The Roman Martyrs 2018

the roman martyrs contains translations of forty latin passiones of saints who were martyred in rome or its near environs during the period before the peace of the church c 312 some of the roman martyrs are universally known ss agnes sebastian or laurence for example but others are scarcely recognized outside the ecclesiastical landscape of rome itself each of the translated passiones is accompanied by an individual introduction and commentary the translations are preceded by an introduction which describes the principal features of this little known genre of christian literature and are followed by five appendices which present translated texts which are essential for understanding the cult of roman martyrs this volume offers the first collection of the roman passiones martyrum translated into a modern language they were mostly composed during the period 425 675 by anonymous authors who were presumably clerics of the roman churches or cemeteries which housed the martyrs remains it is clear that they were composed in response to the explosion of pilgrim traffic to martyrial shrines from the late fourth century onwards at a time when authentic records protocols of their trials and executions had long since vanished and the authors of the passiones were obliged to imagine the circumstances in which martyrs were tried and executed the passiones are works of fiction and because they abound in ludicrous errors of chronology they have been largely ignored by historians of the early church although they cannot be used as evidence for the original martyrdoms they nevertheless allow a fascinating glimpse of the concerns which animated christians during the period in question for example the preservation of virginity or the ever present threat posed by pagan practices as certain aspects of roman life will have changed little between the second century and the fifth the passiones shed valuable light on many aspects of roman society not least the nature of a trial before an urban prefect and the horrendous tortures which were a central feature of such trials the passiones are an indispensable resource for understanding the topography of late antique rome and its environs as they characteristically contain detailed reference to the places where the martyrs were tried executed and buried

in may 1555 a broadsheet was produced in rome depicting the torture and execution in london and york of the carthusians of the charterhouses of london axeholme beauvale and sheen during the reign of henry viii this single page martyrology provides the basis for an in depth exploration of several interconnected artistic scientific and scholarly communities active in rome in 1555 which are identified as having being involved in its production their work and concerns which reflect their time and intellectual environment are deeply embedded in the broadsheet especially those occupying the groups and individuals who came to be known as spirituali and in particular those associated with cardinal reginald pole who is shown to have played a key role in its production following an examination of the text and a discussion of the narrative intentions of its producers a systematic analysis is made of the images this reveals that the structure content and intention of what at first sight seems to be nothing more than a confessionally charged catholic image of the english carthusian martyrs typical of the genre of propaganda produced during the reformation is astonishingly dominated by the most celebrated name of the italian renaissance the artist michelangelo buonarotti not only are there direct borrowings from two works by michelangelo which had just been completed in rome the conversion of st paul and the crucifixion of st peter in the pauline chapel but many other of his works are deliberately cited by the broadsheet s producers through the use of a variety of artistic scientific and historical approaches the author makes a compelling case for the reasons for michelangelo s presence in the broadsheet and his influence on its design and production the book not only demonstrates michelangelo s close relationship with notable catholic reformers but shows him to have been at the heart of the english counter reformation at its inception this detailed analysis of the broadsheet also throws fresh light on the marian religious policy in england in 1555 the influence of spain and the broader preoccupations of the counter reformation papacy while at the same time enriching our understanding of martyrology across the confessional divide of the reformation

from ancient greece to medieval baghdad from revolutionary france to china s qing dynasty women mathematicians have worked alongside men to a degree that was denied them in most other fields of scientific inquiry locked out of biological studies first by restrictions on their freedom of travel and later because of concerns that they would be corrupted by evolutionary thought effectively barred from experimental physics for centuries through lack of access to specialized equipment and inconsistently permitted a medical education women have for three thousand years and more been a steady presence during every great

mathematical era they have contributed to the fundamentals of geometry and the expansion of algebra from the earliest days of those disciplines and stepped in on multiple occasions to save the mathematical traditions of their home countries from death by ossification they have guided us through the twisted realms of non euclidean space gifted us the mathematical models we need to understand the behavior of the metals of our buildings and the soils we construct them upon and given us an at times chilling view into the fates of super massive systems over deep time a history of women in mathematics the first comprehensive account of women s role in mathematics in 35 years tells the stories of over a hundred women some of whom had to go to the lengths of lying about their gender in correspondence or secrete themselves behind screens during lectures to access the mathematical resources that their male counterparts took for granted but many of whom had positions of academic honor and international prestige that women in other fields would have to wait centuries to attain from theano of croton to rachel riley here are the tales of the women who have illuminated and demystified the profound structures upon which our reality is built with stones of number and mortar of imagination

in making martyrs east and west cathy caridi examines how the practice of canonization developed in the west and in russia focusing on procedural elements that became established requirements for someone to be recognized as a saint and a martyr caridi investigates whether the components of the canonization process now regarded as necessary by the catholic church are fundamentally equivalent to those of the russian orthodox church and vice versa while exploring the possibility that the churches use the same terminology and processes but in fundamentally

different ways that preclude the acceptance of one church's saints by the other making martyrs east and west will appeal to scholars of religion and church history as well as ecumenicists liturgists canonists and those interested in east west ecumenical efforts

this book examines strategies of transformation becomings image making and the phantasmagoric that figure in four stories and a novel by gothic fiction writer pilar pedraza spain 1951 while critics have long associated the bildungsroman with gothic fiction this study takes a close look at the developmental process itself the means by which a protagonist young or old might transcend a deprived status to achieve a complete sense of self pedraza's works imply that regardless of the path followed a character's ability to think differently is crucial to progress the fixed image representative of an inflexible socially determined mindset arises as an obstacle to maturation in días de perros for example a triangular arrangement of coins in a cigar box elucidates

the connection between individual lives and the social order or assemblage literary texts such as this one serve as collective assemblages of enunciation capable of exposing fixed images as powerful instruments of control tristés ayes del Águila mejicana discovers fixed images among the icons of colonial Spain's exequias reales used in this case to territorialize the evolving identity of indigenous peoples the territory that Pedraza's fiction best illuminates is in reality the image when images remain fixed or territorialized they uncannily infect the assemblages over which they exert influence placing emphasis on images that impact women Pedraza in Anfiteatro for example deconstructs cat woman which albeit a potentially subversive image in its early manifestations eventually ceases to empower the feminine lashing it rather to a burdensome stereotype territorialized the feminine must then break free from the image in order to discover representations more capable of illuminating present day challenges the phrase dark assemblages drawn from Deleuze and Guattari's a thousand plateaus gestures toward societal stagnation as a decisive factor in individual evolution gothic fiction represents an uneven landscape in that it tenders the possibility of a social critique yet equally well lends itself to the exclusion of specific identities and practices that society brands as anomalous Pedraza's gothic fiction is indeed subversive in that it offers readers original perceptions of modern day people and the assemblages dark or otherwise to which they belong

scapegoats are innocent victims who have experienced blame and violence at the hands of society ren girard proposes that the gospels present jesus as a scapegoat whose innocent death exposes how humans have always created scapegoats this revelation should have cured societal scapegoating yet those who claim to live by the gospels have missed that message they continue to scapegoat and remain blind to the suffering of scapegoats in modern life christians today tend to read the new testament as victors not as victims the teachings and actions of jesus thus lose much of their subversive significance the gospels become one harmonized story about individual salvation rather than distinct representations of jesus's revolutionary work on behalf of victims scapegoats revisits the gospel narratives with the understanding that they tell scapegoats stories and that through those stories the kingdom of god is revealed bashaw goes beyond girard's arguments to show that jesus's whole public ministry not only his death combats the marginalization of victims these scapegoat stories work together to illuminate an essential truth of the gospels that jesus modeled a reality in which victims become survivors and the marginalized become central to the kingdom

in a groundbreaking historical work that addresses religious conversion in the west from an uncompromisingly secular perspective susan jacoby challenges the conventional narrative of conversion as a purely spiritual journey from the transformation on the road to damascus of the jew saul into the christian evangelist paul to a twenty first century religious marketplace in which half of americans have changed faiths at least once nothing has been more important in the struggle for reason than the right to believe in the god of one s choice or to reject belief in god altogether focusing on the long tense convergence of judaism christianity and islam each claiming possession of absolute truth jacoby examines conversions within a social and economic framework that includes theocratic coercion unto torture and death and the more friendly persuasion of political advantage economic opportunism and interreligious marriage moving through time continents and cultures the triumph of christianity over paganism in late antiquity the spanish inquisition john calvin s dour theocracy southern plantations where african slaves had to accept their masters religion the narrative is punctuated by portraits of individual converts embodying the sacred and profane the cast includes augustine of hippo john donne the german jew edith stein whose conversion to catholicism did not save her from auschwitz boxing champion muhammad ali and former president george w bush the story also encompasses conversions to rigid secular ideologies notably stalinist communism with their own truth claims finally jacoby offers a powerful case for religious choice as a product of the secular enlightenment in a forthright and unsettling conclusion linking the present with the most violent parts of the west s religious past she reminds us that in the absence of enlightenment values radical islamists are persecuting christians many other muslims and atheists in ways that recall the worst of the middle ages with 8 pages of black and white illustrations
