic sector issues based not only on theoretical analysis but also on their day to day experience in economic management by reviewing indonesia s economic policy reform and subsequent asian financial crisis and sub prime loan crisis the authors present a new economic development paradigm and explore economic strategy and policies for the new era the book offers many timely lessons from history as well as the real

policy experiences of the authors and guides readers in exploring economic policies under the globalized world economy this book is very useful for both practitioners and researchers masaaki komatsu professor of economics hiroshima university

The Indonesian Economy 2011 monograph of essays on economic development trends and issues since 1965 in indonesia discusses industrial development balance of payments trade foreign investment income distribution employment unemployment internal migration population growth and family planning programmes food policy industrial policy monetary policy and fiscal policy issues and options graphs maps references and statistical tables

The Indonesian Economy During the Soeharto Era 1981 few countries have experienced such sharply fluctuating fortunes as indonesia this book offers a balanced analysis evaluation and explanation of indonesia s economic performance from 1967 hal hill highlights indonesia s successes during this period rapid industrialisation major achievements in the food crop sector and the adoption from the mid 1980s of outward looking policies he also draws attention to the challenges facing the country including the rocky path towards economic reform the large external debt regional and ethnic disparities and the need for a transparent and predictable policy environment in this second edition an extended postscript takes the story through the dramatic turnaround and political and economic crises since 1997 including the downfall of soeharto

The Indonesian Economy 2000-04-04 monograph on the economy of indonesia covers income distribution and poverty effects of economic growth and inflation on income migration employment public finance role of japanese foreign investment industrialization and other economic development trends focusing on the 1970s graphs and references

The Indonesian Economy 1980 diagnosing the indonesian economy toward inclusive and green growth discusses the critical

constrains to inclusive economic growth in indonesia the volume includes a broad overview of indonesia s development since the 1960s and features an analytic framework for the study that aims to identify the most binding constraints the chapters analyze macroeconomic management since the asian financial crisis the status of indonesia s industrial transformation the challenges pertaining to indonesia s infrastructure the situation of human capital and employment the record on poverty reduction the impact and status of the decentralization effort and the challenges attendant to the country s environment and natural resources

Diagnosing the Indonesian Economy 2013-10-01 against the backdrop of growing anti globalisation sentiments and increasing fragmentation of the production process across countries this book addresses how the indonesian economy should respond and how indonesia should shape its trade and industrial policies in this new world trade environment the book introduces evaluation not on tariffs but on new trade instruments such as non tariff measures sps tbt export measures and beyond border measures and looks at industrial policies from a broader perspective such as investment accessing inputs labour services research and innovation policies the open access version of this book available at [taylorfrancis.com books 10 4324 9781315161976](http://taylorfrancis.com/books/10.4324/9781315161976) has been made available under a creative commons attribution non commercial no derivatives 4 0 license

The Indonesian Economy 2017-09-01 this book first published in 1978 analyses the underlying structure of the indonesian mass based economy and its problems and goes on to show how the hectic economic activity after 1965 failed to come to terms with the real needs of the people it divides the new indonesian economy into endogenous and exogenous parts in order to highlight the gulf between growth and development

The Indonesian Economy Since 1965 2018-10-26 by any indicator indonesia the fourth most populous nation on earth is a development success story yet 20 years after a deep economic

and political crisis it is still in some respects an economy in transition the country recovered from the 1997 98 crisis and navigated the path from authoritarian to democratic rule surprisingly quickly and smoothly it survived the 2008 09 global financial crisis and the end of the china driven commodity super boom in 2014 with little difficulty it is now embarking on its fifth round of credible national elections in the democratic era it is in the process of graduating to the upper middle income ranks but as the 25 contributors to this comprehensive and compelling volume document indonesia also faces many daunting challenges how to achieve faster economic growth along with more attention to environment sustainability how to achieve more equitable development outcomes how to develop and nurture stronger institutional foundations and much else this is a timely and much needed book there are very few recent books on indonesia with such a comprehensive analysis of not just mainstream economic policies but also most importantly the key issues of human capital inequality social welfare labour food security and natural resource management this book will not only be crucial for policy discourse but for all stakeholders who care about indonesia making the transition not only to a high income economy but an inclusive one mari pangestu faculty of economics and business university of indonesia the indonesian economy in transition policy challenges in the jokowi era and beyond is one of the most important books that discusses the indonesian economy post asian financial crisis a must read for anyone who wants to understand contemporary indonesian economy m chatib basri former minister of finance of indonesia

The Indonesian Economy in Transition 2019-03-06 this book describes and analyses indonesia s most serious economic crisis against the general backdrop of economic decline in southeast asia it also looks forward considering indonesia s immediate policy challenges to overcome the crisis and dwelling on some of the longer term policy challenges raised by the crisis

The Indonesian Economy in Crisis 1999 sustained economic growth and a declining trend in poverty over the years in indonesia potentially will come to a halt this year this development cost comes as a result of the covid 19 pandemic outbreak that recently hit the country like in many other countries one of the largest costs of covid 19 comes from the social distancing policy which is a proven public health measure to reduce the spread of the virus by limiting people s movements and interactions for a certain period of time the government of indonesia adopted this approach by gradually introducing in certain regions the large scale social restriction psbb policy from early april 2020 psbb restricts non essential economic activities and people s movement in order to contain the virus ifpri the national development planning agency of indonesia bappenas and ipb university used a sam multiplier model to measure the economic impact of psbb if restrictions were to be in place for four weeks and to explore potential recovery processes after the policy ends some of the key findings were national gdp is estimated to fall by 24 percent during the four week psbb period external sector shocks reduced export demand lower remittances and lower foreign investments contribute around one third of total gdp losses the gdp of indonesia s agri food system falls by 13 percent despite agriculture activities being excluded from restrictive measures national poverty is expected to jump by 13 percentage points an additional 36 million people will fall into poverty during the four week psbb period and by the end of 2020 due to covid 19 the annual gdp growth is expected to be between 5.3 and 7.3 percent lower than under a baseline scenario without covid 19

The cost of COVID-19 on the Indonesian economy: A Social Accounting Matrix (SAM) multiplier approach 2020-07-30 this collection of memoir style articles is based on extended interviews with a number of eminent indonesians who have played an important role in influencing the evolution of indonesia s economy thee kian wie one of southeast asia s most eminent economists

has provided a great service to the research and policy communities with an interest in indonesia in this fascinating volume we get up close to many of the most influential architects of economic policy during the soeharto era

Recollections 2003 this volume is a collection of chapters on the indonesian economy under abdurrahman wahid popularly known as gus dur contributions come from many leading indonesian commentators and practitioners of the past and present and there are also chapters from representatives of international assistance agencies the authors provide a mid term assessment of the challenges facing indonesia s economic development and suggestions for future directions the themes covered are inter alia overall political and macroeconomic stability bank and corporate restructuring decentralization corruption and socio economic trends this book will be of interest to those wishing to assess the varying perspectives held by indonesian officials and commentators officials from multilateral agencies and academics in a single volume

The Indonesian Economy and the Surrounding Regions in the 21st Century 2001 this book brings together thirteen of the most significant essays on the indonesian economy included are articles by twelve leading authorities on economic policies agriculture population and manpower industry money and finance many of these widely scattered articles are relatively inaccessible in their original form and two have not been published previously while these articles give the historical record of economic performance and policy since indonesia achieved independence in 1949 they also convey the sectoral and institutional structure of the economic system an extensive introduction and brief headnotes for each section have been provided by the editor bruce glassburner formerly professor of economics at the university of california davis received his bs and ms degrees from iowa state college and his phd degree from the university of california berkeley he was chairman department of economics

university of california davis for eight years in 1968 1970 he served as chairman field staff university of california indonesia project and was associate director university of california study center hong kong in 1969 1971 he is the author of many published articles in the area of economic development

Gus Dur and the Indonesian Economy 2007 this book contains a collection of papers on various aspects of indonesia s economic and its industrial development it discusses the early independence period in the 1950s the soeharto era 1966 1998 and the ensuing two economic crises namely the asian financial crisis of 1997 98 and the global financial crisis of 2008

The Economy of Indonesia 2012 as the 1998 annual world bank assessment soberly observed no country in recent history let alone one the size of indonesia has ever suffered such a dramatic reversal of fortune since the middle of 1997 we have witnessed momentous and tragic events in indonesia nobody foresaw the events and many ordinary indonesians have experienced a substantial decline in their living standards this book describes and analyzes indonesia s most serious economic crisis against the general backdrop of economic decline in southeast asia it also looks to the future considering indonesia s immediate policy challenges to overcome the crisis and dwelling on some of the key longer term policy challenges raised by the crisis

Indonesia's Economy Since Independence 2016-04-30 indonesia the world s fourth most populous nation and the dominant power of southeast asia was characterised in the early 1960s as a chronic economic dropout out of the turbulence of the mid 1960s has emerged one of the developing world s major socio economic transformations this is the first book to provide an integrated treatment of the indonesian economy since 1966 hal hill offers a balanced analysis evaluation and explanation of indonesia s economic performance over the past three decades it highlights the successes rapid industrialisation major achievements in the food crop sector the adoption from the mid 1980s of outward

looking policies and generally good social progress it also draws attention to the country's challenges including the rocky path towards economic reform the large external debt regional and ethnic disparities and the need for a transparent and predictable policy environment

The Indonesian Economy in Crisis 1996-02-23 study of the economy of indonesia covers the balance of payments trade foreign exchange inflation the national budget industrial production and agricultural production

The Indonesian Economy since 1966 1967 this book broadens the reader's knowledge of several important issues having to do with the economy of indonesia and its surrounding regions to which professor iwan jaya azis has made significant contributions in the last 40 years the book is divided into three parts the first of which contains several chapters describing fundamental methods in regional economics development economics macroeconomics and finance these methods are crucial in understanding the political economy of indonesia and the neighboring regions among the techniques discussed are social accounting matrix sam analysis computable general equilibrium cge modeling and agent based modeling abm approaches the second part is on several important issues related to the indonesian economy the topics covered are urbanization resource booms manufacturing and micro and small enterprises the book's third part deals with the economies of several countries in the neighboring southeast asian region including the philippines vietnam and thailand

Indonesian economy 1957 this paper reviews economic developments in indonesia during 1996-97 the indonesian economy continued to perform well in 1996 with real gdp growth of 7.8 percent the rate of inflation fell to 5 percent in 1996-97 assisted by improved food supplies and generally subdued import prices a budgetary surplus of 1 percent of gdp was estimated for 1996-97 reflecting higher than projected oil revenue and firm expenditure control however broad money and private sector

credit growth were 27 percent and 24 percent respectively in the face of strong private capital inflows

Indonesia's Economic Stabilization and Development 1979

this book is a rich selection of speeches and writings of professor widjojo nitiasastro of the university of indonesia who has radically changed the command economy under soekarno into development planning using economic analysis under soeharto he is one of the most respected and influential economists of the twentieth century he is also the first indonesian demographer this background has contributed to his wide focus on development issues such as poverty food security education health and family planning this book provides invaluable insight for all who are interested in indonesia s economic development it is divided into six parts indonesia s development plan implementation of indonesian development facing economic crises foreign debt management equity and development and indonesia and the world

The Indonesian Economy 2024-03-21 nine of these chapters are revisions of papers presented at a workshop on socio economic

conditions during the Indonesian crisis organized by the department of economics and centre for advanced studies national university of singapore in 2000

The Indonesian Economy and the Surrounding Regions in the 21st

Century 1967 based on new datasets this book presents an economic history of Indonesia. It analyses the causes of stagnation of growth during the colonial and independence period making use of new theoretical insights from institutional economics and new growth theory. The book looks at the major themes of Indonesian history: colonial exploitation and the successes and limitations of the post 1900 welfare policies; the price of instability after 1945 and the economic miracle after 1967. The book not only discusses economic change and development or the lack thereof but also the institutional and socio-political structures that were behind these changes. It also presents a lot of new data on the changing welfare of the Indonesian population on income distribution and on the functioning of markets for rice, credit and labour, concluding with a discussion on whether the poor profited from the economic changes. This book is a useful contribution to Southeast Asian studies and international economics.
