continuing her journey from a deeply religious islamic upbringing to a post at harvard the brilliant charismatic and controversial new york times and globe and mail 1 bestselling author of infidel and nomad makes a powerful plea for a muslim reformation as the only way to end the horrors of terrorism sectarian warfare and the repression of women and minorities today she argues the world s 1 6 billion muslims can be divided into a minority of extremists a majority of observant but peaceable muslims and a few dissidents who risk their lives by questioning their own religion but there is only one islam and as hirsi ali shows there is no denying that some of its key teachings not least the duty to wage holy war are incompatible with the values of a free society for centuries it has seemed as if islam is immune to change but hirsi ali has come to believe that a muslim reformation a revision of islamic doctrine aimed at reconciling the religion with modernity is now at hand and may even have begun the arab spring may now seem like a political failure but its challenge to traditional authority revealed a new readiness not least by muslim women to think freely and to speak out courageously challenging the jihadists she identifies five key amendments to islamic doctrine that muslims have to make to bring their religion out of the seventh century and into the twenty first and she calls on the western world to end its appeasement of the islamists islam is not a religion of peace she writes it is the muslim reformers who need our backing not the opponents of free speech interweaving her own experiences historical analogies and powerful examples from contemporary muslim societies and cultures heretic is not a call to arms but a passionate plea for peaceful change and a new era of global toleration in the wake of the charlie hebdo murders with jihadists killing thousands from nigeria to syria to pakistan this book offers an answer to what is fast becoming the world s number one problem

while the world of political islam continues to be dominated by acts of violence and a separatist agenda there are signs of reform in the arab spring movement ayaan hirsi ali who has been at the forefront of the reform movement offers an analysis of what s

happening and how it could happen faster around the world cracks are starting to appear in the world of political islam while its leaders remain strong and defiant and while it continues to be characterized by separatism and an agenda of violence a number of people have questioned its rigid stances from pakistani schoolgirl malala yousafzai to amina tyler the activist who posed nude on facebook to make a point about women s bodies belonging to themselves beyond that political movements across the middle east the arab spring protests show that a number of muslims are increasingly fed up by what they see as a system which is too inflexible often corrupt and which prevents countries from getting ahead author ayaan hirsi ali has long been an outspoken critic of political islam specifically its treatment of women in her books she s told her own story and how she escaped the bonds of a strict muslim upbringing in this book she moves beyond the personal story to a more overtly political stance while women remain her main concern she also addresses islam s other problems its emphasis on passivity its hypocrisy about the modern world its defensiveness when criticized analysing the embryonic protest movements from around the world she asks what it would take to achieve a reformation and how long it will take

twenty years ago ayatollah khomeini called for the assassination of salman rushdie and writers around the world instinctively rallied to rushdie s defense today according to writer paul berman rushdie has metastasized into an entire social class an ever growing group of sharp tongued critics of islamist extremism especially critics from muslim backgrounds who survive only because of pseudonyms and police protection and yet instead of being applauded the rushdies of today people like ayan hirsali and ibn warraq often find themselves dismissed as strident or as no better than fundamentalist themselves and contrasted unfavorably with representatives of the islamist movement who falsely claim to be moderates how did this happen in the flight of the intellectuals berman one of america s leading public intellectuals foreign affairs conducts a searing examination into the intellectual atmosphere of the moment and shows how some of the west s best thinkers and journalists have fumbled badly in their efforts to grapple with islamist ideas and violence berman s investigation of the history and nature of the islamist movement includes some surprising revelations in examining hassan al banna the founder of the muslim brotherhood he shows the rise of an immense and often violent worldview elements of which survives today in the brigades of al qaeda and hamas berman also unearths the shocking story of al banna s associate the grand mufti of jerusalem who collaborated personally with adolf hitler to incite arab support of the nazis north african campaign echoes of the grand mufti s nazified islam can be heard among the followers of al banna even today in a gripping and stylish narrative berman also shows the legacy of these political traditions most importantly by focusing on a single philosopher who happens to be hassan al banna s grandson oxford professor tariq ramadan a figure widely celebrated in the west as a moderate despite his troubling ties to the islamist movement looking closely into what ramadan has actually written and said berman contrasts the reality of ramadan with his image in the press in doing so the flight of the intellectuals sheds light on a number of modern issues on the massively reinvigorated anti semitism of our own time on a newly fashionable turn against women s rights and on the difficulties we have in discussing terrorism and presents a stunning commentary about the modern media s peculiar inability to detect and analyze some of the most dangerous ideas in contemporary society

ηmia intenzione mettere a disagio molte persone non solo i musulmani ma anche i difensori occidentali dell islam non lo farò disegnando vignette voglio invece sfidare secoli di ortodossia religiosa con idee e argomenti che sono certa saranno definiti eretici I islam non è una religione di pace impegnata da sempre nella difesa dei diritti umani con opinioni

radicali che le sono già valse una fatwa ayaan hirsi ali è una delle voci più potenti e controverse del mondo islamico attraverso la sua drammatica esperienza tessendo insieme analogie storiche ed esempi illuminanti della società musulmana contemporanea intende demolire i luoghi comuni sull'islam quelli che ci impediscono di riconoscere che la violenza e la sua giustificazione sono esplicitamente presenti nei suoi testi sacri solo guardandolo per quello che è potremo risolvere il problema sempre più pressante e globale della violenza politica perpetrata in nome della fede l'occidente ha le sue responsabilità non può avere paura di apparire intollerante e abdicare al pensiero critico l'islam ha bisogno di una riforma che ne sovverta i principi anche religiosi una riforma pacifica contro le stragi di is e boko haram che nella proposta dell'autrice dovrà costruirsi su cinque pilastri concettuali garantire che maometto e il corano siano aperti all'interpretazione e alla critica dare priorità all'esistenza terrena legare le mani alla sharia porre fine alla pratica dell'ordinare il bene e proibire il male e infine abbandonare l'appello al jihad anche questa volta le sue non sono parole leggere non vedo altra via per noi verso il futuro altra via almeno che non sia disseminata di cadaveri

Reformiert euch!
